FOREWORD

The Constitution requires each house of the General Assembly to keep a Journal of its proceedings. The Journal is intended to assure a public account of legislative activity and constitutes the final official record of action by the General Assembly.

Under the provisions of Section 6.161, 6.162 and 57.151 of the *Kentucky Revised Statutes*, the Legislative Research Commission is responsible for comparing, editing, correcting, and publishing the Journals as approved by each house of the General Assembly. This volume represents the fulfillment of the obligation for the House of Representatives of 1974.

The text of a bill is spread in full when it receives a first reading. The roll call on passage of a bill is indicated upon its receipt of a third reading, or upon concurrence by the originating house in amendments by the second house. Simple and concurrent resolutions are printed on first reading when applicable or when adopted, and joint resolutions are treated as bills. A table of actions on bills and resolutions is appended.

Mrs. Shan Stone Gray and Mrs. Martha Jane Rogers prepared the 1974 House Journal. The edited copy and index found in this volume reflect the cooperative efforts of the commission's staff.

The Governor's State of the Commonwealth Address
January 8, 1974

LIEUTENANT GOVERNOR CARROLL
MR. SPEAKER
MEMBERS OF THE GENERAL ASSEMBLY
MY FELLOW KENTUCKIANS

You have extended an invitation for a report on the status of our state, which I accept with deep appreciation, and great enthusiasm.

In addition to this address, and the biennial budget recommendation, both which are traditional, I may ask your permission for two other appearances in joint session.

One would be a special energy message due to America's latest crisis. Kentucky's potential for a unique role in helping solve this crisis can have a tremendously favorable impact on our future. The other message would be to speak on reorganization of state government since such an undertaking has not been achieved in nearly 40 years.

Tonight's purpose, however, is to place the condition of our state in proper perspective. By doing so, you and others will gauge our present quality of life, how we have advanced in two years, and this Commonwealth's position among other states of the Union.

Certainly, all is not perfect. No Governor, no legislative body, ever accomplishes the sum total responsible individuals desire. Those who have formerly served would, I'm sure, echo this reality. We have

had outstanding Governors and outstanding General Assemblies. But to use an example, though every living Governor, as well as past legislatures, left legacies for others to grasp, each wanted to do more.

Years from now, as society changes, other Governors and other legislators will experience the frustrations of trying to perform countless good deeds they will, unfortunately, be unable to complete. This is the history of both our nation and commonwealth, a history dictating an approach to the rational continuity of administrations.....a base I have endeavored to strengthen since December 7, 1971.

In applauding the 1972 General Assembly, as others did following adjournment, I want to say here and now that it was the most productive session in history, and I challenge this body to surpass the tremendous contributions of service and leadership the 1972 General Assembly provided.

Such words as "meaningful, business-like, peaceful, and historic," were used by the analysts. Naturally they found faults. All of us can, especially when we rely on 20-20 hindsight, or personal preference. But the justified accolades were there. In my opinion, the justification is now even more warranted in view of Kentucky's posture as 1974 begins.

The health of my state is first evaluated by examining its economic position. In no uncertain terms, the key to progress is when men and women are working.

Kentuckians are working' 106,000 more in nonagricultural jobs alone since 1971.

Unemployment is declining rapidly, and is lower than the national average.

Per capita income for Kentuckians has increased faster than the national average.

For the first time Kentucky has recorded true billion dollar farm economies--last year it was one and a quarter billion.

Corporations and businesses realized their highest profit levels ever.

Why did all this happen?

- * Because the 1972 General Assembly and I kept our word to the people of Kentucky.
- * Because we tossed away old methods and were willing to try new ones, in the face of howling critics.
- * Because of a determination to make positive things happen, beneficial to all who live in this state.
- * And, because the people worked hard to improve their own lot.

At no time since the beginning of World War II, and in many cases at no time ever, has our state's economic growth of the last two years been matched. But the major point is that Kentucky did better than the nation, despite alarming national problems--inflation, impoundments, curtailments of programs, and a paralysis of federal decision making. It adds up to a Kentucky initiative for which we can all take pride'

At this point, however, caution is indicated. It is imperative that we distinguish between the past two years and the next two years. The past has been conquered' Looking back since the end of 1971, we have hurdled many obstacles which haven't been in Kentucky's way during previous times. Looking ahead to the end of 1975, the energy crisis looms as a definite threat to our state as well as the entire country. Our ability to overcome this and other expected difficulties will be the supreme test. But let me make one point without reservation--there may be an energy shortage, but there will never be a shortage of another resources, and that resource is the spirit and determination of Kentuckians'

Adversity builds strength. Warning of adversity on January 4, 1972, in this chamber, I said: "There are serious problems which must be turned into working solutions by the time we leave office: I am approaching the next four years supported by the understanding that adversity can instill a stronger spirit."

This has been the approach. Where there were no federal domestic priorities, there have been state priorities. Where rising costs have burdened especially the poor, and those on fixed and middle incomes, Kentuckians are now paying less state taxes and receiving more services.

Our unprecedented economic growth is seen by the \$598 per capita income increase. In 1971, unemployment for this state amounted to 5.2%. At the end of last year, it was 4.2%. We weren't in this condition for instance, in 1969 when the national rate was lower than Kentucky's, nor in 1970 when unemployment rose, both, in Kentucky and America. That climb peaked two years ago. It has been going downward ever since.

To expand further, last month only 1.7% of our citizens were receiving unemployment compensation. This compares to 2.3% in the U.S., again showing Kentucky's outstanding position among other states.

The dramatic rise in workers follows our stable economy, and it comes partially with new and expanded industry--151 new industries with 121 expansions of existing firms. The two-year investment amounted to over \$415 million, but that's not all. An additional \$231 million was invested in industrial warehousing and electric generating plants.

Confidence is growing in Kentucky'

Agriculture's record-smashing two years were real; federal subsidies were not fed into state figures. Farmers gained their highest net incomes ever. And we didn't do it by selling grain to Russia which caused food prices to skyrocket out of sight'

When you put this all together--business profits, unemployment, new jobs, farm income, increased per capita income--with another major part of our economy, coal, it means that Kentucky, often looked down upon by others in the past, stands tall in America'

Look at the coal industry. Its employment has now gone over the twenty-nine thousand figure, the highest on record. Coal production neared 128 million tons last year, 20 million tons over our nearest rival, West Virginia' Our first year was also a marked improvement for the coal industry. These things happened--more production, more employment, more money--with fewer strip mines and small deep mines which were generally marginal at best.

What, therefore, is obvious? Despite the perils of a threatening national economy, Kentucky stands out, and someone, just someone, might conclude that in this state we're doing it right'

It is also apparent that by working together, the executive and 1972 legislative branches were correct in instituting tax reform which dramatically improved our economy.

When I stood before many of you two years ago with a tax reform plan, and a philosophy of operating government as a business, the doubting Thomases were vocal. They have been proven wrong' And who can say this better than the housewife, trying to figure out a food budget in the crunch of alarming price increases? Her family has received even more of a break than first anticipated.....a break when we eliminated the sales tax on food, a campaign commitment you helped me keep.

How I remember those who charged me with irresponsibility in our revenue estimates.....who said corporate tax adjustments would harm profits.....who said the severance tax--another campaign pledge--would depress the coal industry, and who said the removal of the sales tax on food was ill-timed. Perhaps this will illustrate the foolishness of those who speak simply for political gain, who use scare tactics against Kentuckians, and who are experts at finding reasons why new ideas won't work, rather than being willing to make them work'

Tax reform has stimulated the economy and lessened the heavy load on people, and I publicly thank those men and women who have helped bring us to a new plateau. It has prevented us from merely equalling the national averages, or falling below, as has been the case in the past. It has given Kentuckians a better quality of life, for if we were not where we are today, individuals and families would be paying more taxes, just to keep up, rather than less taxes to move ahead. Furthermore, their struggle against national economic plights would be greater.

The health of Kentucky can be examined through its efforts toward personal safety. Again, Kentucky beats the nation. This time in decline of major crimes, another event which hasn't occurred since before World War II.

The health of Kentucky can be examined through its environment where facts overshadow assumption. Those facts are that in January, 1972, 38,000 acres of surface-mined land were in default of reclamation. A positive response has been achieved on 37,000 acres. In doing so, the philosophy was getting the right kind of reclamation rather than pulling the trigger on those who failed to reclaim in the past, but would, and have, restored the land through firm, clear direction, and firm supervision and enforcement.

The greening of Kentucky shows in other ways, with over 14 million new trees planted last year alone; through improved forestry surveillance resulting in the lowest loss by fire recorded in recent years; and through the reclamation of orphan banks, a cooperative venture between the state and Job Corps that is working well and that was funded by the last General Assembly.

The Department for Natural Resources and Environmental Protection's air pollution permit system has resulted in an emission reduction of 1.6 million tons per year of pollutants. Twenty-five additional air monitoring stations have been added to the state network. Open dumps are going, and sanitary landfills are replacing them. Eighty open dumps were closed last year. Water and sewer facility plans and water quality management plans for all of our Area Development Districts have been completed. The same holds true in planning for hazardous solid waste, water quality control in mining, and water impoundment regulations. These new standards were reached because the 1972 General Assembly had the courage to support my budget and programs despite the self-anointed experts who said it couldn't be done.

Kentucky's health is also viewed through her opportunities for citizen activities, whether it be recreation, travel, hunting and fishing facilities, historical events or the many other advantages a state can provide. Tied with our commercial growth is the tourist industry, which, during the last two years, has reached unprecedented heights in the number of visitors, both from in state and out of state, in the number of miles traveled in Kentucky, and in the dollars spent.

Although major construction at Boonesboro and Tom Sawyer Park has begun, and land has been acquired along with a master plan for the new Kentucky Horse Park already in limited use, the past two years have been a period of necessary refurbishing, of long-needed maintenance and upgrading of our entire parks system. New management techniques have justified themselves by taking some of the red out of the parks budget, a red which has always existed but has seldom been improved upon. These techniques have increased service quality to the 50 million persons visiting our parks in the past two years. I base this on receipt of 40,000 comments, of which 90% were favorable.

As you know, the Department of Transportation is responsible for more than 25,000 miles of public roads and assists county governments in meeting their responsibilities for over 19,000 miles. The current fiscal year is also the first for our new Municipal Aid program (state-local revenue sharing) and I am happy to report that 423 cities have benefited with improvements to 720 miles of local streets. This is the revenue-sharing program the last General Assembly enacted against opposition from those who feared change. But the record already shows it was a responsible and responsive answer to serious needs.

During the first two years, construction projects statewide totaled \$297 million. This substantial program notes two unusual achievements. It includes more bridges across major rivers than the total of all such bridge projects for the past 50 years, and had the greatest single project ever awarded, the \$17.5 million Pikeville Model Cities cut-through.

Kentucky's health is directly associated with the ability of state and local governments to function as a team. In this area the spirit I mentioned earlier is clear. Never before has there been a more direct line of communications from the community--the citizen and official--to state government.

Home rule has proven beneficial. Reorganization has for the first time given local government a direct link to decision making in the executive branch. The Office for Local Government, our new liaison with cities and counties, provides services to an average of 900 assistance requests per month. Numerous programs in Kentucky have resulted through the full cooperation and input among the state, local governments and community leaders. Certainly, this is evidenced in our metropolitan areas. It says to you and all Kentucky.....government can be personal, and I think that's the way you want it'

I shall not expand at this time on the results of reorganization or the effects of innovative business techniques applied to the operation of state government. You will have that information in the budget message and other reports. However, I can look you square in the eye and say that, as the last budget called for a percentage decrease in tax dollars for government operations, we did even better by spending less than

was appropriated.

I can look you square in the eye and say without hesitation that reorganization is working, and will work even more professionally as time passes, with, of course, your concurrence.

I can tell you that, for example, the entire Department of Transportation now has fewer employees than the old single Highway Department did when I assumed office.

I can show you positive signs that the spiraling growth of government can be prevented. Isn't this what we both want?

I can assure you that a greater delivery of services, a faster delivery of services, is underway, and this is what government must be all about.

The health of Kentucky is also weighed through its educational opportunities. Education has been under a microscope since the beginning of public schools. It receives the greatest amount of state tax dollars, yet there are those who irresponsibly criticize state government, the legislatures, for failure.

Well exactly where does the amount of money the General Assembly appropriates for elementary and secondary education stand among all 50 states? The answer is 9th best in the nation, and it is no less than disgusting whenever individuals and a few special interest groups backbite many of you, plus others who have fought against economic odds to improve education.

Local funding support does not get such high marks.

Community support for elementary and secondary education ranks 42, even though there are legal and constitutional steps available to any community willing to expand its own effort for education. So let us distinguish who is doing what, and strive to improve the quality of education by ensuring that the massive state funds are indeed student-oriented.

Federal action has brought a cloud over education. Probably the one example among many poor federal decisions which I can give is the drastic curtailment of funds for head-start, certainly needed in Kentucky. First graders, through no fault of their own, are thrown into classes with those far more prepared for formal schooling. It is an adversity we are trying to overcome, and will overcome, as initiated when the last legislature funded and approved my plan for a public kindergarten, another campaign pledge. Here is one of several areas in which we must move onward.

There are many ways we can improve the quality of education, and once more I must remind you of federal abandonment, this time to libraries. Thousands upon thousands of school children utilize public libraries throughout the state, just as do adults. But the help from Washington suddenly stopped, and we're having to go it alone. And together we will do it.

Educational television now is a tool for 95% of our school districts, with 40,000 additional pupils having this special opportunity for learning in the last two years. We must make sure quality is the keynote to KET, just as we must make sure quality teaching is being provided in every county, and just as we must make sure that opportunities for learning are not isolated from any area.

Vocational education, where there has been an 11% increase in enrollment during the last year alone, and strong expansion, is another plus for Kentucky, one deserving our continued attention.

Hungry children are handicapped children. The state's effort to eliminate this disgraceful fact of life amounted to 32 million free meals and 600,000 reduced cost meals during the last two school sessions. May we never again find a hungry child in our schools.

The 1972 General Assembly, acting on my recommendation, moved aggressively in behalf of special education. Again, more must be done, but let's give credit for what has been accomplished.

The last two years have definitely found refinement in higher education, a standard I felt absolutely necessary and one being implemented by the restructured and strengthened Council on Public Higher Education. At the same time Kentucky, by legislative action, assumed a larger financial role by bringing the University of Louisville into the state system, and by providing generous support to Northern Kentucky State

College, necessary for its very early years in the system.

Health and welfare for all citizens of Kentucky is one more indicator of our overall status. Recently, I said in a public statement that the Human Resources Cabinet would probably be the most pleasant surprise in total government reorganization. Hopefully you will agree.

Still--before, during and after reorganization, some startling events happened. They show how we did reorganize without not only disrupting services, but at the same time how we could improve them.

I think you will be especially interested in the following:

- * A new procedure instituted in 1972 providing special intensive treatment to juveniles who would have, because of serious crimes, gone to adult corrections institutions, has passed its crucial test. Seventy-five percent fewer juveniles are now in adult correctional facilities as a result of rehabilitation efforts rather than merely putting them away to learn to become hardened adult offenders in later years.

- * Since 1972, the number of children being committed to juvenile treatment facilities has decreased 45% as a result of community-based treatment services, certainly a tax saving, but even more, a human savings.

- * In early 1972, there was a predicted nationwide explosion of venereal disease. Acting upon my recommendation, the legislature gave increased appropriations to fight this problem. Kentucky's expected increase of 14% in new cases of syphilis turned around to a six percent annual decrease.

And this one is very significant. The work incentive program designed to train and place welfare recipients into gainful employment has shown great success. We put the emphasis on productive employment rather than hand-outs. Job placement has tripled with over 2,500 persons leaving the welfare rolls to assume tax-paying jobs in 1973 alone, and this figure is going up all the time.

In reviewing the status of our commonwealth, I want to briefly touch on other notable points.

Our corrections system will not be classified any more as hell-hole institutions.

Our parole and probation system will not be under the unsavory light of patronage any more.

Our merit system has finally made believers out of skeptics with the addition of 4,200 state employees to its protection which I will ask you to ratify; with the tightest control ever over dismissal procedures whereby Kentuckians aren't paying for political hanky-panky. To date, only 361 merit system employees have been dismissed for all causes, contrasting with some 1,474 dismissals during the first year of the previous administration.

The fight against drug traffic is unparalleled. A much larger enforcement unit can be measured by its effectiveness. In 1971, 369 narcotic and drug arrests were made, in 1972 the figure rose to 532, and in the first 11 months last year, the count neared 800. That unit, plus the attention given by the entire State Police force is just one more indication of the new assault on crime in Kentucky.

Our state's enrichments came from many progressive pieces of legislation during the first biennium. Consumer protection, a statewide public defender system, refinement of the penal code, court reform, a generic drug law, low income housing, state-local revenue sharing to upgrade community police forces.....all are people-oriented to enhance the lives of Kentuckians.

Wild Rivers protection, the Pollution Abatement Authority, the Technical Institute and Forensic Psychiatric Center are other noteworthy achievements.

Together, we kept faith with the citizens of the greatest state in America. We did what we pledged to do, proving that there can be credibility in politics and government.

The moral, cultural and physical fiber of Kentucky is strong. Hopefully that strength has been extended through wise, courageous and responsible leadership.

As I conclude, may these thoughts be left.

We have every reason to be proud as Kentuckians. We should be proud of our accomplishments. We saw adversity and were not afraid to challenge it. We conceived new ideas and were willing to try them. We asked for involvement and it came, it came from the communities, the farms, the young and the elderly.

Yes, there is all the room in the world for pride in what has taken place. But there isn't one inch of space for smugness. There is every reason to approach the future with even more determination, expecting the worst in view of our national traumas, yet striving for the best in view of our own status this hour.

Two years from now I pray that we can look back on this 1974 session and say every man and woman in a position of leadership looked the future square in the eye, then took a giant step for human betterment. We can expand Kentucky's role as a national leader, by exceeding other states in more categories. In doing so, we will have again kept faith with those who come to us for the answers to their problems, and they will continue to realize that Kentucky doesn't have to take a back seat to any other state.

Thank you, and good evening.

HB 184, AN ACT to conserve energy on Kentucky highways.

WHEREAS, the Congress of the United States of America has by passage of **HR 11372** required that a speed limit of 55 miles per hour be imposed on the Nation's highways in order to conserve fuel, and

WHEREAS, failure to comply with **HR 11372** could cause the Commonwealth of Kentucky to lose all of its Federal Highway Aid under 23 U.S.C. 106,

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS Chapter 189 is created to read as follows:

(1)(a) Notwithstanding the provisions of KRS 189.390 or any other statutes the speed limit for all types of motor vehicles on any portion of any public highway of four or more traffic lanes, the opposing lanes of which are physically separated by means other than striping, shall be 55 miles per hour.

(b) The maximum speed limit on any public highway except those mentioned in subsection (a) shall be 55 miles per hour. The Department of Transportation may set limits under this subsection less than 55 miles per hour after complying with the provisions of KRS 189.390(3) but in no event shall the limit exceed 55 miles per hour.

(c) The legislative body of each city and the county court of any county shall limit the speed of any motor vehicle on any city street or county road to 55 miles per hour.

Report of Committees

The Committee on Business Organizations and Professions reported **HB 12, HB 28, HB 29** and **HB 31** with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

HB 12, AN ACT relating to the management and use of investments held by eleemosynary institutions and funds.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS 273.405 to 273.440 is created to read as follows:

In this Act, unless the context otherwise requires:

(1) "Institution" means an incorporated or unincorporated organization organized and operated exclusively for educational, religious, charitable, or other eleemosynary purposes, or a governmental organization to the extent that it holds funds exclusively for any of these purposes.

(2) "Institutional fund" means a fund held by an institution for its exclusive use, benefit, or purposes, but does not include:

(a) A fund held for an institution by a trustee that is not an institution; or

(b) A fund in which a beneficiary that is not an institution has an interest, other than possible rights that could arise upon violation or failure of the purposes of the fund.

(3) "Endowment fund" means an institutional fund, or any part thereof, not wholly expendable by the institution on a current basis under the terms of the applicable gift instrument.

(4) "Governing board" means the body responsible for the management of an institution or of an institutional fund.

(5) "Historic dollar value" means the aggregate fair value in dollars of:

(a) An endowment fund at the time it became an endowment fund;

(b) Each subsequent donation to the fund at the time it is made; and

(c) Each accumulation made pursuant to a direction in the applicable gift instrument at the time the accumulation is added to the fund. The determination of historic dollar value made in good faith by the institution is conclusive.

(6) "Gift instrument" means a will, deed, grant, conveyance, agreement, memorandum, writing, or other governing document (including the terms of any institutional solicitations from which an institutional fund resulted) under which property is transferred to or held by an institution as an institutional fund.

Section 2. A new section of KRS 273.405 to 273.440 is created to read as follows:

The governing board may appropriate for expenditure for the uses and purposes for which an endowment fund is established so much of the net appreciation, realized and unrealized, in the fair value of the assets of an endowment fund over the historic dollar value of the fund as is prudent under the standard established by Section 6 of this Act. This section does not limit the authority of the governing board to expend funds as permitted under other law, the terms of the applicable gift instrument, or the charter of the institution.

Section 3. A new section of KRS 273.405 to 273.440 is created to read as follows:

Section 2 of this Act does not apply if the applicable gift instrument indicates the donor's intention that net appreciation shall not be expended. A restriction upon the expenditure of net appreciation may not be implied from a designation of a gift as an endowment, or from a direction or authorization in the applicable gift instrument to use only "income," "interest," "dividends," or "rents, issues or profits," or "to preserve the principal intact," or a direction which contains other words of similar import. This rule of construction applies to gift instruments executed or in effect before or after the effective date of this Act.

Section 4. A new section of KRS 273.405 to 273.440 is created to read as follows:

In addition to an investment otherwise authorized by law or by the applicable gift instrument, and without restriction to investments a fiduciary may make, the governing board, subject to any specific limitations set forth in the applicable gift instrument or in the applicable law other than law relating to investments by a fiduciary, may:

(1) Invest and reinvest an institutional fund in any real or personal property deemed advisable by the governing board, whether or not it produces a current return, including mortgages, stocks, bonds, debentures, and other securities of profit or nonprofit corporations, shares in or obligations of associations, partnerships, or individuals, and obligations of any government or subdivision or instrumentality thereof;

(2) Retain property contributed by a donor to an institutional fund for as long as the governing board deems advisable;

(3) Include all or any part of an institutional fund in any pooled or common fund maintained by the institution; and

(4) Invest all or any part of an institutional fund in any other pooled or common fund available for investment, including shares or interests in regulated investment companies, mutual funds, common trust funds, investment partnerships, real estate investment trusts, or similar organizations in which funds are co-mingled and investment determinations are made by persons other than the governing board.

Section 5. A new section of KRS 273.405 to 273.440 is created to read as follows:

Except as otherwise provided by the applicable gift instrument or by applicable law relating to governmental institutions or funds, the governing board may:

(1) Delegate to its committees, officers or employees of the institution or the fund, or agents, including investment counsel, the authority to act in place of the board in investment and reinvestment of institutional funds;

(2) Contract with independent investment advisors, investment counsel or managers, banks, or trust companies, so to act; and

(3) Authorize the payment of compensation for investment advisory or management services.

Section 6. A new section of KRS 273.405 to 273.440 is created to read as follows:

In the administration of the powers to appropriate appreciation, to make and retain investments, and to delegate investment management of institutional funds, members of a governing board shall exercise ordinary business care and prudence under the facts and circumstances prevailing at the time of the action or decision. In so doing they shall consider long and short term needs of the institution in carrying out its educational, religious, charitable, or other eleemosynary purposes, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

Section 7. A new section of KRS 273.405 to 273.440 is created to read as follows:

(1) With the written consent of the donor, the governing board may release, in whole or in part, a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund.

(2) If written consent of the donor cannot be obtained by reason of his death, disability, unavailability, or impossibility of identification, the governing board may apply in the name of the institution to the circuit court of the county in which the institution's principal office is located for release of a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund. The Attorney General shall be notified of the application and shall be given an opportunity to be heard. If the court finds that the

restriction is obsolete, inappropriate, or impracticable, it may by order release the restriction in whole or in part. A release under this subsection may not change an endowment fund to a fund that is not an endowment fund.

(3) A release under this section may not allow a fund to be used for purposes other than the educational, religious, charitable, or other eleemosynary purposes of the institution affected.

(4) This section does not limit the application of the doctrine of *cy pres*.

Section 8. A new section of KRS 273.405 to 273.440 is created to read as follows:

This Act shall be so applied and construed as to effectuate its general purpose to make uniform the law with respect to the subject of this Act among those states which enact it.

Section 9. A new section of KRS 273.405 to 273.440 is created to read as follows:

This Act may be cited as the "Uniform Management of Institutional Funds Act."

HB 28, AN ACT relating to alcoholic beverages.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 243.220 is amended to read as follows:

(1) No license for the sale of alcoholic beverages at retail shall be issued for any premises unless the applicant for the license is the owner of the premises or is in possession of the premises under a written lease for a term of not less than the license period.

(2) (a) No premises shall be licensed for the sale of alcoholic beverages at retail except where the licensed premises and the entrance to the premises are on the street level and located in a business center or on a main thoroughfare.

(b) Paragraph (a) of this subsection shall not apply to a hotel, club or restaurant, *provided the club or restaurant receives a minimum of forty per cent (40%) of its income from the sale of food and has a minimum seating capacity of fifty (50) people at tables.* [which has been bona fide in business as a licensee in premises located above or below the ground floor for at least one (1) year preceding the date on which its application for a license is made.] In the class of cases described in this paragraph the administrator to whom the application is made may, in the exercise of his sound discretion, decide whether the premises are to be licensed.

(3) (a) Except as provided in paragraphs (b) and (c) of this subsection, no license for the sale of alcoholic beverages at retail shall be issued for any premises that are located on the same street as, and within two hundred (200) feet of, a building used exclusively as a church or for class rooms of a school, if the governing authority of the church or school, within ten (10) days after receiving notice of the application for the license, files written protest with the state administrator against the issuance of the license. The measurement shall be taken on the street on which the licensed premises are located, in a straight line from the nearest outside wall of the building on the licensed premises to the nearest outside wall of the church or school building. Proof of the giving of notice to the governing authority of the church or school must be furnished to the state administrator before the license is issued.

(b) A hotel, drug store, private club or other retail licensee which or who has been bona fide in business as a licensee at a particular location for not less than one (1) year preceding the passage of Acts 1938, ch. 2, or the establishment of the church or school, may be issued a license by the administrator, in the exercise of his sound discretion, regardless of protest, even though the premises are within less than two hundred (200) feet of a building occupied exclusively as a church or for class rooms of a school.

(c) In cities of the first, second or third class, the city administrator, with the approval of the state alcoholic beverage control board, may issue a regulation in such city requiring written permission by the governing authority of the church or school for the licensing of retail premises within two hundred (200) feet of the church or school building, in which case the state administrator may not issue the license without such permission, except under the circumstances set forth in paragraph (b) of this subsection.

Any license issued under KRS 243.020 to 243.670 must be revoked or suspended in the case of sale of alcoholic beverages by the licensee at a price in excess of the price set by federal or state regulations.

The Committee on Public Utilities and Transportation reported **HB 64**, with Committee Amendment attached thereto, with the expression of opinion that the same should pass. Read at length for the first time and ordered placed in the Calendar.

HB 64, AN ACT relating to oil and gas conservation.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 353.510 is amended to read as follows:

As used in KRS 353.500 to 353.720, unless the context otherwise requires:

- (1) "Department" means the department of mines and minerals as defined in KRS 351.010;
- (2) "Commissioner" means the commissioner of the department of mines and minerals as defined in KRS 351.010;
- (3) "Director" means the director of oil and gas conservation as provided in KRS 353.530;
- (4) "Commission" means the Kentucky Oil and Gas Conservation Commission as provided in Section 3 of this act;
- (5)[(4)] "Person" means any natural person, corporation, association, partnership, receiver, governmental agency subject to KRS 353.500 to 353.720, trustee, so-called common-law or statutory trust, guardian, executor, administrator or fiduciary of any kind;
- (6) "Correlative rights" means the reasonable opportunity of each person entitled thereto to recover and receive without waste the oil and gas in and under his tract or tracts, or the equivalent thereof;
- (7)[(5)] "Oil" means natural crude oil or petroleum and other hydrocarbons, regardless of gravity, which are produced at the well in liquid form by ordinary production methods and which are not the result of condensation of gas after it leaves the underground reservoir;
- (8)[(6)] "Gas" means all natural gas, including casinghead gas, and all other hydrocarbons not defined above as oil;
- (9)[(7)] "Pool" means an underground reservoir containing a common accumulation of oil or gas or both. Each productive zone of a general structure which is completely separated from any other zone in the structure, or which for the purpose of KRS 353.500 to 353.720 may be so declared by the department, is covered by the word "pool" as used herein;
- (10) "Field" means the general area which is underlaid or appears to be underlaid by at least one pool; and "field" includes the underground reservoir containing oil or gas or both. The words "field" and "pool"

mean the same thing when only one underground reservoir is involved; however, "field," unlike "pool," may relate to two or more pools.

(11) *"Just and equitable share of production" means, as to each person, an amount of oil or gas or both substantially equal to the amount of recoverable oil and gas in that part of a pool underlying his tract or tracts;*

(12)[(8)] *"Abandoned," when used in connection with a well or hole, means a well or hole which has never been used, or which, in the opinion of the department, will no longer be used for the production of oil or gas or for the injection or disposal of fluid therein;*

(13)[(9)] *"Workable bed" means:*

(a) *A coal bed actually being operated commercially;*

(b) *A coal bed that the department decides can be operated commercially and the operation of which can reasonably be expected to commence within not more than ten (10) years; or*

(c) *A coal bed which, from outcrop indications or other definite evidence, proves to the satisfaction of the commissioner to be workable, and which, when operated, will require protection if wells are drilled through it;*

(14)[(10)] *"Well" means a borehole drilled, or proposed to be drilled, for the purpose of producing natural gas or petroleum, or one through which natural gas or petroleum is being produced, or a borehole drilled or proposed to be drilled for the purpose of injecting any water, gas or other fluid therein or one into which any water, gas or other fluid is being injected;*

(15) *"Shallow well" means any well drilled and completed at a depth less than four thousand feet except, in the case of any well drilled and completed east of longitude line 84° 30', shallow well means any well drilled and completed at a depth less than four thousand feet or above the base of the lowest member of the Devonian Brown Shale, whichever is the deeper in depth.*

(16) *"Deep well" means any well drilled and completed below the depth herein provided for a shallow well.*

(17)[(11)] *"Operator" means any owner of the right to develop, operate and produce oil and gas from a pool and to appropriate the oil and gas produced therefrom, either for himself or for himself and others; in the event that there is no oil and gas lease in existence with respect to the tract in question, the owner of the oil and gas rights therein shall be considered as "operator" to the extent of seven-eighths of the oil and gas in that portion of the pool underlying the tract owned by such owner, and as "royalty owner" as to one-eighth interest in such oil and gas; and in the event the oil is owned separately from the gas, the owner of the right to develop, operate and produce the substance being produced or sought to be produced from the pool shall be considered as "operator" as to such pool; [person who proposes to or does locate, drill, operate, or abandon any well.]*

(18) *"Royalty owner" means any owner of oil and gas in place, or oil and gas rights, to the extent that such owner is not an operator as defined in subdivision sixteen of this section.*

(19) *"Drilling unit" generally means the maximum area in a pool which may be drained efficiently by one well so as to produce the reasonable maximum recoverable oil or gas in such area. Where the regulatory authority has provided rules for the establishment of a drilling unit and an operator, proceeding within the framework of the rules so prescribed, has taken the action necessary to have a specified area established for production from a well, such area shall be a drilling unit.*

Section 2. KRS 353.520 is amended to read as follows:

(1) KRS 353.500 to 353.720 shall apply to all lands located in the commonwealth, however owned, including any lands owned or administered by any government or any agency or political subdivision thereof, over which the commonwealth has jurisdiction under its police power.

(2) The waste of oil and gas is hereby prohibited. The waste prohibited includes physical waste as that term is generally understood in the oil and gas industry and includes:

(a) *The locating, drilling equipping, operating or [and] producing of any oil or gas well, or wells drilled, deepened, or reopened in a manner that causes, or tends to cause, a reduction in the quantity of oil or gas ultimately recoverable from a pool under prudent and proper operations, or contrary to any provision of, or any order, rule or regulation promulgated or issued under KRS 353.500 to 353.720;*

(b) *Permitting the migration of oil, gas or water from the stratum in which it is found into other strata, thereby ultimately resulting in the loss of recoverable oil or gas, or both;*

(c) *The drowning with water of any stratum or part thereof capable of producing oil or gas in paying quantities, except for secondary recovery purposes, or in hydraulic fracturing or other completion practices;*

(d) *The unreasonable damage to underground, fresh or mineral water supply, workable coal seams, or other mineral deposits in the operations for the discovery, development, production or handling of oil and gas; [and]*

(e) *The unnecessary or excessive surface loss or destruction of oil or gas[.] or their constituents; and*

(f) *The drilling of more wells than are reasonably required to recover efficiently the maximum amount of oil and gas from a pool.*

(3) The production of oil or gas from any well in any pool unless a permit has been issued as required by KRS 353.500 to 353.720, or in violation of the spacing provisions of KRS 353.500 to 353.720, is prohibited; except that this subsection shall not prohibit the continuation of production of oil or gas from a well producing oil or gas on June 16, 1960.

Section 3. A new section of KRS Chapter 353 is created to read as follows:

(1) There is hereby created in the Department of Mines and Minerals, the "Kentucky Oil and Gas Conservation Commission" which shall be composed of five members. Four of the members shall be appointed by the governor and the fifth member, who shall serve as chairman of the commission, shall be the Director of Oil and Gas Conservation. The four members appointed by the governor must be residents of this state and two of them must have had at least five years' experience in the exploration for or production of oil or gas. The commission shall not contain more than one representative from any one operator, including subsidiaries or affiliates. Of the four members appointed by the governor, two shall be residents of Eastern Kentucky and two shall be residents of Western Kentucky. Longitude line 84° 30' shall be deemed as the division line between Eastern Kentucky and Western Kentucky.

(2) The members of the commission, except the chairman, shall be appointed for terms of four years each, except that the original appointments shall be for terms of one, two, three and four years respectively. Each member appointed by the governor shall serve until his successor has been appointed and qualified. Members may be reappointed by the governor to serve successive terms. The members of the commission, before performing any duty hereunder, shall take oath which shall be certified by the officer administering it. The oath in writing and the certificate shall be filed in the office of the Secretary of State. Vacancies in the membership appointed by the governor shall be filled by appointment by him and for the unexpired term of the member whose office shall be vacant and such appointment shall be made by the governor within sixty days of the occurrence of such vacancy. Any member appointed by the governor may be removed by the governor in case of incompetency, neglect of duty, gross immorality or malfeasance of office.

(3) The commission shall meet at such times and places as shall be designated by the chairman. The chairman may call a meeting of the commission at any time, and he shall call a meeting of the commission upon the written request of two members. Notification of each meeting shall be given in writing to each member by the chairman at least five days in advance of the meeting. Any three members, one of which may be the chairman, shall constitute a quorum for the transaction of any business, including the holding of hearings, as hereinafter provided for. A majority of the commission present shall be required to determine any issue brought before it for decision.

(4) Each member of the commission, except the chairman, shall receive thirty-five dollars per diem not to exceed one hundred days per calendar year while actually engaged in the performance of his duties as a member of the commission. Each member of the commission, including the chairman, shall also be reimbursed for all reasonable and necessary expenses actually incurred in the performance of his duties as a member of the commission.

(5) The commission shall execute and carry out, administer and enforce the provisions of Sections 5 and 6 of this act in the manner provided herein. The commission shall have jurisdiction and authority over all persons and property necessary therefor. The commission may make such investigation of records and facilities as it deems proper.

(6) In the event an emergency is found to exist by the commission which, in its judgment, requires the making, changing, renewal, or extension of a rule, regulation, or order without first having a hearing, such emergency rule, regulation, or order shall have the same validity as if a hearing with respect to the same had been held after due notice. The emergency rule, regulation or order hereby permitted shall remain in force no longer than forty-five (45) days from its effective date, and, in any event, it shall expire when the rule, regulation, or order made after due notice and hearing with respect to the subject matter of such emergency rule, regulation or order becomes effective.

(7) The commission shall have specific authority to:

(a) Make and enforce reasonable rules and regulations and orders reasonably necessary to prevent waste, protect correlative rights, govern the practice and procedure before the commission and otherwise administer the provisions of Sections 5 and 6 of this act; and

(b) Issue subpoenas for the attendance of witnesses and subpoenas duces tecum for the production of any books, records, maps, charts, diagrams and other pertinent documents, and administer oaths and affirmations to such witnesses, whenever, in the judgment of the commission, it is necessary to do so for the effective discharge of its duties under the provisions of Sections 5 and 6 of this act.

(8) Any interested person may have the commission call a hearing for the purpose of taking action in respect to any matter within the jurisdiction of the commission by making a request therefor in writing. Upon the receipt of any such request, the commission promptly shall call a hearing thereon, and, after such hearing and with all convenient speed, and in any event within thirty (30) days after the conclusion of such hearing, shall take such action with regard to the subject matter thereof as it may deem appropriate.

(9) Agreements made in the interest of conservation of oil or gas, or both, or for the prevention of waste, between and among owners or operators, or both, owning separate holdings in the same field or pool, or in any area that appears from geologic or other data to be underlaid by a common accumulation of oil or gas, or both, and agreements between and among such owners or operators, or both, and royalty owners therein, for the purpose of bringing about the development and operation of the field, pool or area, or any part thereof, as a unit, and for establishing and carrying out a plan for the cooperative development and operation thereof, when such agreements are approved by the commission, are hereby authorized and shall not be held or construed to violate any of the laws of this state relating to trusts, monopolies, or contracts and combinations in restraint of trade.

Section 4. KRS 353.610 is amended to read as follows:

(1) Except as provided in KRS 353.500 to 353.720, no permits shall be issued for the drilling, deepening, or reopening of any *shallow* well for the production of oil, unless the proposed location of the well shall be at least *three hundred thirty (330)* [two hundred (200)] feet from the nearest boundary of the premises upon which the well is to be drilled, deepened or reopened; and, [if the proposed location is less than four hundred (400) feet from any boundary line of the premises,] the proposed location must be at least *six hundred sixty (660)* [four hundred (400)] feet from the nearest oil producing well. This subsection shall not be construed to regulate the distance between wells which do not produce oil from the same pool.

(2) Except as provided in KRS 353.500 to 353.720, no permit shall be issued for the drilling, deepening or reopening of any *shallow* well for the production of gas unless the proposed location of the well shall be at least five hundred (500) feet from the nearest boundary of the premises upon which such well is to be drilled, deepened or reopened; and, [if the proposed location is less than one thousand (1,000) feet from any boundary line of the premises,] the proposed location must be at least one thousand (1,000) feet from the nearest gas producing well. This subsection shall not be construed to regulate the distance between wells which do not produce gas from the same pool.

(3) This section shall not apply:

(a) To wells drilled, deepened, or reopened for the injection of water, gas or other fluids into an oil or gas producing formation.

(b) To any well drilled, deepened or reopened in a pool or portion thereof, which is included in a secondary recovery program commenced or proposed, if the location or proposed location of the well conforms to a geometric pattern already established on all premises which will be offset and affected by the well.

(c) To wells drilled or deepened as water supply wells and geological or structure test holes; or

(d) To premises within the limits of any incorporated city, town or village which has enacted or enacts hereafter an ordinance regulating the location or spacing of wells for the production of oil and gas at distances of not less than the distances prescribed in this section.

Section 5. A new section of KRS Chapter 353 is created to read as follows:

The following provisions of this section shall apply to any deep well:

(1) Drilling units:

(a) The commission shall, after notice and a hearing, regulate the drilling and location of wells in any pool and the production therefrom so as to prevent reasonably avoidable net drainage from each developed unit (that is, drainage which is not equalized by counterdrainage) so that each owner in a pool shall have the right and opportunity to recover his fair and equitable share of the recoverable oil and gas in such pool.

(b) For the prevention of waste, to protect and enforce the correlative rights of the owners in a pool, and to avoid the augmenting and accumulation of risks arising from the drilling of an excessive number of wells, the commission shall, after notice and a hearing, establish a drilling unit for each pool. The spacing of wells in proved oil and gas fields shall be governed by special rules for that particular field adopted after notice and hearing. Wells drilled in areas not covered by special field rules shall be governed by statewide rules adopted by the commission after notice and hearing. Notices of hearings prescribed herein shall be given by the commission in accordance with KRS Chapter 424. Each such notice shall specify the date, time and place of hearing and contain such other information as is essential to the giving of proper notice.

(c) Each well permitted to be drilled upon any drilling unit shall be drilled in accordance with the rules and regulations promulgated by the commission and in accordance with a spacing pattern fixed by the commission for the pool in which the well is located, with such exceptions as may be reasonably necessary where it is shown, in accordance with regulations adopted by the commission, that the unit is partly outside the pool or for some other reason a well otherwise located on the unit would not be likely to produce in paying quantities, or topographical conditions are such as to make the drilling at such location unduly burdensome. Whenever an exception is granted, the commission shall take such action as will offset any advantage which the person securing the exception may have over other owners by reason of the drilling of the well as an exception.

(d) No drilling unit established by the commission shall be smaller than the maximum area which can be drained efficiently by one deep well so as to produce the reasonable maximum recoverable oil or gas in such

area, unless an exception is granted in accordance with regulations adopted by the commission.

(e) An order establishing drilling units may be modified, altered, extended, amended or vacated by the commission after notice and hearing as prescribed above.

(2) Pooling of interests in Drilling Units:

(a) When two or more separately owned tracts are embraced within a drilling unit, or when there are separately owned interests in all or a part of a drilling unit, the interested persons may pool their tracts or interests for the development and operation of the drilling unit. In the absence of voluntary pooling and upon application of any operator having an interest in the drilling unit, and after notice given by the commission in accordance with KRS Chapter 424, and after a hearing, the commission shall enter an order pooling all tracts or interests in the drilling unit for the development and operation thereof and for the sharing production therefrom. Each such pooling order shall be upon terms and conditions which are just and reasonable.

(b) All operations, including, but not limited to, the commencement, drilling or operation of a deep well, upon any portion of a drilling unit for which a pooling order has been entered, shall be deemed for all purposes the conduct of such operations upon each separately owned tract in the drilling unit by the several owners thereof. That portion of the production allocated to a separately owned tract included in a drilling unit shall, when produced, be deemed for all purposes to have been actually produced from such tract by a deep well drilled thereon.

(c) Any pooling order under the provisions of subsection (2) of this section shall authorize the drilling and operation of a deep well for the production of oil or gas from the pooled acreage; shall designate the operator to drill and operate such deep well; shall prescribe the time and manner in which all owners of operating interests in the pooled tracts or portions of tracts may elect to participate therein; shall provide that all reasonable costs and expenses of drilling, completing, equipping, operating, plugging and abandoning such deep well shall be borne, and all production therefrom shared, by all owners of operating interests in proportion to the acreage in the pooled tracts owned or under lease to each owner; and shall make provision for payment of all reasonable costs thereof, including reasonable charge for supervision and for interest on past due accounts, by all those who elect to participate therein.

(d) Upon request, any such pooling order shall provide just and equitable alternatives whereby an owner of an operating interest who does not elect to participate in the risk and cost of the drilling of a deep well may elect to surrender his interest or a portion thereof to the participating owners on a reasonable basis and for a reasonable consideration, which, if not agreed upon, shall be determined by the commission; or to participate in the drilling of the deep well on a limited or carried basis on terms and conditions which, if not agreed upon, shall be determined by the commission to be just and reasonable.

(e) In the event a nonparticipating owner elects to participate in the drilling, and an owner of any operating interest in any portion of the pooled tract shall drill and operate, or pay the costs of drilling and operating, a deep well for the benefit of such nonparticipating owner as provided in the pooling order, then such operating owner shall be entitled to the share of production from the tracts or portions thereof accruing to the interest of such nonparticipating owner, exclusive of any royalty or overriding royalty reserved in any leases, assignments thereof or agreements relating thereto, of such tracts or portions thereof, or exclusive of one-eighth of the production attributable to all unleased tracts or portions thereof, until the market value of such nonparticipating owner's share of the production, exclusive of such royalty, overriding royalty or one-eighth of production, equals twice the share of such costs payable by or charged to the interest of such nonparticipating owner.

(f) If a dispute shall arise as to the costs of drilling and operating a deep well, the commission shall determine and apportion the costs, within ninety (90) days from the date of written notification to the commission of the existence of such dispute.

(3) This section shall not apply to wells drilled, deepened or reopened for the injection of water, gas or other fluids into any sub-surface formation.

Section 6. A new section of KRS Chapter 353 is created to read as follows:

(1) Upon the application of any operator in a pool productive of oil or gas, or both, and other minerals which may be associated and produced therewith and after notice given by the commission in accordance with KRS Chapter 424, and after a hearing, the commission may enter an order requiring the unit operation of a pool or of any portion or combinations thereof within a field. Such unit operation shall be in connection with a program designed to avoid the drilling of unnecessary wells, or otherwise to prevent waste, or to increase the ultimate recovery of the unitized minerals by additional recovery methods. The order shall provide for the unitization of separately owned tracts and interests within such pool or pools, but only after finding that:

(a) Said order is reasonably necessary for the prevention of waste;

(b) The proposed plan of unitized operation will increase the ultimate recovery of oil or gas, or both, from the pool and will be economically feasible;

(c) The production of oil or gas, or both, from the unitized pool can be allocated in such a manner as to insure the recovery by all owners of their just and equitable share of such production; and

(d) A contract incorporating the unitization agreement has been signed or in writing ratified or approved by the owners of at least seventy-five (75) per cent in interest as costs are shared under the terms of the order and by seventy-five (75) per cent in interest as production is to be allocated of the royalty in the unit area, and a contract incorporating the required arrangements for operations has been signed or in writing ratified or approved by the owners of at least seventy-five (75) per cent in interest as costs are shared, and the commission has made a finding to that effect either in the order or a supplemental order.

(2) The order requiring such unit operation shall designate one operator as unit operator and shall also make provision for the proportionate allocation to all operators of the costs and expenses of the unit operation, including a reasonable charge for supervision, which allocation shall be in the proportion that the separately owned tracts share in the production from the unit. In the absence of an agreement entered into by the operators and filed with the commission providing for sharing the costs of capital investments in wells and physical equipment, and intangible drilling costs, the commission shall provide by order for the sharing of such costs in the same proportion as the costs and expenses of the unit operation; provided, that any operator who has not consented to the unitization shall not be required to contribute to the costs or expenses of the unit operation, or to the cost of capital investment in wells and physical equipment, and intangible drilling costs, except out of the proceeds from the sale of the production accruing to the interest of such operator.

(3) The commission, after notice and hearing as provided above may from time to time by entry of a new or amending order enlarge the unit area by approving agreements adding to such area a pool or any portion or combinations thereof not previously included. Any such order shall not become effective unless and until:

(a) All of the terms and provisions of the unitization agreement relating to the extension or enlargement of the unit area or to the addition of pools or portions or combinations thereof to unit operations have been fulfilled and satisfied and evidence thereof has been submitted to the commission; and

(b) The extension or addition effected by such order has been agreed to in writing by the owners of at least seventy-five (75) per cent in interest as costs are shared in the pool or pools or portions or combinations thereof to be added to unit operations by such order and by seventy-five (75) per cent in interest as production is to be allocated of the royalty owners in said pool, pools, portions or combinations and evidence thereof has been submitted to the commission.

(4) Any agreement, in providing for allocation of production from the unit area, shall first allocate to each pool or portion thereof so added a portion of the total production of oil and gas, or both, from all pools affected within the area, as enlarged, such allocation to be in proportion to the contribution which added pool or portions or extensions thereof are expected to make, during the remaining course of unit operations, to the total production of oil or gas, or both, of the unit as enlarged. The remaining portion of unit production shall be allocated among the separately owned tracts within the previously established unit area in the same proportions as those specified prior to the enlargement.

Section 7. KRS 353.700 is amended to read as follows:

(1) Any person aggrieved by any order issued by the department *or by the commission* under KRS 353.500 to 353.720 *or the provisions of this act* shall have the right to bring a civil action for review of the order by filing a complaint in the circuit court of the county in which the premises or any portion thereof affected by the order is located, or in the Franklin Circuit Court.

(2) The suit shall be brought within thirty (30) days after the order is issued, and in event no suit is filed within the thirty-day period, the order shall be final.

(3) In the suit the burden of proof shall be upon the party complaining of the order, and the order shall be deemed prima facie valid. Any party to the suit may offer in evidence all or any part of the record of the hearing which resulted in the order, and any other relevant evidence.

(4) *On appeal no new evidence may be introduced, except as to fraud or misconduct of some person engaged in the hearing before the commission. The court sitting without a jury shall hear the cause upon the record before it, and dispose of the appeal in a summary manner, being limited to determining: Whether or not the commission acted without or in excess of its powers; the order was procured by fraud; the order is not in conformity to the provisions of KRS Chapter 353; and whether the findings of fact support the order. The court shall enter its findings on the order book as a judgment of the court, and such judgment shall have the same effect and be enforceable as any other judgment of the court in civil causes.*

(5)[(4)] The practice, pleading and proceedings in the suit shall be in accordance with the Rules of Civil Procedure.

(6)[(5)] In the suit the court may stay the order until the court shall enter its decree. The court shall have jurisdiction to enter a decree affirming or setting aside the order or remanding the cause with directions to modify the order so that it shall conform to the provisions of KRS 353.500 to 353.720 *and to the provisions of this act*. Appeals may be taken by any party to the suit in the same manner and to the same extent as in other civil actions.

The Governor's Energy Message
To The Kentucky General Assembly
January 16, 1974

LT. GOVERNOR CARROLL
MR. SPEAKER
MEMBERS OF THE GENERAL ASSEMBLY

There are four reasons for this message. One is to outline the serious implications of America's energy crisis. The second is to assess its impact on Kentucky, now and in the future. Next, I want to briefly review how state government has responded to emerging problems of energy shortages. And fourth, I come before you with recommendations to increase energy production in Kentucky, which will create an unprecedented economic boom, and at the same time propel our state into national leadership for research, development, and energy self-sufficiency.

If the latter point sounds ambitious, it is. An opportunity which has never before presented itself, and may not again, awaits your decision.

THE ENERGY CRISIS

Like others interested and concerned, you have no doubt asked, "How genuine, how legitimate, is the energy crisis?"

So did I, for this is a very complex issue.

Many have placed blame on the huge oil companies, believing some joined in an effort to make excessive profits out of a crisis situation. Nevertheless, whether the charges are true or not, those most knowledgeable, and who have been most critical, take pains to admit that a crisis does exist, no matter where the fault is. For our purposes, how Kentucky responds is far more important than the reasons for a crisis.

No single reason exists for the unfortunate predicament just beginning to bring sacrifice and shock to America. However, if we are surprised, our rude awakening should be only because of the timetable. A crisis has been predicted for over a decade. Repeated warnings fell on deaf ears despite conclusive evidence that sometime during the 1970's the United States would begin suffering as fuel reserves declined to a dangerous level.

Our dilemma began long before October, 1973, when Arab nations invoked their embargo on oil shipments to the United States. The embargo has made matters worse, with the hardest knocks still to come.

In cold, hard facts, the United States with 6% of the world's population, uses nearly 35% of the world's energy. Our demands are exceeding available energy supplies. Even with conservation, needs will continue to grow unless we are willing to succumb before terrible economic and personal hardships.

Although weather, insufficient inventory figures, and the mid-East situation hamper government's ability to pinpoint the national energy status on a week-to-week or month-by-month basis, we do know there is from 10 to 20 percent less petroleum this winter than necessary to keep pace with current demands.

We know America's annual consumption of natural gas is about eight times the volume used 30 years ago. And gas reserves have rapidly dwindled.

We know domestic sources of supply provide 88% of the energy used in America. At first glance our reliance on foreign sources--12%--does not seem unduly large. However, that reliance was mainly on oil. More than one-fourth of the oil consumed here during 1970 came from foreign sources.

We know that by 1985, America will be using twice as much energy as was consumed in 1970. If not, our country will be in a serious depression.

In questioning the true extent of an energy shortage, listen to those already hurt.

It is somewhat easier to project future energy needs rather than future sources. Future supply depends upon the pace of discovery and development of reserves, technological improvements, and a broad range of governmental policies, including environmental controls, price regulations and tax incentives. Studies indicate that in 1985 as much as 40% of our energy consumption would have to be furnished by foreign sources.....two-thirds of the oil and one-third of the natural gas consumed in America.

Such heavy foreign reliance wouldn't be economically wise, not to mention the international political pressures placed against our country. Projected increases in energy imports imply an increasingly unfavorable balance of trade. The international value of the dollar would steadily decline, as foreign energy costs soar.

We are now experiencing similar problems. Thus, the economic implications of our reliance on foreign sources do not lie a decade or so in the future; they are with us now. In other words, it's going to get worse before there is any improvement.

Obviously, America must turn to self-sufficiency. You, probably more than any other legislative body among the 50 states, have the greatest responsibility, and opportunity, in giving direction which will be felt throughout the U.S. as well as in all parts of Kentucky.

I base my contention on several factors--Kentucky's vast energy reserves, primarily coal; Kentucky's potential for economic growth beyond any measure ever achieved; known technology which can produce clean fuel from coal; and Kentucky's obligation to respond with aggressiveness and vision, whenever our future is threatened by adversity.

Without farsighted leadership, without a determination of purpose, the energy crisis will have an even worse impact in later years, on our children and our children's children.

IMPLICATIONS FOR KENTUCKY

Kentucky has already begun to feel the impact of shortages of natural gas and oil. This has posed problems for prospective industry, as in other states. The shortages of oil have been felt in cutbacks of heating and motor fuel. Because of our climate, we are better off than many states, and we have not experienced an electrical shortage since Kentucky's electric utility industry is coal based. But we do have environmental standards to maintain.

And let me emphasize one point which should be remembered throughout this message. The direction I propose for Kentucky will not deter us from improved environmental qualities, whether it be in air emissions or land reclamation. The program I shall propose is designed to produce clean fuel, to stimulate deep mining,

and enhance environmental quality and safety standards through research.

While Kentucky will feel the energy crunch from certain shortages, the state's economy is not expected to be as seriously affected as the nation's. Still, we must remain cautious and conservative. We can expect a slowdown of new industrial acquisitions, a decline in the highway fund, and perhaps a curtailment of recreational activity. The energy crisis suggests some unemployment increase, a slower pace of personal income growth, and continuing inflation.

Elsewhere, the situation will be much worse, as it already is, especially in many northern and eastern states. Here is where Kentucky steps to the forefront.

Projections of energy consumption in the U.S. clearly indicate a rising need for coal. Coal accounted for about 20% of America's energy production in 1970. Output nationally was 600 million tons, with Kentucky supplying about 20% of that amount. Every indication points to twice the national output by 1985, or sooner.

Last year Kentucky produced approximately 128 million tons. The severance tax brought us over \$39 million. Doubling production means twice as much income.

Think what this can mean for education, for roads, for human resources and the other areas of governmental support we agonize over every two years. Think what the added employment will mean. And I haven't even touched on my proposal for research and development which would also generate tremendous economic growth.

There are approximately 65 billion tons of charted coal reserves in Kentucky. Another 50 billion tons are estimated. Kentucky, therefore, is in a most enviable position. A silver lining does appear around the dark cloud of the energy crisis, but unless we act promptly, the silver lining will disappear.

Our vast resources require scientific attention. Of the 65 billion tons of known reserves, about 43 billion have a sulfur content greater than one percent. Air quality standards for new plants without sulfur dioxide removal equipment require bituminous coal having not more than 7/10ths of one percent sulfur. Kentucky must find ways of converting its high-sulfur coals into clean fuels if we are to fully share in the future expansion of coal output.

RESPONSE OF STATE GOVERNMENT

We turn now to a brief review of the actions your state government has taken as the oil shortage has brought the energy crisis to its presently acute stage.

Last July, by executive order, I established the Kentucky Energy Council. This interdepartmental committee was charged with the responsibility of determining directions and priorities so that this Commonwealth would be prepared for, and able to cope with, the burden of the energy crisis.

Since its formation, the Energy Council has also served as our interface with the federal government in the allocation of middle distillates.

I have personally participated in a number of energy meetings with federal representatives. It has been an experience of both frustrations and enlightenment. We have found it difficult to proceed in the positive, assured way we would like, in order to reduce public uncertainties affecting future fuel supplies. However, we have taken, and continue to take, a constructive, supportive approach to the evolving situation at the federal level.

An interdepartmental staff group has performed exceptional service in handling thousands of inquiries about fuel problems, in responding to requests for priority allocations of middle distillates, and in general, of managing the state's part of the fuel allocation process. We therefore have a functioning staff which can respond quickly to any change in federal policy.

The 1972 General Assembly appropriated \$400,000 to support coal research. It was clear that we should begin work on the conversion of Kentucky coals into clean by-product fuels. The \$400,000 has been supplemented by a National Foundation grant in cooperation with the state and Ashland Oil, bringing our research to over a one million dollar effort. The early results have commanded positive federal attention.

PROGRAM TO INCREASE ENERGY PRODUCTION

We must accelerate our research to help assure that certain types of Kentucky coal will remain competitive over the coming decade.

Why is Kentucky's position the most promising, the most logical, the most realistic?

Understanding the critical decline in domestic oil and gas reserves, as well as the grave dangers of depending upon foreign sources, America must immediately turn to new energy supplies where self-sufficiency can be achieved.

Nuclear power has been long-promised without significant results. Today it is under a cloud of environmental and safety fears prompting experts to admit we probably won't have sufficient amounts of nuclear energy before the year 2000, or even beyond.

Solar energy in massive quantities is extremely costly and also far into the future. Scientists believe a worthwhile solar production system might require a joint effort by industrial nations of the world.

Oil shale tends to be an extravagant, misleading item of hope, though some research is underway. Financial and environmental costs are excessive.

Coal is the most practical solution. We know clean fuels can be derived from coal. We know synthetic oil and gas can be produced in huge quantities. We know the emphasis will be on deep-mined coal.

Technology is far enough along for pilot and demonstration projects which will provide the additional research and development necessary for coal to become a major factor in energy production. Last November 16, a Navy destroyer completed a 30-hour cruise, testing the use of coal-derived synthetic crude oil in its engines. The results were successful, yet the process used for conversion is far from the sophisticated programs which now must be carried out before commercial production becomes a reality.

The main point is that someone, somewhere, is going to become involved right away. It would be inexcusable if Kentucky did not become the national leader. Failure to act would only reinforce the image of government being unable or unwilling to take necessary steps in behalf of people.

I am, therefore, recommending in the 1974-1976 budget that \$3.7 million be appropriated for an expansion of our Kentucky energy resource utilization program. The expansion of activities will not be limited to coal gasification and liquefaction research. They will include further mapping of Kentucky coals, research, and demonstration of improvements in mining technology and techniques, support of education and training programs to increase the supply of trained manpower for mining, research on reclamation problems and techniques, and research on environmental effects of Kentucky coals.

The major emphasis in the expanded program will be on coal utilization by conversion into clean fuels. The already favorable characteristics, performance, and potential of Kentucky coals in the various processes for gasification and liquefaction will be accelerated.

In addition, I recommend the expenditure of \$4 million to construct an energy research facility in Fayette County near Lexington. Laboratory research already conducted proves we need expanded facilities, and clearly, we should have one of the nation's major centers for energy research.

These measures will place us in a position to command significant financial support from the federal government and private industry.

A third action I submit for your decision is authorization by the General Assembly of a state commitment of up to \$50 million over the next three bienniums, enabling the Commonwealth to participate in the design, construction and experimental operation of pilot and demonstration projects for coal gasification and liquefaction.

Under such authority the Commonwealth would be a joint participant with the federal government and private enterprise to accelerate the work of bringing coal gasification and liquefaction processes to commercial feasibility.

A major portion of the state's investment in such projects would be recovered from the projects themselves after commercial feasibility is established. In other words, a buy-back clause would return Kentucky's investment, with the exception of research and demonstration development. The state would not invest in projects after they reach the commercial stage.

There are very good reasons for the Commonwealth to take these steps. I have emphasized the need to accelerate the development of processes for conversion of Kentucky coal to clean fuels, and the desirability of establishing Kentucky as a major energy research center.

Investment in pilot and demonstration projects will help assure adequate energy supplies for Kentucky and the nation. Moreover, such investments resulting in adequate energy supplies will make our state more competitive for new and expanded industry.

State support will be repaid many times in the future, through increased employment, production of coal, new sources of income for our citizens, and tax revenue growth for state and local governments.

We stand at the threshold of acquiring a gasification demonstration plant as well as a liquefaction pilot plant.

Both are of such magnitude that private industry cannot finance them alone. It is no secret that the federal government will soon appropriate at least \$20 billion for energy research and development. Much of it will be earmarked for coal, and probably will be spent by 1980. By participating in a joint venture, Kentucky's share of this money would be considerable. State legislation, however, is necessary, if we are to share in the massive federal program.

Part of the \$50 million I am requesting would account for total projects of \$280 million--the difference coming from the federal government and private sources. This, remember, is for demonstration and pilot projects. Hundreds of million dollars more would be spent by industry as commercial operations are conducted, without additional state support.

The remainder of the \$50 million authorized, would, if other pilot or demonstration projects are found beneficial, generate countless additional dollars from either private sources, the federal government or both.

You have, in your power right now, the ability to achieve the most exciting advancements in the history of Kentucky.

You have the power to provide a solution to a national problem.

You have the opportunity to advance the economic growth of Kentucky as it has never been advanced, and at the same time provide answers to such pressing problems as environmental standards, mining safety, mining technology and an improved quality of life for all.

When America embarked on its lunar mission, few anticipated the spinoffs. That program gave us new trends in medicine we wouldn't have had for decades. It gave us fantastic advancements in critical weather forecasting. It gave us communication advantages no other country will match for ages. It gave us mapping techniques in countless areas--natural resources, agriculture, geology to name but a very few. The same can happen here because you have an opportunity to provide the world with by-products from coal, to spawn new industries through by-product research and development.

In summary, the plain facts are:

1. Energy needs projections for this country are not extravagant. They are conservative.
2. These projections illustrate an increasingly heavy reliance on foreign sources of oil and gas, unless coal is developed as that source.
3. Meeting the financial costs, much less the political dangers of heavy reliance on foreign nations would impose great economic hardship on the United States.

4. The United States can achieve early energy self-sufficiency only by extensive utilization of coal by involving its conversion into clean fuels.

5. The federal government is going to provide massive funds for coal research. Industry is willing to spend hundreds of millions of dollars. In addition, by-products add an entirely new dimension to our economic future.

Coal is the answer, and the federal government agrees. By giving top priority to a state program, Kentucky will be prepared to respond to federal legislation which will pour tremendous funds into the state for research and development, and at the same time enable us to generate our own economic progress.

There is no question about liquefaction and gasification. It's going to be produced somewhere. It is feasible, economical and acceptable.

The question is, which state will gain more from this new venture? The answer, is the state where those in authority grasp the opportunity first.

The people will eventually decide whether, in 1974, this body was willing to make something of a once-in-a-century occasion. If you are, their lives will be enhanced. If you are not, Kentucky will merely rock along in the waves of other states where vision and initiative dominated.

Thank you for allowing me to appear, and good afternoon.

HB 15, AN ACT relating to the marketing of milk.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS Chapter 260.715 is amended to read as follows:

(1) The commission is authorized and empowered:

(a) To call together milk dealers or handlers and producer-handlers for the purpose of inquiry into marketing practices prevailing from time to time in this state, and if need be, to conduct investigations and/or hearings in connection with such practices for the purpose of making findings relative to any marketing practice found to exist within this state involving the sale or distribution of milk, cottage cheese, or frozen dairy products covered by KRS 260.675 to 260.760, and thereafter to promulgate reasonable rules or regulations for the elimination of any such practice found to be contrary to the provisions of KRS 260.675 to 260.760; and

(b) To establish as a public record the minimum prices applicable to the milk deliveries of producers to a processor or a distributor. Such prices shall be used solely for the purpose of computing the cost of a processor or a distributor pursuant to KRS 260.680 (12) (b). These minimum prices shall, in the discretion of the commission, be established for a processor or a distributor located or distributing milk or milk products in marketing areas as defined by counties or other appropriate geographical subdivision.

(2) Upon receipt of a [written] complaint *or upon the commission's own motion*, [filed with the commission by any milk dealer or handler, producer-handler or recognized association thereof,] the commission may initiate proceedings[,] for the purpose of hearing and investigating evidence of the failure or refusal of any person to comply with the provisions of KRS 260.675 to 260.760 or the rules, regulations and orders of the commission issued thereunder after first giving five (5) days' notice to the alleged violator as to the date and time fixed for the hearing and the nature of the charge or charges. Each witness required to attend the hearing shall be entitled to receive mileage customarily paid to the witnesses in the courts of the commonwealth. The commission shall not be bound by technical rules of evidence, except as may be required by the applicable administrative procedure laws of the commonwealth.

(3) The commission shall have the power during the course of an investigation or hearing to issue subpoenas requiring the attendance and testimony of, or the production of books and records by, any person believed to have information of importance to the hearing or investigation, or possessing any books or records of importance to the hearing or investigation.

(4) Any person who refuses to obey a subpoena issued by the commission, or refuses to be sworn or affirmed, or testify, or who is guilty of any contempt after summons to appear, may be punished as for contempt of court. For this purpose, an application may be made by the commission to the court of the circuit within whose territorial jurisdiction the hearing or investigation is being conducted.

(5) Every rule, regulation or order of the commission shall be posted for public inspection in the main office of the commission and copies of such a rule, regulation or order shall be made available and mailed to all licensees and producer groups and organizations affected thereby. Such rule, regulation or order of the commission, when duly posted or when properly served, shall have the force and effect of law.

HB 18, AN ACT relating to the marketing of milk.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS Chapter 260.735 is amended to read as follows:

(1) The commission may decline to grant a license to an applicant or may suspend or revoke a license for the following causes:

(a) Failure to account and make payment for any milk purchased or received from a producer, milk dealer or cooperative that is marketing the milk of its member-producers. Provided, however, That if it be shown that there was reasonable cause for any such failure to account and make payment, and that such

accounting and payment can and will be made promptly, the commission shall not suspend or revoke a license solely for such conduct, until a reasonable opportunity has been afforded the licensee to make accounting and payment;

(b) Doing any act injurious to public health or welfare or doing any act injurious to trade or commerce by disruption of the orderly marketing of milk, cottage cheese, or frozen dairy products to such an extent as to interfere with the ample supply thereof for the inhabitants of the commonwealth. Such act shall include any course of conduct on the part of the milk dealer or handler in violation of the terms of KRS 260.675 to 260.760 or any valid rules, regulations and orders of the commission;

(c) Making a general assignment for the benefit of creditors, or being adjudged a bankrupt;

(d) Participating in practices in selling or otherwise disposing of milk at prices which create a condition of emergency, by disrupting and undermining orderly marketing practices or by imperiling the ability of milk dealers or handlers to make full and prompt payment for such milk;

(e) Failure to keep books and records or to furnish accurately the reports, statements or other information required by the commission;

(f) Having made any statement upon which a license was issued, which is found to have been false or misleading in any particular;

(g) Violation of any of the provisions of KRS 260.675 to 260.760, or any of the rules, regulations or orders of the commission;

(h) Failing to pay any judgment rendered as a result of any violation of the provisions of KRS 260.675 to 260.760, or the rules and regulations promulgated by the commission;

(i) Refusal without reasonable cause to receive milk from a producer because it was not transported to the milk dealer or handler by a hauler of the dealer's or handler's choosing, providing that such producer or hauler has adequate facilities and equipment for hauling, and is delivering or is ready, able and willing to deliver, milk to the plant of such dealer or handler in proper condition and at the time necessary to coincide with the current schedule of plant operations of the dealer or handler;

(j) Any conduct constituting a misrepresentation or fraud on the public.

(2) The burden of proving reasonable cause under any provision of this section shall be upon the [milk dealer or handler] *commission*. The issuance or renewal by the commission of a license hereunder shall not preclude the commission from suspending or revoking such license for a violation committed by the licensee prior to the current license period.

HB 73, AN ACT relating to auditing the accounts of a watershed conservancy district.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS Chapter 262 is created to read as follows:

(1) An audit of the accounts of each watershed conservancy district shall take place annually. The board of directors of each watershed conservancy district shall select to make the audit Certified Public Accountants who have no personal interest in the financial affairs of the board of directors or in any of its officers or employees.

(2) Immediately upon completion of each audit, the accountant shall prepare a report of his findings and recommendations. This report shall be to the board of directors and in such number of copies as specified by the board of directors. Immediately following receipt of the audit report, the board of directors shall cause a summary of the report or the text of the report to be advertised for the district by publication in a newspaper of general circulation in the area encompassed by the watershed conservancy district. The actual expense of any audit authorized under this section shall be borne by the board of directors.

HB 6, AN ACT relating to county judges' fees.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 64.230 is amended to read as follows:

(1) For services rendered in civil matters in quarterly courts, county judges may collect the same fees allowed by KRS 64.240 to police judges and justices for similar services in civil matters.

(2) For settling accounts of fiduciaries the fee of the county judge may be one-tenth per cent (.1%) of the first twenty-five thousand dollars (\$25,000) and one-twentieth per cent (.05%) of the amount in excess of twenty-five thousand dollars (\$25,000) of the gross estate. *In the case of periodic or partial settlements of the gross estate, the above fees of the county judge shall be based upon the value of that part of the gross estate that is actually being settled and disposed of, transferred or distributed.* In both [no] cases [shall] the fee shall be not less than five dollars (\$5.00) nor more than one hundred dollars (\$100).

HB 204, AN ACT relating to county commissioners.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

(b) The three commissioners shall be elected by the qualified voters of the county at large at regular elections held every four years. (c) *Persons seeking the nomination of a major political party as candidate for the office of county commissioner in counties containing a city of the first class shall, in the primary election, be voted upon exclusively by the eligible voters of the district in which the person resides and seeks to represent. Persons seeking the nomination of a minor political party or persons who file as independent candidates shall not be subject to the provisions of this paragraph.*

(3) To be eligible for election as a commissioner representing one of the three districts, a person shall have been a bona fide resident of the district he proposes to represent for at least one year immediately preceding the election, and, upon election, shall continue to reside within the district he was elected to represent for the duration of his term of office, under penalty of forfeiture of the office.

Section 1. A new section of KRS Chapter 186 is created to read as follows:

On and after the effective date of this Act and when the records of the Department of Transportation disclose that any person has been convicted under the traffic laws of this state, or a valid municipal or county ordinance paralleling and substantially conforming to a like state law, of an offense occurring on or after the effective date of this Act, which record of conviction, when taken with, and added to the previous convictions of such person of offenses occurring within five years prior to the date of such offense, as contained in the files of the Department of Transportation, shall reveal that said person is an habitual violator, as hereinafter defined, the Secretary of the Department of Transportation shall forthwith certify to the county attorney of the county in which such person resides according to the records of the department, a full and complete abstract of the person's driving record as shown in the files of the department. The provisions of this section shall apply only to offenses and records of offenses committed after the effective date of this Act. These provisions shall have no retroactive effect before the effective date of this Act.

Section 2. A new section of KRS Chapter 186 is created to read as follows:

An habitual violator shall be construed to mean any person, resident or nonresident, who has been convicted in this state or elsewhere:

(1) Three or more times of voluntary or involuntary manslaughter resulting from the operation of a motor vehicle; or

(2) Three or more times of violating the provisions of KRS Chapter 189 relating to the operation of vehicles while under the influence of drugs or intoxicating liquors, or violating the law of any other state, or a valid municipal or county ordinance, substantially conforming to or paralleling said section; or

(3) Three or more times of operating a vehicle, after forfeiture of his operator's or chauffeur's license, and during the time for which he is deprived of his right so to do, under the provisions of any law of this state, or of any other state, or a valid municipal or county ordinance, substantially conforming to or paralleling the laws of Kentucky; or

(4) Three or more times of perjury or the making of a false affidavit to the Department of Transportation or under any other law of the state requiring the registration of motor vehicles or regulating their operation on highways, or the making of a false statement to the department on any application for an operator's or chauffeur's license; or

(8) Three or more times, singularly or in combination, of any of the offenses hereinabove described in subsections (1) through (7) of this section; or

(9) Fifteen or more times of moving traffic offenses, excluding offenses wherein the defendant or violator has not been convicted of operating his vehicle more than 10 miles per hour in excess of the applicable speed limit, which offenses have been committed during separate and unrelated incidents, including those covered in subsections (1) through (8) of this section, or in the law of any other state, or in a valid municipal or county ordinance, substantially conforming to or paralleling a similar law of Kentucky, which offenses are required to be reported to the Department of Transportation, and the commission of which offenses, singularly or in combination with any other offense or offenses, statutorily requires the suspension or revocation of the license or privilege to operate motor vehicles by the department, or the commission of which offenses singly or in combination with any other offense or offenses, authorizes a court to impose such suspension or revocation for a period of more than, or less than, one year.

Section 3. A new section of KRS Chapter 186 is created to read as follows:

The county attorney, upon receiving from the Secretary of the Department of Transportation the abstract of record shall forthwith file information against the accused person in the court of record having jurisdiction of criminal offenses in the political subdivision in which such person resides.

Section 4. A new section of KRS Chapter 186 is created to read as follows:

The court in which such information is filed shall enter an order directed to the person accused of being "an habitual violator" of the motor vehicle laws to show cause why he should not be barred from operating a motor vehicle in the State of Kentucky. If the court cannot, on the evidence available, make a determination as to the existence of any record of prior conviction, or if the court is not satisfied that the accused is the same person named in the records, or both, the court may certify such question for hearing and determination to the court in which such conviction was had. A court in this state to whom such certification is made shall forthwith conduct a hearing and make a finding of fact and determination of the existence of any record of prior conviction and the identity of the person, and send a certified copy of its order to the court before whom the information alleging the person to be "an habitual violator" is pending. The provisions of this section shall not be binding upon an out-of-state court; however, any court in this state may request any out-of-state court to voluntarily provide the information sought pursuant to this section.

Section 5. A new section of KRS Chapter 186 is created to read as follows:

If the court finds that such accused person is not the same person as the accused named in such records, or that his convictions are not such as to constitute him "an habitual violator" under this Act, the information shall be dismissed; but if the court finds that the accused is the same person named in the records certified by the Secretary, the court shall, except for good cause shown, find such person guilty of being "an habitual violator" of the motor vehicle and traffic laws of Kentucky as set forth herein, and shall, by appropriate order, direct such person not to operate a motor vehicle on the public highways of the State of Kentucky. The clerk of the court shall file with the Department of Transportation a copy of the order of the court which shall become a part of the permanent records of the department.

Section 6. A new section of KRS Chapter 186 is created to read as follows:

No license to operate motor vehicles in Kentucky shall be issued to a convicted habitual violator:

(1) For a period of five years from the date of the order of the court finding such person to be "an habitual violator," and

(2) Until the privilege of such person to operate a motor vehicle has been restored by an order of a court of record entered in a proceeding hereinafter provided.

Section 7. A new section of KRS Chapter 186 is created to read as follows:

At the expiration of five years from the date of any final order of the court entered under the provisions of this Act, finding a person to be "an habitual violator" and directing him not to operate a motor vehicle in this state, such person may petition the court in which he was convicted of being "an habitual violator" or any court of record in Kentucky having criminal jurisdiction in the political subdivision in which such person then resides to have his privilege to operate a motor vehicle restored. And upon such petition, and for good cause shown, the court may, in its discretion, restore the privilege of such person to operate a motor vehicle upon such terms and conditions as the court may prescribe, subject to other provisions of law relating to the issuance of operator's or chauffeur's licenses.

Section 8. A new section of KRS Chapter 186 is created to read as follows:

An appeal may be had from any final action or order of a court of record entered under the provisions of this Act in the same manner and form as such an appeal would be noted, perfected and tried in an appropriate criminal case before such court of record.

Section 9. A new section of KRS Chapter 186 is created to read as follows:

Nothing in this Act shall be construed as amending, modifying or repealing any existing law of Kentucky, or any existing ordinance of any political subdivision, regulating the operating and licensing of motor vehicles, and providing penalties for the violation thereof; or construed so as to preclude the exercise of the regulatory powers of any division, agency, department or political subdivision of the State of Kentucky having the statutory power to regulate the operation and licensing of motor vehicles.

Section 10. A new section of KRS Chapter 186 is created to read as follows:

It shall be unlawful for any person to operate any motor vehicle in this state while the order of the court prohibiting such operation remains in effect. Any person found to be "an habitual violator" under the provisions of this Act who is thereafter convicted of operating a motor vehicle in this state while the order of the court prohibiting such operating is in effect, shall, upon such conviction, be punished by confinement not to exceed twelve months.

(c) Whenever the county court of any county containing a city of the first class or second class determines upon the basis of an engineering and traffic investigation and study that it is unsafe to park motor vehicles on or along any highway, other than a state highway, within the unincorporated areas of the county, or that in any business district the congestion of traffic justifies a reasonable limitation on the length of time any one (1) motor vehicle is permitted to park in such district so as to reduce such congestion, then the county

court may by order establish "no parking" areas on and along said highway, or limit the length of time any motor vehicle may be parked in any business district, which order or orders shall be effective at all times and during hours of daytime or nighttime and at such other times as may be determined when appropriate signs giving notice thereof are erected at such locations.

HR 18, A RESOLUTION adopting permanent rules to govern the 1974 House of Representatives.

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

That the following rules are adopted to govern the House of Representatives during the 1974 and 1975 sessions of the General Assembly, superseding the rules under which the House of Representatives has operated.

SESSIONS OF THE HOUSE

Rule 1. Hours of Meeting. The House shall meet at times set by the Committee on Committees.

Rule 2. Quorum. A majority of the members elected to the House shall constitute a quorum. If a quorum is not present at the time fixed for a meeting of the House, five members may adjourn or recess from day to day or from time to time and fifteen members may order a call of the House and send for absent members.

Rule 3. Call of the House. Upon a call of the House, the Clerk shall call the roll. Absentees are then only noted, but no excuses shall be made until the full roll is called. The clerk shall then call the absentees again. Excuses will be heard at this time. The doors of the House Chamber shall then be closed and the absentees not excused by the House may be sent for and arrested by the Sergeant-at-Arms and the House shall determine upon what conditions they shall be discharged from arrest. Members who voluntarily appear shall be immediately admitted to the floor of the House and names returned upon the Journal as present unless the House otherwise directs. Excuses for leaves of absence must receive a consent approval of 2/3 of the members elected.

ORDER OF BUSINESS

Rule 4. Order of Business. The order of business shall be as follows:

1. Invocation.
2. Roll Call.
3. Reading and approval of the Journal.
4. Introduction and Reading of New Bills and Resolutions Introduced by Title and Sponsor.
5. Report of Reference of Bills to Committees.
6. Report of Committees.
7. First Reading of Bills.
8. Second Reading of Bills.
9. Motions, Petitions and Communications.
10. Orders of the Day.
11. Announcements.
12. Adjournment.

No more than thirty minutes shall be allotted to Motions, Petitions and Communications.

Rule 5. Unfinished Business. Unfinished business which was being considered upon adjournment shall have precedence in the class of business to which it properly belongs upon the next succeeding legislative day.

MOTIONS

Rule 6. Reading of Motions. When a motion has been made and seconded, it shall be stated by the Speaker, or, being in written form, it shall be read by the Clerk before debate, amendment or motion concerning it shall be in order.

Rule 7. Withdrawal of Motions. Every oral motion after it has been stated by the Speaker, and every written motion, bill, resolution or other paper, after it has been read by the Clerk, shall be the property and in the possession of the House and shall not be withdrawn without consent of the House. Every written motion, report or measure may be committed or recommitted at the pleasure of the House.

Rule 8. Order of Questions. All questions, whether in Committee of the Whole or in the House, when not privileged questions, shall be propounded in the order in which they were moved, except that in filling blanks the smallest sum and the most remote date shall be put first.

Rule 9. Precedence of Motions. When a question is under consideration, no motion shall be in order except:

1. To call the House when there is no quorum present.
2. To fix the time to which the House shall adjourn.
3. To adjourn.
4. To take recess.
5. To lay on the table.
6. For the previous question.
7. To limit or extend limits of debate.
8. To postpone to a fixed time.
9. To lay on the Clerk's Desk.
10. To refer or commit.
11. To amend.
12. To postpone indefinitely.

The above several motions shall have precedence in the order in which they are arranged and the first seven of them shall not be debatable.

A second motion to adjourn, to take a recess, to lay on the table, for the previous question, to limit or extend limits of debate, to postpone to a time certain, to lay on the Clerk's desk, to refer or commit or to

postpone indefinitely shall not be in order on the same day, upon the same question, and at the same status unless other business intervenes; provided, however, that amendments may be made to the time to which it is proposed to adjourn, to take a recess or to postpone to a fixed time.

Rule 10. Motion to Adjourn. A motion to adjourn, to take a recess, or a motion to adjourn to a time certain, shall always be in order, except when a member is speaking while a vote is being taken or when the Committee on Committees is reporting; subject, however, to the limitations set out in Rule 9. A motion to adjourn or a motion to adjourn to a time certain shall be taken by roll call vote.

Rule 11. Motion to Table. The adoption of the motion to table, under these rules, defeats the subject matter under consideration. The reconsideration of the motion to table shall require approval of a majority of the members elected.

Rule 12. Previous Question. When the previous question has been ordered, a vote shall be taken immediately upon the pending measure and such pending amendments as are in order. The effect of the previous question shall be to put an end to all debate; to prevent the offering of additional amendments and to bring the House to an immediate vote upon the measure and amendments aforesaid. The previous question may be ordered by a majority of the members elected. On the call of the roll, no member shall be allowed to speak more than three minutes to explain his vote and shall not speak at all if the question is not a debatable question. After the previous question has been ordered, and before the vote upon the main question, the opponents of the measure shall have ten minutes, and proponents of the measure shall have ten minutes.

Rule 13. Motion to Set the Limits on Debate. A motion to set a time limit for debate on a measure, in excess of that permitted under Rule 12, shall be in order unless the previous question shall have been ordered on the measure. The time limit set for debate under this rule shall be allotted by the Speaker evenly between the opponents of the measure and the proponents of the measure. Adoption of a motion under this rule does not prevent the offering of additional amendments.

Rule 14. Motion to Reconsider. A motion to reconsider a vote shall not be in order unless made by a member who voted upon the prevailing side of the question; nor shall such motion be in order unless made within two legislative days in which the House is in session next after the date the vote was taken; however, the motion to reconsider when coupled with the additional motion to lay that motion upon the table may be made by any member.

Rule 15. Motion to Lay on Clerk's Desk. The effect of the adoption of a motion to lay on the Clerk's desk under these rules is to place in charge of the Clerk the pending question and everything adhering to it. A motion laid on the Clerk's desk may be taken from the desk and proceeded with at any time in the same order as when laid on the Clerk's desk.

Rule 16. Motion to Strike Out Enacting Clause. A motion to amend by striking out the enacting words of a bill or resolution shall have precedence over a motion to amend; and, if adopted, shall have the same effect as though the bill or resolution were regularly voted upon and rejected.

Rule 17. Motion to Separate Part of a Measure. A motion to commit, recommit, or postpone a part of a measure so as to separate that part of the measure from the remainder shall not be in order.

Rule 18. Postponement of Measure. When a measure shall have been postponed indefinitely it shall not be in order again during the session.

Rule 19. Reading of Pending Papers. Any pending bill, resolution, motion or report shall be read by the Clerk upon the demand of any member, but it shall not again be read on the same day unless so ordered by the House.

Rule 20. Nominations. In all elections a previous nomination shall be made.

MEMBERS

Rule 21. Attendance of Members. No member shall absent himself from a session of the House without leave from the House. Written request for leave of absence may be obtained from the Clerk of the House and shall be submitted to the Speaker. The request shall state thereon the member's excuse for obtaining the leave. No excuse for leave of absence shall be heard from the floor.

Rule 22. Decorum of Members. No member shall designate another member by name.

Rule 23. Call to Order. If any member, in speech or otherwise, transgress the rules of order or decorum, he shall immediately be called to order by the chair and shall take his seat. The Clerk shall reduce the objectionable words to writing and read them to the House. After hearing a short explanation from the member called to order, or upon the withdrawal of the objectionable language, the Speaker may permit the member to proceed, or may compel silence upon him until the matter is disposed of. The ruling of the chair shall be subject to an appeal to the House. A member offending the House shall be liable to censure.

Rule 24. Debate. No member may speak more than once to the same subject until all members desiring to be heard have spoken, but nothing in this rule shall do away with the previous question if then in effect, nor permit debate on an undebatable motion.

No member shall speak more than thirty minutes in the aggregate on any question or measure, at the end of which period, or any portion thereof, the floor shall be returned to the Speaker.

Rule 25. Members Shall Vote at Seats. A member shall vote only when at his seat or visibly approaching it.

OFFICERS AND EMPLOYES

Rule 26. Duties of Speaker. The Speaker shall take the chair every day precisely at the hour fixed for the meeting of the House and on the appearance of a quorum, shall cause the Journal of the preceding day to be read, unless the reading of the same is dispensed with by the House.

The Speaker shall preserve decorum and order and, in the event of any disorder in the gallery or in the House Chamber, may cause the same to be cleared of any persons creating disturbances or disorders.

All writs, warrants, subpoenas or other processes shall be signed by the officer who may be presiding over the House when the paper is issued; and his signature shall be attested by the Clerk, when ordered by a majority of the members.

Rule 27. Appeal from Decision of Chair. The Speaker while presiding may speak to points of order in preference to members. He shall decide points of order and manner of procedure. If two or more members arise from their respective seats and address the chair, the Speaker shall determine who was first and recognize him.

Any decision made by the Speaker shall be subject to appeal to the House. Every such appeal shall be in writing and signed by at least two members. During the pendency of an appeal to the House from a decision of the chair, the Speaker shall vacate the chair and call the Speaker Pro Tempore to preside. When the Speaker Pro Tempore is presiding on an appeal to the House from a decision of the Chair, no motion or business shall be in order except the motion on appeal from the decision of the Chair, and that motion shall not be debatable.

Rule 28. Speaker Pro Tempore. The House shall elect a Speaker Pro Tempore. The Speaker Pro Tempore shall perform the duties of the Speaker when the Speaker is absent from the House or when empowered by the Speaker to perform the duties of the Chair.

Rule 29. Duties of Clerk. The Clerk shall have charge of all the clerical business of the House. She shall have charge of the Clerk's section of the House Chamber and shall see that no one is permitted therein except herself, those assisting her, and members.

The House may correct errors in the Journal the day the Journal containing errors is presented to the House. No record which is in the hands of the Clerk and is required by law to be entered upon the Journal of the House shall be copied by any person until same shall have been entered upon the Journal and said Journal shall have been approved.

Half an hour before the time fixed for the meeting of the House each day, the Clerk or one of her assistants shall be present at the Clerk's desk with the Journal of the preceding session for inspection of any member of the House.

The Clerk shall transmit the Journal for each day as soon as it has been approved by the House to the Legislative Research Commission, which shall deliver it to the public printer. The Commission staff shall proofread and index the Journal upon return from the printer and make necessary typographical corrections.

Rule 31. Custody of Papers. The Clerk shall have custody of all records, papers and bills of the House and shall not allow them to be taken out of her possession without the leave of the House, unless to be delivered to the chairman of a committee to which they have been referred, or to the Legislative Research Commission, as specified in these Rules, and then she shall take a proper receipt therefor. The original shall be the official bill, and shall be retained by the Clerk for the use of the House until engrossed and sent to the Senate. One copy shall be used by committees; one copy shall be for the use of the press and shall be given to a person designated by the press club; and one copy shall be given to the Legislative Research Commission. Each copy shall be backed with a protective cover, as provided for this purpose by the Legislative Research Commission. The title of the bill, or a portion thereof, and the signature of the member introducing the bill shall be placed on each cover.

In all bills, as introduced and as printed, which seek to amend existing sections of the Kentucky Revised Statutes, any new matter contained therein shall be underscored; and when an amendment proposes the omission or elimination of matter in an existing law, such omission or elimination shall be indicated on the typewritten bill and on the printed bill by placing the material proposed to be eliminated in brackets. The Clerk shall refer to the Legislative Research Commission any bills offered for introduction not conforming with the Automated Legal Text Entry and Revision System method or preparation, or with this format for revision as to form. The Enrolling Clerk in enrolling a bill which contains deleted material appearing in brackets shall strike over such deleted matter.

The Committee on Committees shall refer all bills to the proper standing committee not later than the second day in which the House is in session after the date of introduction. When a House bill has been amended in the Senate and has been returned to the House for concurrence in the amendment, it may be referred to a committee in the same manner as original bills are referred. Bills originating in and passed by the Senate when reported to the House shall be referred to the Committee on Committees and shall take the same course as other bills.

Rule 52. Printing of Bills. Upon receipt of a bill, the Legislative Research Commission shall examine the form of the bill to ensure that it is free from errors of form or typography and has been assigned the proper KRS section or chapter numbers. If a formal change is necessary the Commission shall request the sponsor of the bill to sign a form approving the specified changes. If a bill is found to be correct, or corrections have been approved, the Commission shall authorize its printing.

The Legislative Research Commission shall have printed at least two hundred copies of each bill or resolution carrying the force and effect of law introduced in the House and of each bill or resolution carrying the force and effect of law acted on by the Senate and reported to the House. Bills shall be printed in the order in which they are introduced and shall be distributed to members immediately upon receipt from the printer.

Rule 53. Readings of Bills. If a bill be reported with the expression of opinion that it should not pass, or without expression of opinion, a vote may then be taken on whether it shall be read at length and be placed on the Calendar, if a majority of the members elected to the House shall concur therein. When reported favorably by the committee, the bill shall then be given its first reading at length and shall be placed by the Clerk upon the Calendar to be kept by him, and shall then be entitled to its second reading the next succeeding legislative day.

Every bill shall be read at length on three different legislative days; but the second and third readings thereof at length may be dispensed with by a majority of all the members elected to the House and the bill read by its title.

Rule 54. Calendar. The Clerk shall keep a Calendar for each legislative day of the session showing the bills entitled to a second reading upon that day and shall post conspicuously the number of all bills recommended for said Calendar by the standing committees and the number of all bills placed in said Calendar by the Committee of the Whole House.

Rule 55. Orders of the Day. When a bill has had its second reading it shall be placed in the Orders of the Day, or be recommitted, and when next reached in the House it shall be ready for recommitment, or to be read a third time and placed upon its passage, and the Speaker shall so announce to the House.

A bill may be recommitted or amended at any time before its passage. Bills shall be placed in the Orders of the Day in the order in which they have been given their second reading, and shall be taken therefrom in accordance with Rule 41. When a House bill is in the Orders of the Day, it shall be in order on motion of the author to substitute for it an identical Senate bill which is in the Calendar of the House.

No bill shall be taken from the Orders of the Day unless it shall have been printed and previously distributed to members.

Rule 56. Final Passage. When a House bill has been amended in the Senate and the House has concurred in the amendment, the bill as amended shall immediately be placed upon its passage.

Rule 57. Amendments to Bills. All amendments offered shall be on sheets with a proper heading printed in black, furnished by the Clerk, and shall bear the signature of the members offering the same. All amendments shall give the proper page and line of the printed bill. Three copies of each amendment shall be introduced and the Clerk shall forward one copy to the Legislative Research Commission. No amendment shall be in order that is not germane to the matter under consideration and unless it shall have been printed and previously distributed by the Clerk to members at least one legislative day prior to consideration of the bill or resolution; and the Speaker, when the question is raised, shall rule as to the admissibility of the proposed amendment, subject to appear to the House.

Rule 58. Engrossment of Bills. Every House bill and joint resolution, together with the amendments thereto, which has been passed by the House and not subject to further amendment or motion, shall be engrossed by the Clerk and so certified by him endorsing thereon the day of passage or adoption. The bill shall be delivered to the Senate in open session by the Clerk or someone designated by him, and Senate concurrence asked therein. A like procedure shall be observed toward Senate bills.

When engrossing a bill, the Clerk may incorporate amendments by means of typing only. When an amendment strikes out any part of the original it shall be indicated in the engrossed copy by one parallel line over the part to be stricken out, in such a way as not to render illegible the original words.

Rule 59. Enrollment of Bills. All House bills and resolutions which have passed both the Senate and the House shall be delivered by the House Clerk to the Enrolling Clerk, taking a receipt therefor, in the order in which passed. The House Clerk shall keep the number and title of all bills and joint and concurrent resolutions carrying the force and effect of law, passed by the House of Representatives and the Senate in a suitable record book attesting the fact and date of passage.

In the event a bill which originates in the House is amended by the Senate and the House concurs in the amendments proposed and adopted by the Senate, the Clerk of the House shall engross said amendments in the original copy of the House bill, attesting the same, before delivering the bill to the Enrolling Clerk of the House. The Enrolling Clerk shall then cause the original bill as attested by the Chief Clerk and the safety copy of the bill as delivered from the Senate to conform to each other by typing in indelible typewriter ink or by writing in red ink the amendments engrossed in the original bill in the safety copy. In cases of extreme emergency and during the last three days prior to sine die adjournment, where no correct printed copy is available, the Enrolling Clerk may enroll such bill or resolution by typing the same on safety paper or by enrolling the same in long-hand.

The original bill or resolution and a printed copy upon safety paper in the exact form as finally passed shall be certified to by the Enrolling Clerk and delivered to the Committee on Enrollment. The Committee on Enrollment and the Enrolling Clerk shall jointly compare the original bill with the enrolled copy, and if the enrollment is ascertained to be correctly done, the Committee shall report the same to the House. However, simple resolutions expressing the will of the House and all resolutions recommending a study by an interim committee may be considered for adoption after receiving a recommendation from a standing committee and being posted for passage by the Rules Committee. All resolutions recommending a study by an interim committee shall include an approximate cost of the proposed study.

Rule 62. Legislative Citations. For the purpose of extending the commendations, condolences or congratulations of the General Assembly to a particular person, or to recognize a particular event or occasion, there may be issued a "Legislative Citation." Citations may not be used for procedural matters, matters of a controversial or partisan political nature, nor in place of resolutions memorializing the U.S. Congress, but only when appropriate to express the feeling of the House or of the General Assembly with reference to a person or event.

Each such citation shall be prepared in single copy on an artistically designed form, suitable for framing, shall bear the signature of the sponsor and the name of the person or event cited, and upon adoption shall be spread at length upon the Journal. Citations shall be considered in the order of business "Motions, Petitions and Communications," and without objection shall be adopted *en bloc* after reading individually by title. When sufficient time has been allowed the members to vote and to explain their vote, the Speaker shall announce: "Have all voted?" "Does anyone desire to change his vote?" And after sufficient pause shall lock the roll call system and instruct the clerk to record the vote. It shall be the responsibility of each member to determine the accuracy of his individual vote as registered opposite his name on the electrical roll call board and advise the Speaker of any desired change before the roll call system is locked.

The clerk shall immediately start the recording equipment, and when completely recorded, shall present the result to the Speaker who shall announce same to the House. The Clerk shall enter upon the Journal the result in the manner provided by the rules of the House.

At the same time the vote is recorded by the electric recording equipment an original and five duplicate roll call sheets shall be made showing the vote, two of which duplicates shall be for use of the press, and one copy shall be furnished to the Legislative Research Commission.

In addition to such penalties as may be prescribed by law, any member who shall vote or attempt to vote for another member may be punished in such manner as the House may determine. If a person not a member shall vote or attempt to vote for any member he shall be barred from the floor of the House for the remainder of the session and may be further punished in such manner as the House may deem proper, in addition to such punishment as may be prescribed by law.

Representative Hughes moved the adoption of the Previous Question on **HR 18**.

On the roll call the vote was yeas 57-Adams, Arnold, Bennett, Benson, Blandford, Blume, R. Brown, Bruce, Burch, Chandler, Clapp, Crupper, Denham, Dietz, Donnermeyer, Dunn, Foster, Freeman, Graves, Hancock, Harris, Head, Hinkle, Hughes, Hurst, Isler, Kenton, Kidd, Little, Loudon, Mann, May, Maynard, McBee, McBride, O'Brien, Pearman, Paxton, Priddy, Reynolds, Roberts, Romines, Sharpe, Siemens, Stephens, Stewart, Stone, Swinford, Thomas, Troop, Turner, Vincent, Watkins, Wells, J. White, Whitfield, Yates. Nays 36-Allen, Beshear, Blythe, Clarke, Davis, Dawahare, DeMarcus, Gay, Givhan, Guenther, Hardin, Hellard, Holbrook, Holloway, Hopkins, Imes, Kafoglis, Kareem, King, Kleier, Lewis, Lindsay, Mason, McBrayer, Morgan, Nett, Overstreet, Quickert, Rattliff, Robinson, Sale, Schmaedecke, Schmidt, Van Horn, G. White, Wible.

The Previous Question was adopted on **HR 18**.

Representative Morgan requested that his following remarks in regard to **HR 18** be spread upon the Journal: "Were I afforded the opportunity to vote on an amendment to require the Committee on Rules to be opened to the public, I would have voted for the amendment." Agreed.

Representative Van Horn requested that he go on record as being in favor of an amendment to **HR 18** to require the Committee on Rules to be opened to the public. Agreed.

Representative Hopkins requested that he go on record as being in favor of an amendment to **HR 18** to require the Committee on Rules to be opened to the public. Agreed.

Representative Mason requested that he go on record as being in favor of an amendment to **HR 18** to require the Committee on Rules to be opened to the public. Agreed.

Representative Hopkins requested that his following remarks concerning **HR 18** be spread upon the Journal. Agreed.

In asking that you vote favorably on the proposed amendment, I'm asking you to lift the veil of secrecy from the Rules Committee.

I ask that each of you carefully weigh the principal arguments that have been made for and against the proposal.

I have no quarrel with opponents of this amendment.

I do not doubt the sincerity of their opposition.

I have no reason to question their motives or suspect their willingness to improve this legislative body.

But I would call into question and ask that you examine the logic of their arguments.

One argument frequently voiced is that the presence of the news media in these committee meetings would (1) inhibit and (2) distort the actions and discussion of the members.

If that were true;

If the news media represents such a threat to candid discussion;

If, as advocates of this theory imply, the members of this body are so void of principles and integrity that they would take one position in private and another in public, it seems to me that we have two courses open to us.

We can either open all the committee meetings to the media and the public and expose political cowardice for what it is, or we can move to expell the news media and the public from every meeting, including this session.

No one yet has claimed that the press is a perfect institution.

In our careers, all of us probably have known instances where the ethics of journalism were seriously breeched by members of the profession.

But even with these imperfections, let all of us realize that the news media is not just one individual reporter, not just one newspaper or one television or radio station;

It is more than that;

It is the eyes and ears of the people whose business we are transacting here.

And so when opponents of this measure say the media has no business in the Rules Committee, what they are saying in reality is that the people of Kentucky have no business in the Rules Committee.

Surely that is not the majority opinion of this body.

Another ploy to defeat this motion to open all committee meetings has been a compromise proposal to restrict the number of days the Rules Committee may hold a bill.

I favor the limitations that have been proposed and I commend those who originated the compromise suggestion.

But I would submit that this proposal is not without pitfalls and does not cure the problem of secrecy; it will only cause more deception and evasion.

I trust we would not be dissuaded by this compromise from doing what, in our hearts, we know is in the best interest of legislative integrity and the people of Kentucky.

The compromise is, after all, only an admission that change is needed.

The final argument raised last week against this motion was the contention that the resolution to open the meetings was premature.

Ladies and gentlemen, I submit that the time for us to act is now.

The movement to lift the cloak of secrecy from our proceedings is not premature.

If anything, it is too late.

We have only to look at how government is perceived by the people of Kentucky and the nation to know that is right.

Louis Harris, a respected public opinion surveyor and analyst, is the author of a book called "The Anguish of Change", in which he offers some interpretations of the opinions Americans have expressed in scientific surveys the past few years.

These surveys show that between 1966 and 1973, public confidence in most if not all our public institutions has plunged and Americans have expressed a somewhat frustrated plea for change.

And to whom do they look to implement these changes?

You and me, ladies and gentlemen. . . they look to the leaders of government.

They are convinced that only through a more perceptive and responsive leadership in government can the needed changes be made.

In other words, according to Mr. Harris, we have reached the point that the people are ahead of the so-called leaders in government.

One of the common smoke screens used by leaders who want to get the public heat off their backs is to explain that the complexities of modern problems are so vast that the simple citizen cannot understand them.

Therefore, the people should just relax and be happily consoled in their reassurance that ---"Papa knows best"---even though Papa's guidance seems to continuously bring us out at the wrong places.

These leaders contend that the problems of managing big government are so involved that we are wise to leave them to the "experts."

And, of course, by "experts" they mean whoever is handling these problems at the time.

It is because of the very involved nature of our modern society and its institutions that we must keep our attention fixed upon general objectives.

And so, I urge you to act now, so that we can begin to catch up;

So that we can begin to restore public confidence by showing the courage to act on the people's business in public rather than in secret.

One final note to those of you who feel as I do that this change in the rules is needed.

There are those who seek to make this a partisan issue and hide the logic of this matter behind party labels.

The vents of the past months should convince every Kentuckian that neither of our two great political parties has a monopoly on morality or immorality.

Washington has its Watergate and Kentucky has the unexplained \$800,000 fund-raising project.

And both parties have suffered the stain of these ugly episodes.

I have spoken to many of you on the subject of legislative reform and improvement.

I know many of you will join in support of the sunshine law that has been proposed, as I will.

I would only ask how we can in good conscience vote to close our own meetings and then dictate that every other public body in Kentucky should conduct their affairs in open view of the press and the people.

The proposal to open committee meetings is not a Democrat or a Republican issue. . . . yet.

And you can prevent it from being a partisan issue by your vote today.

It is not in the hands of the minority party in these chambers to make this a partisan matter;

That can only be done by the members of the majority party.

Whether you will decide that your party is the party of secrecy, is the party of exclusion, is the party of the closed door is up to you.

I urge you to consider the arguments for and against this proposal and then record an overwhelming, bipartisan victory for the people and for the legislative process by voting to open all committee meetings of the Kentucky General Assembly.

Thomas MacAulay, the British historian who died on the eve of our Civil War, wrote a warning to America.

He predicted the possibility that our country would come under a dictatorship.

The alternative which he forecast is no less prevalent in Kentucky today.

MacAulay said, and I quote:

"Your republic will be fearfully plundered and laid waste by barbarians in the Twentieth Century as the Roman Empire was in the fifth, with this difference----that the Huns and vandals that ravaged the Roman Empire came from without, and your Huns and vandals will have been engendered within your own county by your own institutions."

Finally, ladies and gentlemen, "How will you answer to the people in the gallery today;

How will you answer to your children;

How will you answer to your family;

How will you answer to the citizens of Kentucky...when they ask you.....

What are you afraid of.

Representative King requested that his following remarks concerning **HR 18** be spread upon the Journal. Agreed.

I firmly believe that all legislative matters are public business and that all meetings of the various committees of the House of Representatives should be open to the press and the public.

The public is entitled to full disclosure of public business and it is a gross breach of public trust for an elected member of the General Assembly to cloak his or her conduct and actions in secrecy behind closed doors.

The foundation of our democracy will be inundated and possibly destroyed unless public confidence is restored in public officials. The needed confidence of the public cannot be restored so long as public business is conducted behind closed doors.

When the democratic caucus considered the Permanent Rules to govern the House of Representatives during the 1974 and 1975 sessions of the General Assembly, I spoke, advocated and voted unsuccessfully for open public meetings of the Rules Committee and all other committees of the House of Representatives.

Further, that I would have voted for opening all committees to the press and the public if I had been afforded the opportunity to amend the rules. I voted unsuccessfully against the Previous Question which cut off the possibility of amending the rules to permit open meetings.

Representative Blythe requested that his statement be spread upon the Journal, that had the Previous Question not been adopted on **HR 18**, he would have voted for an amendment to require the Committee on

Rules to be opened to the public. Agreed.

Representative Nett requested that the Journal show he would have voted for an amendment on **HR 18** to open the Committee on Rules had he had the opportunity to do so. Agreed.

Representative Lindsay requested that the Journal show he voted against the Previous Question on **HR 18** and he would have voted for an amendment on **HR 18** to open the Committee on Rules had he had the opportunity to do so. Agreed.

Motions, Petitions and Communications

Representative Guenther moved that the rules be suspended for action on a resolution. Agreed.

Representative Guenther moved the adoption of the following **HR 21**:

HR 21, A RESOLUTION to commend Gordon Sinclair for his editorial, "America," and to cause excerpted portions of his editorial to be read aloud before the House.

WHEREAS, our great nation has suffered at the hands of those who doubt her greatness, at home and abroad; and

WHEREAS, we most heartily desire to affirm our faith in her greatness and support her strength; and

WHEREAS, Canadian broadcaster Gordon Sinclair has eloquently testified to the selflessness, generosity and strength of our nation at times of other nation's trials;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That we shall commend Gordon Sinclair for his editorial, "America."

Section 2. That the following portion of his editorial be read aloud before this assembled body:

"This Canadian thinks it is time to speak up for the Americans as the most generous and possibly the least appreciated people on all the earth.

"Germany, Japan and, to the lesser extent, Britain and Italy, were lifted out of the debris of war by the Americans who poured in billions of dollars and forgave other billions in debts. None of these countries is today paying even the interest on its remaining debts to the United States.

"When the franc was in danger of collapsing in 1956, it was the Americans who propped it up, and their reward was to be insulted and swindled on the streets of Paris.

"I was there. I saw it.

"When distant cities are hit by earthquakes, it is the United States that hurries in to help. This Spring, 59 American communities (were) flattened by tornadoes. Nobody helped.

"The Marshall Plan and the Truman policy pumped billions upon billions of dollars into discouraged countries. Now newspapers in those countries are writing about the decadent, warmongering Americans.

"I'd like to see just one of these countries that is gloating over the erosion of the United States dollar build its own airplanes.

"Come on, let's hear it.

"Does any other country in the world have a plane to equal the Boeing Jumbo Jet, the Lockheed Tristar or the Douglas 10?

"If so, why don't they fly them? Why do all the international lines except Russia fly American planes?

"Why does no other land on earth even consider putting a man or woman on the moon?

"You talk about Japanese technocracy, and you get radios. You talk about German technocracy, and you get automobiles.

"You talk about American technocracy, and you find men on the moon--not once but several times--and safely home again.

"You talk about scandals, and the Americans put theirs right in the store window for everyone to look at.

"Even their draft-dodgers are not pursued and hounded. They are here on our streets and most of them--unless they are breaking Canadian laws, are getting American dollars from Ma and Pa at home to spend here.

"When the railways of France, Germany and India were breaking down through age, it was the Americans who rebuilt them. When the Pennsylvania Railroad and the New York Central went broke, nobody loaned them an old caboose. Both are still broke.

"I can name you 5,000 times when the Americans raced to the help of other people in trouble. Can you name me even one time when someone else raced to the Americans in trouble?

"I don't think there was outside help even during the San Francisco earthquake.

"Our neighbors have faced it alone, and I'm one Canadian who is damned tired of hearing them kicked around. They will come out of this thing with their flag high.

LT. GOVERNOR CARROLL

MR. SPEAKER

DISTINGUISHED MEMBERS OF THE GENERAL ASSEMBLY

Included with your budget document is a letter of transmittal, relating to a new format and other efforts providing the best accountability ever, of state government meeting its responsibilities.

The Executive branch has tried to work as closely as possible with the Legislature, hopefully easing your burdens during a short, but most demanding period. We have endeavored to keep you informed. Whatever additional assistance you desire throughout this session will be immediately available. For if priorities are met, your line of sight must not be restricted while examining statewide needs.

The citizens of Kentucky have every right to expect wisdom, compassion and beneficial direction from those who allocate their tax dollars. Funds supporting state services do not belong to either you or me. They are the necessary contributions of working Kentuckians who await our complete and proper management.

The budget plan I offer goes far beyond normal continuation of current state services. Continuation stabilizes the present, but wherever possible, we must drive head-on to meet urgent public needs, both now and for the future, with new and expanded programs. Our challenge is to act, rather than merely drift along in complacency. This budget is almost a billion dollars larger than the previous one.

It does not require one penny more in new or increased taxes.

Even at a \$4.4 billion level, the budget is in line with conservative revenue estimates, taking into account the energy crisis and other expected national economic trends.

We were especially conservative two years ago in estimating revenue and projecting a surplus. An expected surplus of \$80 million in state funds for the first biennium clearly refutes those who said it couldn't be done. I have the utmost confidence in our estimates for the 1974-76 biennium.

When speaking of state government cost savings, you will be pleased to know that up to \$27 million less will be spent than was appropriated two years ago.

Let me add an important point. There may be those who believe that all of the new programs we can achieve these next two years come only because of federal revenue sharing. The truth, is that revenue sharing accounts for less than four percent of the budget. The truth, is that we must compensate for curtailments of various federal programs and prior funds impoundments.

While revenue sharing for non-recurring expenses helps, our capacity to do far more without any tax increase is due to several factors: The state's economic growth, savings in the cost of state government, the willingness of Kentuckians to work hard, and the remarkable record of the 1972 General Assembly.

Federal revenue sharing money for the coming biennium will grow by \$10 million because we didn't rush out and recklessly spend it. . . . we made it work for the citizens of Kentucky through investment, thus giving you a better opportunity of judgment in light of changing national and state conditions.

We have continued all existing programs presently in force with state funds. Due to inflation, the cost is much higher today than 24 months ago, and even for agencies where there is no expansion, the increase is substantial. Otherwise, state government would have to curtail services. I don't believe anyone in this chamber, and especially the general public, wants state government in such a position.

Beyond meeting this particular goal, we have established a long list of new and expanded programs above continuation. These are top priorities in fulfilling the expectations of Kentuckians.

To strengthen our foundation, I have included a 4.5% extension to make personnel classification more competitive, and a 5.5%, per year, merit increase. These funds provide an average 15.5% salary adjustment during the biennium for qualified employees. If state government is to attract, and retain, worthy employees, and if the public is to receive the best value for tax dollars paid, we can't remain as a training ground for someone else. When other governmental units, as well as business and industry, promote the rapid exit of qualified state employees because pay is better elsewhere, government's ability to function is seriously threatened. This has been the case too many years, and it's time we wake up to the fact.

On another matter, I made public commitments on three major items at earlier dates, and have included them in the budget. They are the University of Louisville Medical complex, support for the Lexington Civic Center, and matching funds for an institute to research biological aspects of aging. There have been a few

other public announcements, though not made by me' They were pretty accurate, and you'll find most of them in the budget too. Frankly, I started to entitle this address the "worst kept secret in the history of Kentucky." But, I am sure when we conclude you will find a great number of new programs which will make tomorrow's horizon very bright indeed.

Now, let us turn to the future as we examine a new and expanded service delivery system for state government. . . a system responsive to every man, woman and child in our great state.

HUMAN RESOURCES

In my 1972 budget message, I pledged that the operational cost of government would show the beginning of a downward trend in the percentage of general fund dollars. I am prepared to demonstrate the fulfillment of that commitment, not just in some small area of government, but in the second most costly function, and largest in terms of personnel.

I am extremely pleased to report that the recommended general fund increase the next two fiscal years is the lowest percentage appropriated since 1956. Yet for the first time in memory, it provides 100% funding of the entire budget request because of reorganization and innovation.

Many expansions are included in the recommended Human Resources budget, to improve the quality of health, well-being, and living conditions for our people--this is what government is all about.

We will improve the quality of life of the aged and handicapped.

We are adding \$7.6 million each year to support the 20% of Kentucky's aged, blind and disabled who will no longer be eligible for federal aid since Washington's definition of aged, blind and disabled is more harsh than Kentucky's. They have quit. We haven't. In a time of unequalled corporate profits, I believe it is tragic to abandon the aged, the blind and the disabled.

While we have made tremendous strides in medical facilities and professional care, these advancements are useless to the seriously ill or critically injured if they can't get to a hospital in time. I have, therefore, provided \$1.8 million new dollars in the Emergency Medical Services program for purchase of vehicles, communications equipment and basic emergency medical training.

Families with dependent children, where cries of hunger are loud, illness is commonplace, and life is bleak, can expect \$3.1 million more in state funds the first year and \$7.1 million the second to improve living conditions.

The new Children's Treatment Service building will soon be completed at Central State Hospital. This budget provides \$438,000 for staffing. In addition, 312,000 new dollars will be expended for day care.

This budget provides service to 8,000 more senior citizens. It responds to requests from small communities and rural schools for prevention of dental disorders. We are also willing to spend a quarter of a million dollars more to assist our elderly citizens at home rather than put them in institutions.

Expanded services in Human Resources call for the establishment of 12 additional Home Health Agencies, new development and improvement for the state's 15 Regional Health Planning Councils, and replacement of funds taken away by the federal government--\$2.5 million--to maintain family and children services, once available through Title 4-A of the Social Security Act, but no more because of federal irresponsibility.

Beyond all of these, and other new programs, I propose over 47 million new dollars to allow for construction and renovation projects.

Included are \$1.5 million for the construction of a Western Kentucky Reception Center to serve youngsters committed as public offenders from west Kentucky and Louisville.

A visit to our mental health and mental retardation facilities, as many of you, and as I have made, shows in no uncertain terms how time and use have taken their toll. Immediate renovations and improvements must be started. I, therefore, recommend nearly \$8 million to zero in on deficiencies which

have plagued these facilities for so many years. I also recommend additions and modifications to Oakwood, not completed during initial construction.

As we concentrate on mental health and mental retardation facilities, I have a special request. Perhaps the most significant new thrust in reorganization of Human Resources is our ability, for the first time, to convert several state psychiatric hospitals and mental retardation facilities into certified intermediate care facilities. By doing so, we will prevent an expenditure of \$13 million which otherwise would be necessary from the general fund to maintain current service levels. This new approach will make them eligible for previously untapped reimbursements for services through federal medical assistance programs and private insurance. This is proof positive that through innovation, imagination and hard work we can take better care of our citizens--better care of our citizens with fewer tax dollars. Your concurrence is urged.

One other item I want to note: My request for \$31 million dollars to build a medical complex at the University of Louisville is not only for education, but to satisfy health and medical needs of all Kentuckians. I have also included \$3 million in the Council on Public Higher Education budget to initiate five regional health centers, which will better distribute health manpower, assuring treatment in all areas of the state. Both appear in the Education budget, but we should recognize the human resource/medical companionship these offer. Our purpose is to bring medical services and people closer together--in other words, making them accessible to the citizens you represent.

JUSTICE

Like all Americans, Kentuckians have a special concern for life, liberty and property. I, therefore, recommend these new programs.

Increasing the State Police force by 100 Troopers in the biennium.

Providing State Policemen an additional 10% salary increase each year in order to retain highly trained and competent officers. This is above the annual 5% increment.

Updating the State Police radio network.

State training for approximately 120 additional local police officers each year--above and beyond normal growth patterns.

State training for all law enforcement communications personnel and all local jailers. Additional training for state correctional and judicial officers.

What we have done in the last two years, and what is proposed for the coming biennium can be summed up with a statement to the criminal elements from both you and me:

Get out of Kentucky and stay out'

The tougher we make it on the scum of dope peddlers, the stink of organized crime and the many other elements who prey on innocent and honest citizens, the better life will be in this state.

Other new programs would implement pre-sentence investigations and expand services in shock probation. It is time to implement work-release and study-release in the state Corrections System.

I also recommend 3 additional Circuit Judges to counteract increasing workloads, and the funding of \$1.5 million of the Judicial Retirement System's prior service liability. Three additional Court of Appeals Commissioners are necessary if a backlog of 1,000 cases now in our highest court is reduced.

As you recall, Kentucky began a unique training program for local police officers last year, after months of debate with the Federal Pay Board and Cost of Living Council. No other program of its kind is in America. Available to nearly 3,000 local policemen who qualify through required education, the plan supplements their salaries if they meet strict standards. Limited federal support mandates our expansion of funding to 75% of the total. Without the recommended \$9.3 million for the biennium, Kentucky will turn its back on one of the most worthwhile assaults against crime we have ever achieved. Its success is found throughout the Commonwealth with trained police officers rather than individuals handed a badge, pistol and

life-or-death assignment. We have a long way to do in the battle against crime, and this program is essential'

In addition to the proposed new and expanded programs, the Justice field requires over \$30 million in capital construction.

Unless we decide to give our Correctional System the proper tools for rehabilitation, for separation of prisoners and for specialized treatment, we will continue in the dark ages with overcrowded mass custody centers.

The old ways aren't working. They are expensive and constantly endanger the lives of Correctional employees. It's time that we enter the 20th Century by constructing a new maximum security prison for which I request \$15 million.

Prisoner cost is expensive. The expense has mounted for decades because of a revolving-door approach which is no more than putting them in, letting them out and putting them in again. A rehabilitated prisoner becomes a taxpayer rather than a tax drainer. Remodeling existing institutions would cost far more than building the specialized prison. I realize there are some who cannot be rehabilitated. These would be separated from those who can. Even with advancements made, today's structures are inadequate, but with your approval we will be able to make "corrections" what the word stands for.

I also recommend construction of a farm dormitory separated from the main institution at LaGrange where work incentive becomes paramount. This plus other maintenance projects at our Correctional institutions would total \$4.5 million. . . a lot of money. It should have been spent during the last 15 years, but it wasn't. If we don't meet a long-neglected responsibility, who will?

Other recommendations are for a new Justice building to bring all elements of the Department under one roof. This frees, for instance, vitally needed State Police space now unavailable for expanded training. There is a serious need for two new State Police Post Headquarters as well as renovations at several other posts. Funds are provided to accomplish each.

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION

Three years ago, when the environmental protection movement was reaching full bloom, Congress began putting final touches on landmark legislation to clean up our nation's air, water and land. It didn't last long as federal impoundments signaled retreat. Today, in the face of the energy crisis, the federal government is retreating even more from that commitment.

Well, they might retreat in Washington, but we're going to continue the attack in Kentucky' I don't believe you want anything less'

In my State of the Commonwealth Address, I outlined measures taken to improve our environment. I am proud to offer a budget which can do even more. To continue work already underway, and implement new programs, the next biennium will need \$24,900,000. I have earmarked capital construction monies to correct pollution deficiencies at all state facilities. We have a responsibility to clean our own house first' I also recommend the following:

An additional \$1 million for fiscal 74-75 which will stimulate the orphan land reclamation program, enabling us to reclaim more acreage as the program grows. This is your program and it's positive'

Nearly \$800,000 the next two years to increase the number of air monitoring stations, and \$125,000 to research new or modified indirect sources of air pollution.

\$350,000 to implement the sediment control legislation under the Federal Water Quality Control Act.

One million dollars to repair and maintain dams on state-owned lakes, protecting thousands of Kentuckians, and ensuring water sources for hundreds of local communities.

\$400,000 for the biennium to launch beautification projects in every county while pushing ahead our efforts to rid the countryside of junk automobiles and orphan dumps. First-time funding of the Wild Rivers

Act. \$120,000 to regulate the sale or use of pesticides.

One aspect of environmental protection which has never been attempted here is the study of surfact disturbances from underground mining. For this purpose, and subsequent action, the budget contains \$400,000.

Finally, during the next biennium, nearly 50 communities will benefit from funds provided through the Kentucky Pollution Abatement Authority for construction of sewage treatment plants.

No one can reasonably deny the advancements you and I have made in environmental protection--more in the last two years than in a decade. I am here now to strongly urge more progress by calling for legislation to strengthen strip mine reclamation, especially as it pertains to eliminating overburdens and going to head-of-hollow fills.

TRANSPORTATION

The impact of the energy crisis on transportation already has been felt. More headaches are anticipated. And it is in this practical vein that we must approach the area of transportation.

In the past two years, Kentucky has made great strides in transportation despite no federal transportation bill a year ago and federal impoundments of funds. Uncertainties over road receipts prompt caution.

Despite serious handicaps, we have decided to continue the same levels of service of the past two years by providing \$554 million in state funds for the biennium. This requires a supplement of \$26.5 million in general fund non-recurring monies.

Careful monitoring will be maintained to evaluate expected reductions in road funds during this crisis period, one expected to last beyond the 1974-76 biennium.

Certainly, the 1972 General Assembly's decision to establish a recommended municipal street program has become even more important to our cities and towns. This program, along with the rural secondary and county road aid programs will continue to have my strong endorsement.

Even with an emphasis on existing programs, there are five new ones I suggest:

The establishment of a new mass transit program at the state level to provide needed planning and technical assistance to local, regional and state transportation agencies. Our three largest metropolitan areas--Louisville, Lexington and Northern Kentucky--already have felt the necessity of such assistance, and other sections of our state eventually will be seeking expertise from this office as population grows. A mass transit staff will be assembled within the Department of Transportation to assist both urban and rural areas in planning and completing studies which are a prerequisite for obtaining federal capital grant dollars. I am recommending an expenditure of a million plus dollars so we can quit talking, and get on with the job of transporting people in urban areas.

With the appropriation of \$1.1 million in new monies over the biennium, we can, for the first time, fully implement an overall planning series with the Department giving us a long-range, comprehensive approach to all modes of transportation.

The overall impact of transportation on Kentucky's environment will be acted upon by the implementation of the Environmental Action Plan. New money will be provided for specialized staffing, presently not available.

I am asking for nearly one million dollars to comply with Federal Traffic Sign and Signal Standards by the end of the biennium.

And, I am requesting funds for semi-annual airport safety inspections, another standard which has never been achieved in Kentucky.

PROTECTION AND REGULATION

A first observation in Consumer Protection and Regulation is the name change. We adopted a good editorial suggestion with the title now being: Public Protection and Regulation.

Some have characterized Public Protection and Regulation as a "catch-all" function. Though not quite true, the Cabinet does reach into all 120 counties, serving as an umbrella to shield the public from those who would take advantage by fraud, deception, misrepresentation and even innocent error. The Cabinet stimulates better working conditions, provides educational resources for industry, business and the consumer, and regulates various activities affecting the general public.

Upon assuming office, one of the most tragic omissions of responsibility discovered had been in Banking and Securities. Conditions were so bad I authorized \$167,000 from my contingency fund to rectify some of them. But more is necessary, such as \$150,000 extra dollars through 1976 to continue our efforts to upgrade the Department of Banking and Securities supervision of state banks and state securities. We must add six new examiners'

New programs or expansions call for:

Nearly \$500,000 to expand the inspections made under the minimum safety standards program in the Department of Insurance. Only a small fraction of inspections needed for minimum safety standards are being made. I am recommending funds to comply fully with those standards--another first.

\$50,000 increase each year in grants to local Volunteer Fire Departments.

\$150,000 to establish a new program to aid volunteer rescue squads in the Commonwealth by providing grants to purchase equipment and to help train members of the volunteer rescue squads. This will be another first for Kentucky.

\$125,000 each year to establish a new program in the Department of Labor, Labor Education and Research, to better equip the members and leaders of labor organizations and to encourage them to participate in solving community problems.

Nearly \$131,000 to the Department of Labor for the compliance of apprentice agreements.

Funds to add three mine inspectors and necessary equipment.

Finally, I have recommended general fund support for research and security in our racing industry. This recommendation is designed to promote the horse industry and horse racing and to safeguard against scandals, that have hit race tracks in other states.

This budget reflects concern for the protection of the safety, health and economic well being of all Kentuckians as well as protecting the economic integrity of the industries regulated by the agencies in the Cabinet. There is another point for your consideration. I favor a no-fault insurance plan that reduces premiums. I urge you to pass such a bill that will also comply with Kentucky's strict Constitution.

DEVELOPMENT

Our economic thrust has been and will continue to be through a combination of activities requiring the support and cooperation of countless individuals and organizations. Maintaining Kentucky's outstanding economic growth, especially through a period of uncertainty, requires even more effort. But there can be no give and take, especially as it affects our quality of life.

We have been selective in seeking new industries, rather than throwing open the door for anybody.

And we're going to continue to say:

If you pollute--we don't want you'

If you pay insufficient wages--go elsewhere'

If you are coming here thinking first of yourself rather than your new home state--don't.

There are far too many service-oriented businesses and industries, where management is progressive and thoughtful, for Kentucky to be satisfied with anything less than blue chip firms'

Service-oriented development can be illustrated when a state joins, as I recommend we do, with Lexington by providing \$4 million toward its new civic center. . .with Louisville by providing \$22 million for the Kentucky Exhibit Hall. . .and by improving the State Fair and Exposition Center in order to attract hundreds of thousands of new visitors.

Service-oriented development comes through research, such as my call for the most challenging program in our state's history, delivered last week in my energy message.

Service-oriented development comes through tourism--last year a \$699 million industry. When out-of-staters visit Kentucky, they support our economy. I have suggested substantial new funds for capital construction and renovations at nearly every major resort and recreation park in Kentucky, including \$4 million for utilities at the State Horse Park and \$2 million for development of Dale Hollow.

Service-oriented development comes with agriculture, and for the first time, we will sponsor the North American Livestock Exposition, another step in the promotion of our growing cattle industry.

But development goes beyond that already emphasized.

You are being asked to fund increased laboratory services through renovation of the Hopkinsville Animal Diagnostic facility. You are being asked to spend new dollars to replace and modernize precision balance equipment the Department of Agriculture must have for consumer protection in packaging, inspecting retail stores, gasoline pumps, stockyards and other facilities.

Two years ago, in my budget address, I promised that with Legislative approval, we would show marked improvements in state productivity, individual earnings, employment and citizen satisfaction. We did. I call upon you now to break that record and enhance the future of every Kentucky resident.

GENERAL GOVERNMENT

Minimizing the spiraling cost of administering state government was a principal campaign position of mine, and has been of foremost concern.

Action thus far will not only have an immediate impact on the overhead costs of delivering services to the people, but will create a lasting effect on the ability of future administrations to hold down the amount of dollars required to "support" rather than deliver services.

Two steps taken before the actual preparation of this budget have been and will continue to be significant in reducing the cost of state government.

1. I directed, last summer, that all vacant positions in every organization of state government be analyzed and abolished if possible. As a result, 3,120 positions were eliminated.

2. Of equal significance is the project, now 18 months old, of centralizing state government computer operations. I inherited a situation when data processing equipment of all descriptions was found in nearly every agency. The application of this useful management tool was fragmented, overlapping and most of all, too expensive. As of this date, our actions will save \$2.4 million in the next biennium. Reduced equipment, labor and material cost is netting a savings of \$100,000 per month to the taxpayer, not to mention improved quality and accessibility of computer produced information.

I ask your consideration and approval of a budget for the General Government Cabinet of Agencies that represents the smallest percentage increase in biennial funding for any Cabinet of state government.

The program expansions set forth are:

\$320,000 in the biennium to implement a comprehensive, sophisticated Emergency Operation Center in the Boone National Guard Center now under construction in Frankfort. In time of emergency or disaster, this system will give us the ability to communicate freely with all areas of the Commonwealth.

Capital construction funds to build two new Armories, as well as funds to renovate an existing facility for a third armory. I am also recommending more than \$650,000 in the biennium for major maintenance projects at existing Kentucky armories.

Because of the fuel shortage, it appears likely that Americans will shorten travel distances for trips and vacations. With this in mind, I have increased the biennial funding of the cooperative advertising program by \$230,000. The program emphasizes local and regional travel promotion and matches local funds with a like amount of state dollars. For the state's and nation's bicentennial celebrations, this also provides matching funds for regional program advertising.

Fiscal 1975 will be the first full year of operation for the Kentucky Housing Corporation. Already, the Corporation is issuing and marketing housing revenue bonds and bond anticipation notes to create funds which will reduce the cost of housing for the poor. The Commission will operate totally with self-generated funds during the biennium.

I have added more than \$100,000 to the biennial appropriation for the Commission on Human Rights.

Other programs I have recommended expansion for are:

\$90,000 to provide marketing assistance to Kentucky's farmers, as well as various assistance and information services through the Kentucky Farmer's Advocate's Office. We are also attempting to bring the World Dairy Expo to Kentucky in 1975.

Additional staff for the Auditor of Public Accounts.

Additional staff for the Litigation Program and the Consumer Protection Program of the Department of Law, and general fund dollars for assistance to local prosecutors and officials, a program which had been funded by federal money.

Funds for the computerization of corporate records which will provide a greater service to Kentucky businesses and corporations, requested by the Secretary of State.

An expanded program in the Department of Revenue for predicting revenue collections.

My total recommendation is \$158,187,400. This is only a 6.4% increase in the face of a 15% inflationary increase in actual costs--meaning we are providing services at less costs through reorganization and businesslike approaches.

HIGHER EDUCATION

The basis for the 1974-76 recommendation in Higher Education was provided by the Council on Public Higher Education. I compliment the Council for an outstanding job of evaluating budget requests of our public institutions of higher learning. With their evaluation, we limited our review to the Council recommendation. You should also know that institution requests were the most austere in memory.

The budget recommendation contains over \$164.9 million in 1974-75 and over \$177.8 million in 1975-76 in general funds for operating our public higher education programs this biennium.

It does so without any increase whatsoever in tuition.

It does so with a reduction in tuition at the University of Louisville, which can amount to \$100 each year if anticipated funds are realized. And it does so with a \$3 million student loan fund, never established before, which will open the doors of higher education to young Kentuckians who today are shut out because they can't afford the cost.

The general fund recommendation for 1974-76 provides for an adequate level of continuation, and addresses some of the exceptional needs of higher education:

The Council will develop and implement five regional health education centers in the Commonwealth during the next biennium.

A mining technology course at Madisonville Community College, providing training for general reclamation procedures.

The budget recommendation for the University of Louisville includes a community thrust program, extending academic, cultural and service programs to more local residents particularly those in the west end.

General fund recommendations for U of L and Northern Kentucky State College reflect our strong emphasis on bringing each institution fully into the state system. Louisville's increase over the previous budget is nearly 40%, while a 57% increase has been marked for Northern.

Over \$60 million is recommended for capital improvements, above the funding already mentioned. The largest amount is \$31 million for the medical/health complex in Louisville.

Northern Kentucky State College, besides its 57% increase over the past two years, and the massive funding we appropriated in 1972, is slated in this budget for \$13 million more dollars for new and expanded facilities. . . .and this is first class status in anybody's book'

The University of Kentucky is our principal institution of higher learning. I deem it important to say publicly that in recent months, three honors have come to UK which deserve attention. Among the nation's leading Colleges of Pharmacy, Kentucky ranks fifth; among the nation's leading Colleges of Dentistry, Kentucky ranks third; and just in the past few days, the University of Kentucky was honored as one of America's major Universities for Research, along with such institutions as Columbia, Harvard, Johns Hopkins and MIT.

To accommodate the progress recognized at the University of Kentucky, I recommend over 16 million new dollars for a health/science building, a center on aging, a fine arts building and a technical institute building.

Our other institutions of higher learning, at Morehead, Eastern, Kentucky State, Murray and Western are provided additional funds in the budget for capital improvements, especially to correct pollution deficiencies.

You will be pleased to learn also, that no funds are recommended to increase debt service during the next biennium.

EDUCATION AND THE ARTS

Many questions have been asked about new directions for Kentucky's Elementary and Secondary Education. The 1972-74 budget clearly indicated this administration's determination to emphasize quality--a quality education for our children.

When Kentucky had no public kindergarten, we started one. When special education was minimal at best, we prescribed a shot in the arm. When the Teachers' Retirement System prior service deficit had been overlooked for years, we cut a small slice from the total amount. And when the state needed 2,600 new classroom units, we made construction a reality.

Recommendations for Elementary and Secondary Education not only guarantee continued massive support, but go far beyond what I believe even the most optimistic would have expected, by providing tools which stress quality.

Just to continue the progress we are making will require \$697 million during the next biennium.

In order to move our Commonwealth forward, I am requesting \$120.4 million in new state funds for expansion in the Education and Arts Cabinet, which includes the Minimum Foundation Program, and Teachers' Retirement.

Specifically, these new expenditures include:

\$85.7 million increase for the Minimum Foundation Program which will:

Increase teacher salary allotments by 7% in fiscal 1974-75 and by an additional 9% in fiscal 1975-76,

Increase current expense allotments by 7% in fiscal 1974-75 and by 9% in fiscal 1975-76,

Increase capital outlay allotments by \$150 per unit during the biennium, and,

Provide 100 additional kindergarten units,

Provide 450 additional vocational education units--a 25% increase--to serve 13,500 more students, and

Provide 1,100 additional special education classroom units.

\$7.4 million for construction of new facilities at the School for the Blind and the School for the Deaf, including a new \$2 million facility for children suffering from multiple handicaps, is urgently needed, as is \$770,000 for additional staffing at both schools.

Here are more new programs:

\$13.4 million for construction of vocational education facilities to serve 19,500 students.

\$1.8 million for operating new and expanded vocational facilities which will open during the biennium and to meet safety and health standards in existing schools.

\$1.3 million to expand our regional education offices to 15 during the biennium.

\$550,000 for the production of both mathematics and science television series for junior high students.

\$964,000 additional state matching funds to take full advantage of Federal School Lunch Funds.

\$12.1 million to reduce the Teachers' Retirement System prior service deficit to the July 1, 1972 level and begin an amortization program to fund the deficit by 1990 (I'll have more details on this later).

\$5.7 million state matching contributions to fund a 30-year teacher retirement program at age 55, long needed and long awaited.

\$6.6 million to continue the 5% cost of living increase granted retired teachers during the current biennium, and to grant an additional 5% during the 1974-76 biennium.

\$500,000 to extend our \$3,000 School District Employee Life Insurance Program to cover non-certified employees.

\$1 million to establish an emergency loan program for schools hit by disasters.

\$196,000 for the Historical Society to operate the Old Capitol, State Museum and Arsenal Museum.

All of these new and expanded programs in one way or another pertain to public education. But there is one glaring omission--the subject of libraries. No single topic has been of greater concern to me than libraries. Whoever first said a library is the people's university, offered a down-to-earth awareness that, for some unknown reason, had been tossed aside in Washington.

I regret having to again bring up the subject of federal callousness, but facts are facts. And whoever was responsible--the President for eliminating funds to states for library programs, or the Democratic--controlled Congress for letting him get away with it--should feel the same degree of shame we in

the states feel of disappointment.

I'm not going to let this tragedy strike at the heart of Kentucky's outstanding Library System' This budget leaves no doubt where I stand. Not only am I requesting money to replace the federal funds which have disappeared, I am recommending expenditures that will add to Kentucky's stature in library services.

Two years ago the Library Program in Kentucky needed \$4.9 million in state funds and got it. Now the system must have \$11.7 million from somewhere--and if we have to carry the load, we will do it'

CONCLUSION

Time does not permit discussion of every program or issue. I have covered a wide range of topics, but there are several policy areas with long-range fiscal implications deserving your special attention. They are the retirement systems, road funds, and federal funds.

Three of our four state retirement systems have major deficits. They have been growing since the systems were established long ago. The temptation of providing benefits without accepting the responsibility to appropriate funds for those costs has been wrong. The Teachers' Retirement System now has a prior year service deficit of nearly \$60 million. The Judicial Retirement System has a prior year deficit of about \$5 million. And your own Retirement Program is nearly a million dollars in the red. It is imperative that we take steps to prevent such actions in the future, and seek remedies to the problems which now exist. I will recommend legislation to prevent recurrence of this problem, and a method to correct the deficits.

I have included in my budget recommendation, funds to assure that the deficits do not increase in this administration and to begin paying off the deficit in the Judicial and Teachers' Retirement Systems. If the three succeeding governors will make a comparable appropriation, the total prior year deficit will be funded. My budget recommendation contains over \$12 million for Teachers' Retirement prior year service and over \$1.4 million for the Judicial Retirement System. Since the General Assembly prepares its own budget, funds have not been included for that million dollars but hopefully will be included in the appropriation. It is staggering amount for us to take from our budget, but it is fiscally necessary and I accept the obligation.

Road Fund Taxes

We must seek new approaches to financing transportation costs. It has been traditional in Kentucky and across the nation to rely primarily on consumption of motor fuel taxes and vehicle usage taxes for road fund monies.

Where has this led us? Consumption, even without an energy crisis, was beginning to stabilize. Thus, our road fund taxes were not increasing at the rate of inflated costs.

An efficient transportation system is too important for us to cut service, and an increase in motor fuels tax is only a temporary solution.

I am, therefore, asking the 1974 General Assembly to direct the Legislative Research Commission, during the next two years, to complete a thorough review of approaches to financing transportation needs in Kentucky. That report should be ready for consideration by the 1976 General Assembly.

Federal Funds

The trauma of federally funded state administered programs causes uncertainty. Libraries have been cut drastically; and Education, Human Resources, and Natural Resources and Environmental Protection also have lost funds.

The effect of losing federal funds which were built into recurring costs, plus an unstable economy, necessitate that we devote more of our federal funds to non-recurring type expenses. I have said for a long time that every federal grant should be carefully evaluated for the long-range, state financial implications. In this budget we have sought to take that look and will seek even better evaluation the next two years. It is absolutely necessary that before we accept outside funds to start a program, we are assured that state funds

will be available to continue that program without reducing service in other programs of state government if those outside funds are lost, cut, or impounded.

We treated federal revenue sharing the same as non-recurring state general funds. We built only \$7.9 million of these funds into recurring costs in 1975-76, and that amount is less than one percent of the total budget.

We can reasonably anticipate the lapsed funds from 1973-74 and 1974-75 to be more than \$7,900,000. The budget is based upon recurring expenses. Thus no tax increase to carry on budgeted service levels in the 1976-78 biennium will be necessary.

The Department of Revenue has carefully evaluated the outlook for our economy during the next biennium. But, problems of estimating are compounded with uncertainties not previously experienced. The staff used its best judgment with the information available today, but changes can drastically alter those assumptions. For that reason, I am asking for additional flexibility in the appropriations act to make adjustments after consultation with the Joint Committee on Appropriations and Revenue, if the estimates change.

I have asked for flexibility in this budget to permit adjustments based on up-to-date information, and controlled by your establishment of priorities. The Appropriations Act includes such a recommendation. It would be irresponsible for us to have underestimated receipts and not be in position to allocate additional dollars where needed. An example would be a priority established by you in granting a tuition reduction up to \$100 a year for the University of Louisville.

A balanced budget is submitted. To cover appropriations for the General Assembly, Legislative Research Commission and other bills with appropriations, \$14.5 million is set aside for the biennium. If you appropriate funds beyond these figures, then you must assume the responsibility for increasing taxes to pay the cost, or cut services which have been recommended.

This budget extends a helping hand into every home, school, business, agency, industry and all other aspects of life in Kentucky. It does so without the added imposition of new or increased taxes. It does so to stimulate our economy, improve the well being of Kentuckians and responds to the mandate of our citizens who look to us for leadership.

The capital construction portion is an exciting area of development, desperately needed. Reaching north, south, east and west, capital construction will be found in Louisville, Lexington, Murray, Greenville, Paintsville, Central City and Ashland.

It reaches into Prestonburg, Elizabethtown, Richmond, Mayfield, Paducah, Somerset and numerous other communities. Construction will be seen in the counties of Harlan, Bell, Christian, Trigg, Owsely, Marshall, Daviess, Lyon, and many, many more.

Every county will feel the benefits of this budget, for we have considered statewide needs. Our concern has no limitations, unlike our resources. . . yet at no time in history has the dollar stretched further.

At no time in history has the Appropriations and Revenue Committees been given so much advanced information.

For the first time you have had early review of agency requests, revenue projections, prior briefings, early briefing from agency heads and detailed explanations of the budget before it was submitted to the General Assembly.

I entered the budget process in a spirit of cooperation. These firsts reflect my respect for you and the best interests of the people of Kentucky.

Enthusiam is a telescope that advances the misty distant future into the radiant tangible present.

I am enthusiastic about our budget, enthusiastic about our present and our future.

It is here in our heritage and our resources and most of all, in our people.

I believe you feel as I do that Kentucky can, will and must emerge to take its rightful place. I believe with all my heart we are on the right track.

The budget is now in your hands. Thank you and good afternoon.

RESOLUTION

The Rotary Club of Murray, Kentucky, meeting in regular session on the 17th day of January, 1974, being desirous of expressing its sentiment as to the acquisition of a school of veterinary medicine at Murray

State University, unanimously states that:

WHEREAS, the Governor of this Commonwealth, by and through his Council on Agriculture, has recommended that all phases of livestock production be expanded, and

WHEREAS, there is a rapid increase in the concentration of people in the Jackson Purchase and surrounding areas, including the states of Illinois, Tennessee and Missouri, and a direct relationship exists between the rate of livestock diseases and human diseases, and

WHEREAS, our state has no facilities for the training of doctors of veterinary medicine while the production of livestock is encouraged and is rapidly increasing, which accounts for the dearth of trained veterinarians to meet this need, and

WHEREAS, states that provide such training rightfully take care of their own citizens in granting admission to such schools, thus severely limiting the opportunities for training of nonresident students, including those of this Commonwealth, and

WHEREAS, in 1973 Kentucky had ninety-seven qualified applicants with only twenty-two openings available to them and students from all other states, and

WHEREAS, the number of applicants increase each year while opportunities for training remain relatively constant, thus depriving many qualified and highly motivated citizens of an opportunity to receive training because of the limited class quotas, and

WHEREAS, the latest statistics reflect that by 1980, there will be a shortage of 10,000 veterinarians in the United States unless additional colleges are established, and

WHEREAS, the Commonwealth of Kentucky, in order to become a real participant in the national effort to mitigate society's major physical, mental and environmental health threats, as well as its emerging role in ecology, space biology, marine biology and oceanography, should make the necessary plans to accept its responsibility by the establishment of a school of veterinary medicine on the campus of Murray State University, and

WHEREAS, Murray State University is ideally located, has an excellent agricultural program and is foremost in studies relating to livestock and presents the true opportunity for such school of veterinary medicine.

NOW, THEREFORE, BE IT RESOLVED that Murray State University is located in a region void of veterinary education, has a strong pre-veterinarian science program, as well as outstanding programs in the physical and biological sciences, possesses the necessary land for a veterinary school, as well as adequate housing facilities for students, the Murray Rotary Club recommends that a school of veterinary medicine be established at Murray State University, Murray, Kentucky, and

BE IT FURTHER RESOLVED that the state administration and related agencies be urged to provide for and support such school to be located as hereinabove set forth.

BE IT FURTHER RESOLVED that the original of this Resolution be forwarded to Honorable Wendell Ford, Governor of the Commonwealth of Kentucky, and that copies be distributed to the various agencies of government as may be required and to the news media and such other individuals and groups as may appear meet and proper.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS Chapter 389 is created to read as follows:

Any fiduciary as defined by KRS 386.010 may, subject to the provisions of this chapter, sell or mortgage any real estate or any interest therein possessed by his ward, incompetent, decedent or trust.

Section 2. A new section of KRS Chapter 389 is created to read as follows:

(1) Section 1 of this Act shall not apply to the extent that the will or trust instrument under which the fiduciary is acting, specifically limits such a sale or mortgage, or if the county court by its order of appointment of the fiduciary, or by subsequent order, limits the power to sell or mortgage.

(2) No limitation in the order of appointment or subsequent order of limitation shall be made except upon application to the court by, or on behalf of, a person who, but for a sale of the property, would or does have a present vested interest therein and then only after a hearing before the court upon notice to the fiduciary and the owners of any other present vested interests in the property. Notice may be given by registered or certified mail posted at least ten days prior to the date of hearing and directed to all persons interested of whom the applicant has knowledge. Notice to a person under disability shall be mailed to his fiduciary or, if none or unknown to applicant, to the person having custody or control or the person under disability.

(3) An order of limitation may be amended by the court upon subsequent application of the fiduciary upon hearing and notice to the owners of present vested interests in the manner aforesaid.

(4) At the hearing the applicant shall file with the court his affidavit reciting the persons to whom notice was given, and the date of posting, and attaching a copy of the notice.

(5) An appeal may be taken to the circuit court from any order affecting the right of the fiduciary to sell or mortgage and pending such an appeal neither the fiduciary nor the owner of any vested interest shall make any conveyance or mortgage of the real estate and any attempt to do so shall be null and void. Such appeals shall be subject to the same procedure as applies to other appeals from County Court orders.

Section 3. A new section of KRS Chapter 389 is created to read as follows:

An order of limitation shall not affect the right or title acquired from a fiduciary by a bona fide purchaser unless the order shall have been caused to be indexed in the index to the real estate records in the county where the land, or the greater part thereof, is situated in such manner as to disclose its effect on the property affected thereby. Notice of an appeal pursuant to Section 2 (5) of this Act shall be likewise indexed or be without effect upon the rights of such a bona fide purchaser.

Section 4. A new section of KRS Chapter 389 is created to read as follows:

Upon application by a fiduciary to amend an order of limitation for the reason that the personal property in his hands is insufficient to pay the claims against his estate or ward, notice shall also be given to the unpaid creditors whose claims will be satisfied in whole or in part from the proceeds of sale or mortgage of the property.

Section 5. A new section of KRS Chapter 389 is created to read as follows:

In the event the power of a fiduciary to sell or mortgage any real estate is limited by the will or trust instrument under which he is acting, such limitation may only be altered or amended by the Circuit Court of the county wherein the fiduciary was appointed, or if the fiduciary is acting under an agreement of trust without court supervision, the county of the fiduciary's residence or principal place of business, in an action brought by the fiduciary in which all persons in being having a present or contingent interest in the property or its proceeds are made parties. Before adjudging that the fiduciary may deviate from the terms of the will or trust the court shall determine that there exist circumstances unknown by the testator or settlor which could not have been reasonably anticipated by the testator or settlor and which would substantially impair the accomplishment of the purposes intended.

Section 6. A new section of KRS Chapter 389 is created to read as follows:

The net proceeds of the sale or mortgage of real estate by a fiduciary shall be held, invested or distributed for the benefit of the persons who, but for the sale or mortgage, would be entitled to the income derived therefrom or the possession thereof, immediately or at some future time, in accordance with law or the will or trust under which he is acting.

Section 7. A new section of KRS Chapter 389 is created to read as follows:

(1) When two or more persons share title to real estate in such manner that a conveyance by them jointly would pass a fee simple title, any one or more of them may bring an action for the sale or division thereof in the Circuit Court of the county in which the land, or the greater part thereof, lies, making parties defendant those owners who have not joined as plaintiffs. A fiduciary possessing a power of sale may institute such an action against owners of interests not represented by him. Defendant owners shall be brought before the court in the manner provided by the civil rules whether or not a fiduciary possesses a power or sale of the defendant's interest, but any fiduciary possessing a power or sale of the defendant's interest, but any fiduciary possessing such a power shall also be made a defendant. The case shall be tried without a jury.

(2) A defendant who is under disability and for whom no fiduciary is acting shall be represented in the action by a guardian ad litem, but in the event of sale of such defendant's interest the court shall retain control of the proceeds of such interest until a duly appointed and adequately bonded fiduciary makes claim to the funds.

(3) In all such actions indivisibility of the real estate shall be presumed unless an issue in respect thereto is raised by the pleading of any party, and if the court is satisfied from the evidence that the property is divisible without materially impairing the value of any interest therein, division thereof pursuant to KRS 381.135 shall be ordered and only the shares of those desiring sale may be made.

(4) If a sale of all or any part of the real estate shall be ordered the court shall appoint a commissioner to conduct a public sale and convey the property upon terms of sale and disposition of the net proceeds as may have been determined by the court.

(5) The death of any party pending the action and prior to distribution of the proceeds of sale or setting apart a divisible share shall not affect the action but the court may direct distribution or appointment to the successors in interest of the decedent upon application therefor.

(6) If the interest of any party be one for life, or other term, in any portion of the real estate, the court may determine the value of such interest and direct that such party receive a portion of the net sale proceeds or portion of the property if divisible, in fee in satisfaction of such interest, but if any party objects to such procedure, or if the court finds that such procedure would defeat the objects and purpose of a person not a party to the action, such as a testator, grantor or settlor, but that sale or division is nevertheless desirable, the Court shall order that the interest of the life or term tenant shall continue as to his portion of the real estate or

the net proceeds of the sale thereof, in the latter case by directing that the funds be paid to a trustee, appointed by and accountable to the county court, for reinvestment and distribution of income and principal in a manner consistent with the instrument under which the life or term estate was created.

Section 8. A new section of KRS Chapter 389 is created to read as follows:

When two or more persons share title to real estate but an interest therein may be possessed by persons unborn or not immediately ascertainable an action for sale or division may be brought in the same manner as provided in Section 7 of this Act but the interest of the unborn or unascertainable persons, unless a living member of the class to which such persons belong is a party to the action, shall be represented by a guardian ad litem who is not acting in such capacity for any other party to the action. In the event of sale or division under this section the court shall enter an order consistent with Section 7 (6) of this Act to preserve the interest of the unborn or unascertainable persons until they are born, ascertained or the class to which they belong otherwise closes.

Section 9. A new section of KRS Chapter 389 is created to read as follows:

During a period in which a fiduciary possesses any power of sale an instrument or conveyance or mortgage made by any other person shall be null and void.

Section 10. KRS 389.010, 389.015, 389.020, 389.030, 389.035, 389.040, 389.045, 389.050, 389.055 and 389.060 are repealed.

SB 52, AN ACT relating to criminal prosecutions.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 421.225 is amended to read as follows:

[(1)] In any criminal or penal prosecution the defendant, on his own request, shall be allowed to testify in his own behalf, but his failure to do so shall not be commented upon or create any presumption against him.

[(2)] A defendant so requesting to be allowed to testify for himself shall not be allowed to testify in chief after any other witness has testified for the defense.]

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 341.145 is amended to read as follows:

(1) The commissioner may enter into arrangements with the appropriate agencies of other states or of the federal government, or both, for the purpose of assisting the commissioner and such agencies in the payment of benefits and the furnishing of services to unemployed or underemployed workers. Such arrangements may provide that the respective agencies shall, for and on behalf of each other, act as agents in effecting registrations for work, notices of unemployment, and any other certifications or statements relating to a worker's claim for benefits; in making investigation, taking depositions, holding hearings, or otherwise securing information relating to benefit eligibility and payments; and in such other matters as the commissioner considers suitable in effectuating the purpose of these administrative arrangements.

(2) The commissioner may enter into arrangements with the appropriate agencies of other states or the federal government whereby workers performing services in this and other states for a single employing unit under circumstances not specifically provided in KRS 341.050, or under similar provisions in the unemployment compensation laws of such other states, shall be deemed to be engaged in employment performed entirely within this state or within one of such other states.

(3) (a) The commissioner shall participate in any arrangements for the payment of benefits on the basis of combining an individual's wages and employment covered under this chapter with his wages and employment covered under the unemployment compensation laws of other states or the federal government which are approved by the United States Secretary of Labor in consultation with the state unemployment compensation agencies as reasonably calculated to assure the prompt and full payment of benefits in such situations and which include provisions for applying the base period of a single state law to a claim involving the combining of an individual's wages and employment covered under two or more state unemployment compensation laws, and avoiding the duplicate use of wages and employment by reason of such combining. Reimbursements to another state or the federal government, paid from the fund pursuant to this subsection, shall be deemed to be benefits for the purposes of this chapter and charged to employers' reserve accounts in accordance with the provisions of subsections (2) and (3) of KRS 341.530 [to the extent of calculations made on wages paid during the base period established by KRS 341.090 and wages paid after such base period; provided, however, benefits based on a period previous to the base-wage period established by KRS 341.090 shall be charged to the pooled account]. Provided, that if the Secretary of Labor determines that the charging of reimbursements provided above is inconsistent with the requirements of the Federal Unemployment Tax Act, charges of such reimbursements shall then be made in accordance with regulations prescribed by the commission.

(b) In order that such reciprocal arrangements, when entered into, may be effectuated, wages for insured work under an employment security law of another state or of the federal government shall be deemed to be wages earned in covered employment from a subject employer for the purpose of determining his benefits under this chapter.

(4) Notwithstanding any other provision of this chapter, benefits shall not be denied or reduced to an individual solely because he files a claim in another state (or a contiguous country with which the United States has an agreement with respect to unemployment compensation) or because he resides in another state (or such a contiguous country) at the time he files a claim for benefits.

Section 2. KRS 341.275 is amended to read as follows:

(1) For the purpose of this section, a nonprofit organization is an organization (or group of organizations) described in section 501 (c) (3) of the U. S. Internal Revenue Code which is exempt from income tax under section 501 (a) of such code.

(2) Any nonprofit organization which, pursuant to KRS 341.070 (4), is, or becomes, a subject employer shall pay contributions under the provisions of KRS 341.270, unless it elects, in accordance with this section, to pay to the division for the fund an amount equal to the amount of regular benefits and of one-half of the extended benefits paid to workers for weeks of unemployment that is attributable to service in the employ of such nonprofit organization, performed during the effective period of such election.

(a) Any nonprofit organization which is, or becomes, a subject employer on July 1, 1972, may elect to become liable for payments in lieu of contributions for a period of not less than the remainder of 1972 and the calendar year of 1973, provided it files with the division a written notice of its election within the thirty-day

period immediately following such date.

(b) Any nonprofit organization which becomes a subject employer after July 1, 1972 may elect to become liable for payments in lieu of contributions for a period of not less than the period of subjectivity during the year in which such subjectivity begins and the following calendar year by filing a written notice of its election with the division not later than thirty days immediately following the date of the determination of such subjectivity.

(c) Any nonprofit organization which makes an election in accordance with paragraph (a) or paragraph (b) of this subsection will continue to be liable for payments in lieu of contributions until it files with the commissioner a written notice terminating its election not later than thirty days prior to the beginning of the calendar year for which such termination shall first be effective.

(d) Any nonprofit organization which has been paying contributions under this chapter for a period subsequent to July 1, 1972 may change to a reimbursable basis by filing with the division not later than thirty days prior to the beginning of any calendar year a written notice of election to become liable for payments in lieu of contributions. Such election shall not be terminable by such organization for that and the following year.

(e) The commissioner may for good cause extend the period within which a notice of election, or a notice of termination, must be filed and may permit an election to be retroactive but not any earlier than with respect to benefits paid after December 31, 1969.

(f) The commissioner shall notify each nonprofit organization of any determination which may be made of its status as an employer and of the effective date of any election which it makes and of any termination of such election. Such determinations shall be subject to appeal and review in accordance with the provisions of KRS 341.430 (2).

(3) Payments in lieu of contributions shall be made in accordance with the provisions of this subsection.

(a) At the end of each calendar quarter the division shall bill each nonprofit organization (or group of such organizations) which has elected to make payments in lieu of contributions for an amount equal to the full amount of regular benefits plus one-half of the amount of extended benefits paid during such quarter that is attributable to service in the employ of such organization.

(b) Payment of any bill rendered under paragraph (a) shall be made not later than thirty days after such bill was mailed to the last known address of the nonprofit organization or was otherwise delivered to it, unless there has been an application for review in accordance with paragraph (d) of this subsection.

(c) Payments made by any nonprofit organization under the provisions of this subsection shall not be deducted or deductible, in whole or in part, from the remuneration of workers in the employ of the organization.

(d) The amount due specified in any bill from the commissioner shall be conclusive on the organization unless, not later than fifteen days after the bill was mailed to its last known address or otherwise delivered to it, the organization files an appeal to the commission, setting forth the grounds for such appeal. Proceedings on appeal to the commission from the amount of a bill rendered under this subsection shall be in accordance with the provisions of KRS 341.430 and the decision of the commission shall be subject to review under the provisions of KRS 341.460 (1).

(e) Past due payments of amounts in lieu of contributions shall be subject to the same interest and penalties that, pursuant to KRS 341.300, apply to past due contributions.

(4) (a) The commissioner may, in accordance with regulations prescribed by the commission, require any nonprofit organization that elects to become liable for payments in lieu of contributions to deposit with the division, within thirty days after the effective date of its election as a condition thereof, money equal to 3.2 [two] percent of the organization's *taxable* [total] wages paid for employment as defined in KRS 341.050 (1) (e) for the four calendar quarters immediately preceding the effective date of such election. If the nonprofit organization did not pay wages in each of such four calendar quarters, the amount of the deposit shall be as determined by the commissioner.

(b) Money deposited in accordance with this subsection shall be retained by the division in an escrow account until all possible liability to the fund under the election is terminated, at which time it shall be returned to the organization, less any deductions as hereinafter provided. The division may deduct from the money deposited under this subsection by a nonprofit organization to the extent necessary to satisfy any due and unpaid payments in lieu of contributions and any applicable interest and penalties provided for in paragraph (e) of subsection (3) of this section. The commissioner shall require the organization within thirty days following any deduction from a money deposit under the provisions of this subsection to deposit sufficient additional money to make whole the organization's deposit at the prior level. The commissioner may, at any time, review the adequacy of the deposit made by any organization. If, as a result of such review, he determines that an adjustment is necessary, he shall require the organization to make additional deposit within thirty days of written notice of his determination or shall return to it such portion of the deposit as he no longer considers necessary, whichever action is appropriate.

(c) If any nonprofit organization fails to make a deposit, or to increase or make whole the amount of a previously made deposit, as provided under this subsection, the commissioner may terminate such organization's election to make payments in lieu of contributions and such termination shall continue for not less than the remainder of that calendar year and the following calendar year beginning with the quarter in which such termination becomes effective; provided, that the commissioner may extend for good cause the applicable filing, deposit or adjustment period by not more than sixty days.

(5) If any nonprofit organization is delinquent in making payments in lieu of contributions as required under subsection (3) of this section, the commissioner may terminate such organization's election to make payments in lieu of contributions as of the beginning of the next calendar year, and such termination shall be effective for that and the next calendar year.

No objection to the order may be considered by the court unless it was urged before the *department* [division] or there was reasonable grounds for failure to do so. The findings of the *department* [division] as to the facts, if supported by substantial evidence, are conclusive. If either party applies to the court for leave to adduce additional evidence, and shows to the satisfaction of the court that the additional evidence is material and that there were reasonable grounds for failure to adduce the evidence in the hearing before the *department* [division], the court may order the additional evidence to be taken before the *department* [division] in such manner and upon such condition as the court may consider proper. The *department* [division] may modify its findings as to the facts, by reason of the additional evidence so taken; and it shall file any modified or new findings with the court, which if supported by substantial evidence shall be conclusive, and may file any recommendation for the modification or setting aside of the original order. The commencement of proceedings under this section does not, unless specifically ordered by the court, operate as a stay of the *department's* [division's] order. An appeal may be taken from the judgment of the circuit court to the Court of Appeals on the same terms and conditions as an appeal is taken in any civil action.

Section 9. KRS 151.200 is amended to read as follows:

(2) The *department* [division], with the approval of the authority, may issue a permit for the transfer or diversion of public water from one (1) stream or watershed area to another, where such transfer is consistent with the wise use of the public water of the *Commonwealth* [commonwealth] and is in the best interests of the public.

[(2)] An owner or group of owners of land contiguous to public water, operating under a withdrawal permit, shall have the right to impound and conserve water for their use by impounding such water behind a dam in the natural stream bed or on their land, when the flow of the stream or level of the lake is such that the impounding will not impair existing uses, or will not unreasonably interfere with a beneficial use by other water users. An obstruction placed across a natural stream shall be approved by the division as provided in KRS 151.250, and shall provide an outlet for the release of water which the owner is not entitled to use or withdraw under KRS chapters 146, 149, 151, 262, 350.029 and 433.750 to 433.757, and the owner shall operate the outlet in accordance with this provision.]

On its own initiative or when so directed by the governor, the *department* [division] shall make a preliminary survey and report of any project which involves or might involve expenditure of state funds or construction work by the state of Kentucky in the construction, reconstruction, or maintenance of any flood control works or other works concerning or affecting the development of water resources. If the *department* [division], with the approval of the governor, finds from such preliminary survey that the project is not favorable, no further action shall be taken on such project without specific instructions or authorization by the general assembly. If the *department* [division] finds from such preliminary survey that such project is favorable on a basis of need, economic value or future development, it shall, with the approval of the governor, cause a comprehensive final survey and report to be prepared, and submit such report to the governor for approval and authority to perform the necessary construction work.

Section 14. KRS 151.250 is amended to read as follows:

However, the *department* [division] by regulation, may exempt those dams, embankments, or other obstructions which are not of such size or type as to require approval by the *department* [division] in the interest of safety or retention of water supply.

(2) No person, [city, county or other political subdivision of the state] shall commence the filling of any area with earth, debris, or any other material, or raise the level of any area in any manner, or place a building, barrier or obstruction of any sort on any area located adjacent to a river or stream or in the floodway of the stream so that such filling, raising or obstruction will in any way affect the flow of water in the channel or in the floodway of the stream unless plans and specifications for such work have been submitted to and approved by the *department* [division] and a *construction* permit issued as required in subsection (1) above.

(3) Nothing in this section is intended to give the *department* [division] any jurisdiction or control over the construction, reconstruction, improvement, enlargement, maintenance or operation of any drainage district, ditch, or system established for agricultural purpose, or to require approval of the same except where such obstruction of the stream or floodway is determined by the *department* [division] to be a detriment or hindrance to the beneficial use of water resources in the area, and the person or political subdivision in control thereof so notified.

Section 15. KRS 151.260 is amended to read as follows:

(2) Whenever plans and specifications have been approved in writing and a *construction* permit issued by the *department* [division], no person, [city, county, or other political subdivision] shall deviate from the approved plans in the construction, reconstruction, relocation or improvement unless such change is submitted in writing to the *department* [division] and prior approval is received from the *department* [division] in writing before proceeding with the work. Any substantial deviation from the approved plans shall be construed as commencing without a *construction* permit and punishable by the penalties provided in KRS 151.990.

Section 17. A new section of KRS Chapter 151 is created to read as follows:

(1) A certificate of inspection shall be submitted by the owner when requested by the department, and the department shall examine applications for a certificate of inspection and cause an on-the-ground inspection to be made of an existing dam. The department shall then, within 60 days of the receipt of the completed application for a certificate of inspection, either grant the certificate or disapprove the request in writing, stating the reasons for disapproval.

(2) In deciding whether or not a certificate of inspection should be issued, the department shall take into account all pertinent facts and conditions, but shall not issue a certificate unless the following conditions have been met:

(a) The proposed action will be conducted in such a way that the safety of the public is adequately provided for;

(b) All information requested by the department has been provided; and

(c) The changed flow of the stream or level of the reservoir will not significantly interfere with a beneficial use by other water users.

(5) The department may utilize the results and information provided by or for the United States Army Corps of Engineers pursuant to the provisions of Public Law 92-367 if the information is not more than one (1) year old at the time of use.

(6) Certificates of inspection shall be for a definite period of time, not to exceed five (5) years, as determined by the department and stated on the certificate. In determining the period of inspection, the department may take account of any circumstances pertinent to the situation, including, but not limited to, the size and type of dam, topography, geology, soil conditions, hydrology, climate, use of the reservoir, the lands lying in the floodplain downstream from the dam, and the hazard category of the dam.

(7) The department may modify a certificate of inspection or the conditions attached to it. Such modification shall become effective ninety (90) days following issuance by the department of a revised certificate, except when the department finds that a state of emergency exists and that life or property would be endangered by delay. In case of an emergency declared by the department, the new conditions shall be effective immediately.

(8) Specific guidelines for issuance and renewal of certificate of inspection shall be provided by regulations.

(9) Plans and specifications submitted to the department shall be the responsibility of and signed by an engineer licensed by the Commonwealth and experienced in the design and construction of dams, as determined by the department.

barriers, the department shall order the owner thereof to take such action as is necessary to render the dam, reservoir, levee, embankment, or other water barriers safe. Where the owner fails, in the judgment of the department, to take satisfactory action toward compliance with such order, or to maintain a satisfactory rate of progress toward full compliance therewith, or where in the judgment of the department, the danger to life or property will not permit delay, the department shall request that a state of emergency be declared by the governor, and upon such declaration, shall take such action as it deems necessary to render the dam, reservoir, levee, embankment, or other water barriers safe, which action may include, but is not limited to:

- (a) Taking full charge and control of the dam, reservoir, levee, embankment, or other water barriers;
- (b) Lowering the water level or emptying the reservoir;
- (c) Performing any necessary remedial or protective work at the site; or

The commissioner is authorized to enter into contracts or agreements with other state, local, or federal agencies, or other persons, for work necessary to implement such necessary actions.

(3) Any person to whom an order is directed pursuant to this Section shall comply therewith immediately, but, on petition to the department, may within five (5) working days have a hearing thereon.

The commissioner shall file an action in the circuit court having jurisdiction over any owner or the owner's property for the recovery of such costs, and may join all other owners in such action irrespective of any statutes to the contrary relating to jurisdiction or venue. Following the conclusion of such action the commissioner may make application to the court for foreclosure sale of the property to satisfy any judgment obtained by the commissioner.

(5) The certification of the maps by the professional engineer shall read as follows: "I, the undersigned, hereby certify that this map is correct, and shows to the best of my knowledge and belief all the information required by the strip mining laws of this state." The certification shall be signed and notarized. The division may reject any map as incomplete if its accuracy is not so attested;

(6) In addition to the information and maps required above, each application for a permit shall be accompanied by detailed plans or proposals showing the method of operation, the manner, time and distance for backfilling, grading work and a reclamation plan for the affected area, which proposals shall meet the requirements of this chapter and rules and regulations adopted pursuant thereto;

(7) A basic fee of one hundred and fifty dollars (\$150) plus thirty-five dollars (\$35.00) for each acre or fraction thereof of the area of land to be affected by the operation shall be paid before the permit required herein shall be issued. The operator shall file with the division a bond payable to the commonwealth of Kentucky with surety satisfactory to the division in the penal sum to be determined by the department on the recommendation of the director of not less than *five hundred dollars (\$500)* [two hundred dollars (\$200)] nor more than *one thousand five hundred dollars (\$1,500)* [one thousand dollars (\$1,000)] for each acre or fraction thereof, of the area of land affected, with a minimum bond of *five thousand dollars (\$5,000)* [two thousand dollars (\$2,000)], conditioned upon the faithful performance of the requirements set forth in this chapter and of the rules and regulations of the department. In determining the amount of the bond within the above limits, the department shall take into consideration the character and nature of the overburden, the future suitable use of the land involved and the cost of backfilling, grading and reclamation to be required. In a particular instance where the circumstances are such as to warrant an exception, the department, in its discretion, may reduce the amount of the bond for a particular operation to less than the required minimum.

Section 2. KRS 350.070 is amended to read as follows:

The division may increase or reduce the area of land affected by an operation under a permit on application by an operator, but an increase shall not extend the period for which an original permit was issued. An operator may, at any time within one year from the date of issuance of the permit, apply to the division for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this chapter and shall pay a basic fee of one hundred and fifty dollars, plus a fee of thirty-five dollars for each acre or fraction of acre for the increase requested, and shall file with the division a supplemental bond in the amount to be determined under the provisions of KRS 350.060 for each acre or fraction of an acre of the increase approved. If the division approves a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced, but in no case shall the bond be reduced below *five thousand dollars (\$5,000)* [two thousand dollars], except as provided in subsection (7) of KRS 350.060. If the division approves a reduction in acreage covered by the original or supplemental

permit, it shall transfer the acreage fee for each acre reduced to acreage fees in subsequent permit applications by the operator.

Section 3. KRS 350.085 is amended to read as follows:

(1) No application for a permit shall be approved by the division if there is found on the basis of the information set forth in the application that the requirements of this chapter or regulations will not be observed or that there is not probable cause to believe that the proposed method of operation, backfilling, grading or reclamation of the affected area can be carried out consistent with the purpose of this chapter;

(2) If the division finds that the overburden on any part of the area of land described in the application for a permit is such that experience in the commonwealth with a similar type of operation upon land with similar overburden shows that substantial deposition of sediment in stream beds, landslides or acid water pollution cannot feasibly be prevented, the division may delete such part of the land described in the application upon which such overburden exists;

(3) If the division finds that the operation will constitute a hazard to a dwelling house, public building, school, church, cemetery, commercial or institutional building, public road, stream, lake or other public property, the division shall delete such areas from the permit application before it can be approved;

(4) The division shall not give approval to strip mine any area which is within one hundred (100) feet of any public road, stream, lake or other public property and shall not approve the application for a permit where the strip mining operation will adversely affect *a wild river established pursuant to KRS Chapter 146*, or a state, national or interstate park unless adequate screening and other measures as approved by the department are incorporated into the permit application.

Section 4. KRS 350.093 is amended to read as follows:

(1) On lands where the method of operation does not produce a bench (area strip mining), complete backfilling shall be required, beginning at or beyond the top of the highwall and sloped to the toe of the spoil bank at a maximum angle not to exceed the approximate original contour of the land with no depressions to accumulate water. Such backfilling shall eliminate all highwalls and spoil peaks. Whenever directed by the division, the operator shall construct in the final grading, such diversion ditches or terraces as will control the water runoff on long uninterrupted slopes. Additional restoration work may be required by the division according to regulations adopted by the department.

(2) On lands where the method of operation produces a bench (contour strip mining), terrace backfilling shall be required and performed as follows:

(a) All highwalls must be reduced or backfilled. The steepest slope of the reduced or backfilled highwall and of the outer slope of the fill bench shall be no greater than forty-five degrees (45) from the horizontal; provided, however, if the highwall is composed of solid rock and sufficient soil is not available to backfill or cover the solid rock suitable to establish vegetative cover, the department, by regulation, may make modifications to the requirements of this section;

(b) The table portion of the restored area shall be a terrace [with a slope toward the reduced highwall of not greater than ten degrees (10)];

(c) The restored area shall have a minimum depth of four (4) feet of fill over the floor of the pit from which the coal has been removed;

(d) There shall be no depressions to accumulate water but lateral drainage ditches connecting to natural or constructed waterways shall be constructed whenever directed by the division;

(e) Additional restoration work may be required by the division according to regulations adopted by the department;

(f) In addition to the backfilling and grading requirements above, the operator's method of operation on steep slopes may be regulated and controlled according to regulations adopted by the department. Such regulations may limit bench widths, control the amount of overburden to be placed beyond the solid bench, prohibit any overburden from being placed beyond the solid bench on precipitous slopes as defined by the department, or require any measure whatsoever to accomplish the purpose of this chapter.

(3) An operator may propose alternative plans other than backfilling where a water impoundment is desired, if such restoration will be consistent with the purpose of this chapter. Such plans are to be submitted to the division, and if such plans are approved by the department and complied with within the time limits as may be determined by the department as being reasonable for carrying out such plans, the backfilling requirements of this chapter may be modified by the department.

(4) As determined by regulations of the department, time limits shall be established requiring backfilling, grading and planting to be kept current. All backfilling and grading shall be completed before necessary equipment is moved from the operation.

(5) If the operator or other person desires to conduct drift mining upon the premises or use the openings for haulageways or other lawful purposes, the operator may designate locations to be used for such purposes at which places it will not be necessary to backfill as herein provided for until such drift mining or other use is completed, during which time the bond on file for that portion of the operation shall not be released. That portion of such locations shall be described and designated on the map attached thereto.

(6) When the backfilling and grading have been completed and approved by the division, the director shall release the bond which was filed for that portion of such operation in its full amount less *two hundred dollars (\$200)* [one hundred dollars (\$100)] per acre, which shall be retained by the division until such time as the planting and revegetation is done according to law and approved by the division, at which time the director shall release the bond in the remaining amount of *two hundred dollars (\$200)* [one hundred dollars (\$100)] per acre.

Section 5. KRS 350.110 is amended to read as follows:

If the division authorizes an operator to defer planting to provide vegetative cover for an area of land, it shall set the time within which such planting shall be carried out. If the operator has carried out on that area of land the method of operation, backfilling, grading and reclamation plans approved by the division other than the planting, the division shall issue to the operator and to his surety a release of his surety bond or other securities held on deposit for each acre of land for which such method of operation, backfilling, grading and reclamation have been carried out, less the sum of *two hundred dollars (\$200)* [one hundred dollars (\$100)] for each acre, but in no case shall the bond be reduced below *two thousand dollars (\$2,000)* [one thousand dollars (\$1,000)] except as provided in KRS 350.060. The remaining amount of the bond of *two hundred dollars (\$200)* [one hundred dollars (\$100)] for each acre of land affected shall remain in the possession of the division until a satisfactory planting plan has been carried out, or until it has been forfeited by the operator. If the remainder is forfeited, it shall be expended by the division in a planting program for the area of land for which it has been posted. If the operator does not meet the planting requirements but does not want his bond forfeited, he may pay to the division a sufficient sum to cover the remaining reclamation costs and the bond filed by him as surety may then be released by the division.

Section 6. KRS 350.130 is amended to read as follows:

(1) In any of the requirements of this chapter or rules or regulations adopted pursuant thereto or the orders of the division and the department have not been complied with within the time limits set by the division or the department or by this chapter, the division shall cause a notice of noncompliance to be served upon the operator, or where found necessary, the director shall order the suspension of a permit. Such notice or order shall be handed to the operator in person or served by registered mail addressed to the permanent address shown on the application for a permit. The notice of noncompliance or order of suspension shall specify in what respects the operator has failed to comply with this chapter or the regulations or orders of the division and the department. If the operator has not reached an agreement with the division or has not complied with the requirements set forth in the notice of noncompliance or order of suspension within time limits set therein, the permit may be revoked by order of the department and the performance bond shall then be forfeited to the division.

(2) When a bond is forfeited pursuant to the provisions of this chapter, the director shall give notice to the attorney general, who shall collect the forfeiture.

(3) An operator whose mining permit has been revoked *or suspended* shall not be eligible to receive another permit or to have suspended permits reinstated until he shall have complied with all the requirements of this chapter in respect to *all* [former] permits issued him, provided, further, that no operator shall be eligible to receive another permit who has forfeited any bond unless the land for which the bond was forfeited has been reclaimed without cost to the state or the operator has paid such sum as the department finds is adequate to reclaim such lands. The division shall not issue any additional permits to any operator who has repeatedly been in noncompliance or violation of this chapter, or who has had permits revoked on more than three occasions.

(f) Examiners and other agents whose functions are to conduct hearings, shall be selected and assigned with due regard to their impartiality, judicial temperament, and knowledge. If in any proceeding under this Chapter, any party prior to five days before the hearing thereto shall file with the Board a sworn statement charging that the examiner or other agent designated to conduct the hearing is believed to be biased or partial in the proceeding, such examiner may be disqualified by the Board, and another examiner or agent may be designated to conduct such proceeding. At least ten days preceding any hearing, the Board shall notify all parties to a proceeding of the name of the examiner or agent designated to conduct such hearing.

Section 3. A new section of KRS Chapter 336 is created to read as follows:

Public employes shall have the right to :

(a) Self organization, to form, join, assist, or participate in, or to refrain from forming, joining, assisting, or participating, except as otherwise provided in this chapter, in any employe organization of their own choosing.

(b) Engage in other concerted activities for the purpose of collective bargaining or other mutual aid and protection.

(c) Be represented by an employe organization, and

(d) Bargain collectively with their public employers to determine wages, hours and terms and conditions of employment and enter into collective bargaining agreements which shall provide, among other things, fair procedures to settle grievances which shall include final and binding arbitration.

Section 4. A new section of KRS Chapter 336 is created to read as follows:

(a) Public employers shall extend to an employe organization, certified pursuant to this Chapter, the right to represent exclusively the employes in the appropriate bargaining unit and the right to unchallenged and exclusive representation status.

(b) A public employer shall bargain collectively with an employe organization certified pursuant to the provisions of this Chapter.

Whenever a public employer is notified by the Board that an employe organization has been certified as exclusive representative for a unit of its employes, such public employer shall designate an employer representative, and shall promptly notify the Board and the employe organization of his identity and address. All communications concerned with collective relationships under this Chapter, from the employe organization or from the Board, shall be addressed to the employer representative. The designated employer representative is hereby empowered to sign agreements resulting from collective bargaining on behalf of the public employer, but such agreements shall be subject to the procedures set forth in this Act.

(c) This Chapter does not abridge the recognition of or agreement with any employe organization which is in effect at the effective date of this Act, provided the agreement is for a term not exceeding three years.

Section 5. A new section of KRS Chapter 336 is created to read as follows:

(a) Representatives designated or selected for the purposes of collective bargaining by the majority of the employes in a unit appropriate for such purposes or by the majority of the employes voting in an election

conducted pursuant to Section 7 of this Chapter, shall be the exclusive representatives of all employees in the appropriate unit for the purposes of collective bargaining. Any individual employee shall have the right at any time to present grievances for adjustment without the intervention of the bargaining representative, as long as the adjustment is not inconsistent with the terms of the collective bargaining agreement then in effect; provided that the bargaining representatives have been given opportunity to be present at such adjustment; such adjustment or determination shall not be a precedent in other grievances, whether similar or dissimilar.

(b) The Board, in accordance with the procedures established herein, shall decide in each case the unit appropriate for the purposes of collective bargaining.

Section 6. A new section of KRS Chapter 336 is created to read as follows:

(a) The Board, in determining whether a unit of employees is an appropriate unit, shall consider among other relevant factors, such factors as the effects of overfragmentization, community of interest, wages, hours and other working conditions of the employees involved, the history of collective bargaining, and the desires of the employees; provided, that a unit may be found to be the appropriate unit in a particular case, even though some other unit might also be appropriate, or might be more appropriate.

(b) In determining the appropriate bargaining unit, the Board shall also:

(1) Not decide that any unit is appropriate if such unit includes both professional and non-professional employees, unless a majority of such professional employees vote for inclusion in such unit.

(2) Not permit correction officers or guards at prisons or other institutions, or any individual employed as a guard to enforce against other employees rules to protect property of the employer or to protect the safety of persons on the employer's premises to be included in a unit with other public employees.

(3) Not permit supervisors as defined in this Chapter to be included in a unit with the employees they supervise.

Section 7. A new section of KRS Chapter 336 is created to read as follows:

(a) When a petition has been filed, in accordance with such regulation as is prescribed by the Board:

(1) By any employee or group of employees or any individual or employee organization acting in their behalf alleging that thirty percent of the employees in an appropriate unit (a) wish to be represented for collective bargaining by an exclusive representative or (b) assert that the designated exclusive representative is no longer the representative of the majority of employees in the unit;

(2) By the employer alleging that one or more employee organizations have presented to it a claim to be recognized as the exclusive representative of an appropriate unit. The Board shall investigate such petition, and if it has reasonable cause to believe that question of representation exists, it shall provide for an appropriate hearing upon due notice to the parties. Notice of the hearing shall be posted in conspicuous places about the premises of the employer and served upon the existing exclusive representative, if any, at least ten (10) days prior to the date of the hearing. If the Board finds upon the record of such hearing that such a question of representation exists, it shall direct an election and shall certify the results thereof. No one shall be permitted to vote by mail or proxy. The Board may also certify an employee organization as an exclusive representative if it determines that a free and untrammelled election cannot be conducted because of the employer's unfair labor practices and that at one time the employee organization had the support of the majority of the employees in the unit.

(b) Only those employee organizations which have been designated by more than ten percent of the employees in the unit found to be appropriate shall be placed on the ballot. Nothing in this section shall be construed to prohibit the waiving of hearings by stipulation for the purpose: of a consent election, in conformity with the rules and regulations of the Board; of recognizing an employee organization as the exclusive employee organization when there is no dispute as to its majority status, in which event the Board shall, upon request by the employee organization, certify such employee organization as the exclusive employee organization of the employees in the unit.

(c) Representation elections shall be conducted by secret ballot at such times and places selected by the Board subject to the following:

(1) The Board shall give no less than ten days notice of the time and place of such election.

(2) The Board shall establish rules and regulations concerning the conduct of any election including but not limited to regulations which would guarantee the secrecy of the ballot.

(3) A representative may not be certified unless it receives a majority of the valid ballots cast.

(4) Except as provided herein, the Board shall include on the ballot a choice of "no representative."

(5) In an election where none of the choices on the ballot receives a majority, a run-off election shall be conducted within a maximum of thirty days, the ballot providing for a selection between the two choices or parties receiving the highest and the second highest number of ballots cast in the election.

(6) (a) No election shall be conducted pursuant to this Section in any appropriate bargaining unit within which in the preceding twelve-month period a Board-conducted election shall have been held nor during the term of any lawful collective bargaining agreement between a public employer and an exclusive representative. This restriction shall not apply to that period of time covered by any collective bargaining agreement which exceeds three years. For the purposes of this Section, extensions of agreements shall not

affect the expiration date of the original agreement.

(b) Petitions for elections may be filed with the Board not sooner than one hundred twenty (120) days nor later than ninety (90) days before the expiration date of any collective bargaining agreement or after six months after the expiration date until such time as a new written agreement has been executed. For the purposes of this section mere extensions of the expiration dates of agreements shall not affect the expiration date of the original agreement.

Section 8. A new section of KRS Chapter 336 is created to read as follows:

(a) All matters pertaining to wages, salaries, employee benefits, and other terms and conditions of employment shall be subject to collective bargaining between the public employer and the exclusive representative.

(b) Nothing in this section shall interfere with the right of the public employer: (1) to direct and supervise employees; (2) to discipline employees for just cause; (3) subject to contract seniority and/or tenure rights, to determine the adequacy of the work force and to lay off employees for lack of work or funds; (4) to maintain the efficiency of governmental operations. Nothing in this paragraph shall be construed as preventing an employee from raising a legitimate complaint or filing a grievance based on the effects of such management decisions.

Section 9. A new section of KRS Chapter 336 is created to read as follows:

(a) Any collective bargaining agreement reached by the employer and the exclusive representative shall be immediately reduced to writing and executed by both parties.

(b) Said agreement, which shall contain a grievance procedure culminating with final and binding arbitration of unresolved grievances and disputed interpretations of agreements, shall be valid and enforced under its terms when entered into in accordance with the provisions of this act. No publication thereof shall be required to make it effective. Suits for violation of agreements or the enforcement of an award by an arbitrator may be brought by the parties to such agreement in the circuit court for any county wherein a party resides or transacts business, or the Franklin Circuit Court.

(c) Said agreement shall contain a provision which requires the public employer to deduct the periodic dues, initiation fees and assessments or service fees uniformly required of members or employees represented by the exclusive representative upon presentation of a written deduction authorization; provided such authorization may be revocable by written notice to the public employer and the employee organization upon the will of the employee, at any anniversary date of the authorization. The deduction shall be made periodically as directed by the employee organization and remitted by the employer to the employee organization within thirty (30) days of the deduction.

(d) Until such time as a public employee organization has been certified as the exclusive representative, each public employer shall adopt policies or regulations which will provide for deductions from salaries of its employees or groups of employees, periodic dues or initiation fees and assessments of employee organizations(s) upon written authorization by the member or group of employees provided such authorization may be revocable by written notice to the public employer and the employee organization upon the will of the member.

Section 10. A new section of KRS Chapter 336 is created to read as follows:

In the event of a conflict between an agreement between an employee organization and a public employer and the provisions of any law or ordinance pertaining to wages, hours, terms and conditions of employment, the provisions of the agreement shall prevail, provided that laws pertaining to workmen's compensation and the retirement of public employees shall prevail over conflicting provisions of agreements between employee organizations and public employers. The provisions of this Chapter shall prevail over any other conflicting statute or ordinance and further provided that nothing herein prohibits agreements establishing supplemental workmen's compensation and supplemental pension benefits.

Section 11. A new section of KRS Chapter 336 is created to read as follows:

(a) It shall be an unfair labor practice for a public employer to:

(1) Interfere with, restrain, or coerce employees in the exercise of the rights guaranteed in this Chapter;

(2) Initiate, create, dominate, interfere with the formation or administration of any employee organization, or contribute financial or other support to it; provided, that a public employer shall not be prohibited from permitting employees to confer with it during working hours without loss of time or pay;

(3) Discriminate in regard to hire or tenure of employment, or any term or condition of employment on the basis of the exercise of rights guaranteed by this Chapter; provided that nothing in this Chapter or any other Statute of this State shall preclude any employer from making and enforcing an agreement requiring as a condition of employment membership in an employee organization on or after the 30th day following the beginning of such employment or on the effective date of such agreement, whichever is the later;

(4) Discharge or otherwise discriminate against an employee because he has filed charges or given testimony under this Chapter;

(5) Refuse to bargain collectively with the representative of his employees certified pursuant to this Chapter and/or fail to submit to any required legislative body of the public employer for approval any provision of the agreement requiring legislative approval within fourteen (14) days after agreement is

reached.

(b) It shall be an unfair labor practice for an employe organization, its agents, or representatives, or public employes to:

(1) Restrain or coerce (a) Employes in the exercise of the rights guaranteed in this Chapter; provided, that this paragraph shall not impair the right of an employe organization to prescribe its own rules with respect to the acquisition or retention of membership therein; or (b) An employer in the selection of his representative for the purpose of collective bargaining or the adjustment of grievances;

(2) Cause or attempt to cause an employer to violate Section 11(a) of this Chapter;

(3) Refuse to bargain collectively with a public employer, provided the employe organization has been certified as the exclusive representative of public employes in a bargaining unit;

(4) Fail to fairly represent all public employes in a bargaining unit.

(c) The determination by the Board or any court that a public official or employe has committed any unfair labor practice prohibited by this Section shall not in and of itself form the basis of any charge for the removal from office or recall of such public official or employe, but such determination may be introduced as evidence in support of such charge.

Section 12. A new section of KRS Chapter 336 is created to read as follows:

(a) Violation of Section 11 of this Chapter shall be deemed to be an unfair labor practice remediable by the Board as provided in this section.

(b) If a charge is filed alleging that any person has engaged in or is engaging in any unfair labor practice, as defined in Section 11 of this Chapter, and it appears to the agent designated by the Board for such purposes that formal proceedings in respect thereto should be instituted, he shall issue and cause to be served upon the charged party a formal complaint and a notice of hearing before the Board or a member thereof, or before a designated agent or agency, at a place therein fixed, not less than ten days after the service of said complaint:

(1) Any such complaint may be amended by the Board at any time prior to the issuance of an order based thereon; provided, that the charged party is not unfairly prejudiced thereby. The person so complained of shall be allowed to file an answer to the original or amended complaint. The Board, the person making the charge, and the person charged shall be parties and shall have the right to appear or otherwise give testimony and subpoena witnesses at the place and time fixed in the notice of hearing. Any other interested person may be allowed to intervene in the said proceedings and to present testimony.

(2) The testimony taken by such member, agent, or agency of the Board shall be reduced to writing and filed with the Board, thereafter in its discretion the Board upon notice may take further testimony or hear argument. If upon the preponderance of the testimony taken the Board shall be of the opinion that any person named in the complaint has engaged in or is engaging in any such unfair labor practice, then the Board shall state its findings of fact and shall issue and cause to be served on such person an order requiring that he cease and desist from these unfair labor practices, and take such affirmative action, including reinstatement of employes with or without back pay, as will effectuate the policies of this Chapter, provided, that where an order directs reinstatement of an employe, back pay may be required of the public employer or employe organizations, as the case may be, responsible for the discrimination suffered by him. Such order may further require such person to make reports from time to time showing the extent to which he has complied with the order.

(3) If upon the preponderance of the testimony taken the Board shall not be of the opinion that the person named in the complaint has engaged in or is engaging in any such unfair labor practice, then it shall state its findings of fact and shall issue an order dismissing the said complaint. No notice of hearing shall be issued based upon any unfair labor practice occurring more than six months prior to the filing of the charge with the Board, unless the person aggrieved thereby was prevented from filing the charge by reason of service in the Armed Forces, in which event the six months period shall be computed from the day of his discharge. No order of the Board shall require the reinstatement of any individual as an employe or the payment to him of any back pay, if such individual was suspended or discharged for just cause. In case the evidence is presented before a member of the Board, or before an examiner or examiners thereof, such member, or such examiner or examiners, as the case may be, shall issue and cause to be served on the parties to the proceeding a proposed decision, together with a recommended order, which shall be filed with the Board, and if no exceptions are filed within twenty days after service thereof, such recommended order shall become the order of the Board and become effective as therein prescribed.

(4) If exceptions are filed to the proposed report, the Board shall determine whether such exceptions raise substantial issues of fact or law, and shall grant review if it believes such substantial issue have been raised. If the Board determines that the exceptions do not raise substantial issues of fact or law, it may refuse to grant review, and the recommended order shall become effective as therein prescribed.

(c) Whenever a complaint alleges that a person has engaged in an unfair labor practice and that it will suffer substantial and irreparable injury if it is not granted temporary relief, the Board may petition the Franklin Circuit Court for appropriate injunctive relief, pending the final adjudication by the Board with

respect to such matter. Upon the filing of any such petition, the court shall cause notice thereof together with the time and place of hearing to be served upon the parties, and thereupon shall have jurisdiction to immediately conduct a hearing and grant such temporary relief or restraining order as it considers just and proper.

(d) Until the record in a case has been filed in a court, as hereinafter provided, the Board may at any time upon reasonable notice and in such manner as it considers proper, modify or set aside, in whole or in part, any finding or order made or issued by it.

Section 13. A new section of KRS Chapter 336 is created to read as follows:

(a) The Board or the complaining party shall have the power to petition the Franklin Circuit Court for the enforcement of such order and for appropriate temporary relief or restraining order, and the Board shall certify and file in the court a transcript of the entire record in the proceeding, including the pleadings and testimony upon which said order was entered and the findings and order of the Board. When the Board petitions the court, the complaining party shall be permitted to intervene in the case as a matter of right. Upon such filing, the court shall cause notice thereof to be served upon such person and thereupon shall have jurisdiction of the proceeding and the question determined therein, and shall have power to grant such temporary relief or restraining order as it deems just and proper, and to immediately make and enter upon the pleadings, testimony, and proceedings set forth in such transcript a decree enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part the order of the Board.

(b) The findings of the Board as to the facts, if supported by substantial evidence, shall be conclusive. If either party shall apply to the court for leave to adduce additional evidence and show to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the hearing before the Board, its member, agent, or agency, the court may order such additional evidence to be taken immediately before the Board, its member, agent, or agency, and to be made a part of the transcript. Section 14. A new section of KRS Chapter 336 is created to read as follows:

The following procedures shall be followed in the resolution of disputes or negotiations between an employe organization and a public employer;

(a) Where a settlement procedure is provided in a collective bargaining agreement, such procedure shall prevail, or if such procedure does not terminate in voluntary, final and binding arbitration or does not otherwise result in a settlement, then the following procedure shall prevail:

(1) In the event that the parties are unable to reach agreement, any party may serve notice upon the Board and the other parties to the dispute setting forth the names and addresses of the parties, the issues involved and the expiration date of the agreement if an agreement exists. Where an agreement exists the notice may be served not later than sixty days before the expiration date, and the Board shall be served with a copy of the agreement.

(2) The Board shall intervene and investigate such dispute to determine whether the parties have engaged in collective bargaining;

(3) If an impasse exists, the Board shall appoint a mediator to assist the parties;

(4) If the mediator advises the Board that the parties are unable to reach an agreement, or upon the expiration date of the agreement, if one exists, whichever occurs sooner, the Board may in its discretion appoint a fact-finding panel of not more than three members who have been selected by the parties in accordance with rules established by the Board, from a list of qualified persons maintained by the Board. The fact-finding panel shall in accordance with rules and procedures established by the Board which shall include

Such findings of fact and recommendations shall be transmitted no later than thirty days after the appointment of the fact-finding panel. The State shall pay one-half the cost of the fact-finding panel; the remaining one-half of the cost shall be divided equally between the parties.

(6) Not more than ten days after the findings and recommendations shall have been sent, the parties shall notify the Board and each other whether or not they accept the recommendations of the fact-finding panel and if they do not, the panel shall publicize its findings of fact and recommendations.

(7) If the parties are unable to reach agreement within ten days after the publication of the findings and recommendations from the fact-finding panel or if, where fact-finding has not been requested or ordered, mediation has failed to bring the parties into agreement or the collective bargaining agreement, if one exists, has expired, or thirty days have elapsed since the Board was notified that the parties cannot reach an agreement, then the public employees shall submit the matter to final and binding arbitration by an arbitrator selected by the parties. If the parties cannot agree upon an arbitrator within five days, the Board shall immediately appoint an arbitrator from a list of qualified persons maintained by the Board.

(b) Nothing in this Section shall be construed to prohibit the parties from voluntarily agreeing to submit any or all of the issues in dispute to final and binding arbitration. If such agreement is reached said arbitration shall supersede the settlement procedures set forth in this Section. An agreement to arbitrate and the award issued in accordance with such agreement shall be enforceable in the same manner as is provided in Section 9 (b).

Such procedures shall be discussed before enactment with interested employee organizations involved, and the procedures shall be approved by the Board as complying with this Act before being put into effect. Charges of departure from approved procedures may be brought before the Board for remedy.

SR 9, A JOINT RESOLUTION directing the United States Congress to recognize the rights of the unborn.

WHEREAS, the sweeping judgment of the United States Supreme Court in the Texas and Georgia abortion cases expressly deprived the unborn of legal and constitutional protection during their gestation; and

WHEREAS, such judicial holding condones the destruction of an entire class of live human beings; and

WHEREAS, in states in which abortion laws have recently been relaxed or repealed, respect for unborn human life has proved to be wholly inadequate for the reasonable protection of the lives of the unborn; and

WHEREAS, a legal threat to the right of life of any individual member of a society imperils the right to life of every other member of that society; and

WHEREAS, human life in all states is entitled to the protection of the laws and may not be abridged by act of any court or legislature or by any judicial interpretation of the Constitution of the United States; and

WHEREAS, the issue is of such great magnitude--the extent to which human life itself is protected under the Constitution; and

WHEREAS, the General Assembly of the Commonwealth of Kentucky believes it to be in the best interest of the people of the United States that an amendment to the Constitution of the United States be adopted to protect unborn human lives, and

WHEREAS, today, January 22nd, marks the 1st Anniversary of this sad era in U. S. History, ushered in by these modern Dred Scott decisions of the U. S. Supreme Court on January 22, 1973;

NOW, THEREFORE,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

Section 1. That the Congress of the United States take appropriate action to adopt a Constitutional Amendment that will guarantee the explicit protection of all unborn human life by extending the same constitutional rights, including due process of law, which apply to the unborn in the same manner and to the same extent as all other citizens of the United States, and will guarantee that no human life will be denied protection of law or deprived of life on account of age, sickness, state of development or condition of dependency or wantedness. Nothing contained herein shall prohibit an abortion to save the physical life of a pregnant woman.

Section 2. That the Clerk of the Senate transmit a copy of this Resolution to the President of the United States, the President of the Senate of the United States, the Speaker of the House of Representatives of the United States, each member of the Kentucky Congressional delegation, each member of the United States Supreme Court and the Governor of the Commonwealth of Kentucky.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS Chapter 189 is created to read as follows:

The Department of Transportation may promulgate bicycle safety regulations and standards. Bicycle riders and bicycles complying with such regulations and standards are exempt from the provisions of KRS

189.040(9), 189.050(1), 189.050(5), and 189.080. Such bicycles and riders are also exempt from municipal and other local government regulations concerning safety equipment but not method of operation. In promulgating regulations and standards the Department of Transportation shall permit use of lightweight modern technological substitutes for lights, reflectors, and bells. The purpose of this section is to encourage bicycling and bicycle touring in this state by enabling bicycle riders to make use of modern technology to make their presence known to other users of the road. The Department of Transportation may consult with organizations of bicycle riders to aid it in the search for bicycle safety equipment and rules convenient for long distance bicycle riders.

Section 2. KRS 189.040 is amended to read as follows:

(1) Every motor vehicle other than a motorcycle or motor-driven cycle shall be equipped with at least two (2) head lamps with at least one on each side of the front of the motor vehicle, which head lamps shall comply with the requirements and limitations set forth in this section.

(2) Every motorcycle and every motor-driven cycle shall be equipped with at least one (1) and not more than two (2) head lamps which shall comply with the requirements and limitations of this section.

(3) Except as hereinafter provided, the head lamps or the auxiliary driving lamps or the auxiliary passing lamp or combinations thereof on motor vehicles other than a motorcycle or motor driven cycle shall be so arranged that the driver may control the selection between distribution of light projected to different elevations, subject to the following requirements and limitations:

(a) There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity as to reveal persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading;

(b) There shall be a lowermost distribution of light, or composite beam so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead; and on a straight level road under any condition of loading none of the high-intensity portion of the beam shall be directed to strike the eyes of an approaching driver;

(c) Every new motor vehicle, other than a motorcycle or motordriven cycle, registered in this state after January 1, 1956, which has multiple-beam road-lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the head lamps is in use, and shall not otherwise be lighted. Said indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped.

(4) Whenever a motor vehicle is being operated on a roadway or shoulder adjacent thereto during the times specified in KRS 189.030, the driver shall use a distribution of light, or composite beam, directed high enough and of sufficient intensity to reveal persons and vehicles at a safe distance in advance of the vehicle, subject to the requirements and limitations hereinafter set forth.

(5) Whenever a driver of a vehicle approaches an oncoming vehicle within 500 feet, such driver shall use a distribution of light, or composite beam, so aimed that the glaring rays are not projected into the eyes of the oncoming driver. The lowermost distribution of light, or composite beam, specified in paragraph (b) of subsection (3) of this section shall be deemed to avoid glare at all times, regardless of road contour and loading.

(6) Whenever the driver of a vehicle follows another vehicle within 200 feet to the rear, except when engaged in the act of overtaking and passing, such driver shall use a distribution of light permissible under subsection (5) of KRS 189.340, subsection (1) of KRS 189.370, KRS 189.375, and subsection (3) of KRS 189.560 other than the uppermost distribution of light specified in paragraph (a) of subsection (3) of this section.

(7) Headlights arranged to provide a single distribution of light not supplemented by auxiliary driving lights shall be permitted on motor vehicles manufactured and sold prior to May 30, 1939, in lieu of multiple-beam road-lighting equipment, if the single distribution of light complies with the following requirements and limitations:

(a) The headlights shall be so aimed that when the vehicle is not loaded none of the high intensity portion of the light shall, at a distance of twenty-five feet (25') ahead, project higher than a level of five (5) inches below the level of the center of the light from which it comes, and in no case higher than forty-two (42) inches above the level on which the vehicle stands, at a distance of seventy-five (75) feet ahead;

(b) The intensity shall be sufficient to reveal persons and vehicles at a distance of at least 200 feet;

(c) Whenever the operator of a motor vehicle approaches an oncoming vehicle within 500 feet, he shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver. In no case shall the high intensity portion which is projected to the left of the prolongation of the extreme left side of the vehicle be aimed higher than the center of the lamp from which it comes at a distance of twenty-five (25) feet ahead, and in no case higher than a level of forty-two (42) inches above the level upon which the vehicle stands at a distance of seventy-five (75) feet ahead.

(8) Flashing lights are prohibited on all motor vehicles except as a means for indicating a right or left turn or for the purpose of warning the operators of other vehicles of the presence of a vehicular traffic hazard requiring the exercise of unusual care in approaching, overtaking or passing.

(9) *Except as provided in any regulations adopted pursuant to Section 1 of this Act*, bicycles need have only one light in front which will reveal clearly substantial objects at least fifty feet ahead.

(1) *Except as provided in any regulations adopted pursuant to Section 1 of this Act*, all vehicles shall display at the rear one red light visible when lighted for at least five hundred feet (500'). A red reflector meeting the requirements may be used in lieu of a red light.

(2) Every motor bus used for the transportation of persons for hire shall be equipped with at least one (1) red light with the word "STOP" on it which can be seen for one hundred and fifty (150) feet when illuminated. This subsection shall not apply to school buses or church buses.

(3) No person shall operate any motor truck or semitrailer truck on any highway unless it is equipped with a yellow or red light that automatically indicates the application of brakes and is visible from the rear a distance of not less than two hundred (200) feet.

(4) No person shall operate on any highway a motor truck or semitrailer truck having a width of any part in excess of eighty-four (84) inches, unless it carries at least two (2) clearance lights to indicate the outside left limit of the motor truck or semitrailer truck, one (1) light colored white or green, to be attached to and be visible from the front of the motor truck or semitrailer truck, and one (1) light colored red, to be attached to and be visible from the rear, in each case a distance of not less than five hundred (500) feet.

Every person operating an automobile or bicycle shall sound the horn or sound device whenever necessary as a warning of the approach of such vehicle to pedestrians, or other vehicles, but shall not sound the horn or sound device unnecessarily. A bell may be used on a bicycle.

Section 5. KRS 189.810 is amended to read as follows:

Section 6. KRS 189.830 is amended to read as follows:

(1) The slow-moving vehicle emblem shall be restricted to the uses specified herein and the use on any other type of vehicle or on other objects is prohibited.

(2) The said emblem shall not be required on trailers or other drawn vehicles which do not obstruct the slow-moving vehicle emblem required on the towing vehicle.

(3) Highway construction or maintenance vehicles and public utility vehicles shall not require said emblems when being guarded by flagmen or flares.

(4) The use of such slow-moving vehicle emblems shall be in addition to any other reflective or lighting devices required by law.

(5) *The slow-moving vehicle emblem shall not be used on a bicycle.*

Section 7. A new section of KRS Chapter 189 is created to read as follows:

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 153.110 is amended to read as follows:

Actors Theatre of Louisville [The Pioneer School of Drama, Inc., known as the Pioneer Playhouse throughout the whole of these United States,] is hereby designated and declared to be the state theatre of Kentucky. The state theatre, so designated and declared, may be engaged to present public plays and performances at any and all of the state parks throughout the commonwealth, may create and present public plays and performances throughout the commonwealth and may meet with regional groups to help develop ideas in drama, pageants and centennials, help in tourist promotion, create a playwrights' center and art colony, and offer accreditation of college credits through the state colleges and *universities* [university], upon and with the approval of the state department of education.

HB 309, AN ACT relating to legislative auditing and the Joint Interim Committee on Appropriations and Revenue.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 6.360 is amended to read as follows:

The intent of KRS 6.360 to 6.415 is to insure *systematic and thorough evaluations* [the postauditing] of *agencies* [each agency] of the state government *and their various programs* for the purpose of furnishing the legislature with factual information necessary to the discharge of its legislative duties. The general assembly finds that adequate information is not available for each session through which the members of the legislature can determine the needs of the various agencies and departments of the state government, and the *effectiveness of their programs* [postauditing of each agency will furnish necessary information]. The general assembly also finds that the legislative session is not adequate time in which to review the financial operations of each agency. It is the intent of KRS 6.360 to 6.415 to provide the legislature with adequate factual information by which to exercise its valid powers.

Section 2. KRS 6.365 is repealed as follows:

[The senate and the house of representatives each shall submit to the legislative research commission a list of four (4) members of the majority party and two (2) members of the minority party from the respective houses of the general assembly, nominated by party caucuses in the respective houses. From this list the commission shall appoint two (2) members of the majority party and one (1) member of the minority party from each house, to constitute the legislative audit committee. The committee shall be a subcommittee of the commission. The term of all members shall be two (2) years from March 1 of each year in which the general assembly meets in regular session and until their successors are appointed and have qualified. If a member of said committee ceases to be a member of the general assembly, his appointment shall be vacated and the commission shall appoint a successor from the same house and party as that member to serve the remaining portion of his term. Members shall receive as compensation twenty-five dollars (\$25.00) per day spent in the performance of their duties and shall be reimbursed for reasonable and necessary expenses in connection with such duties.]

Section 3. KRS 6.370 is amended to read as follows:

(1) The *Joint Interim Committee on Appropriations and Revenue* [committee] shall study and examine expenditures of state agencies. The committee may organize and adopt rules for the conduct of its business and do whatever else it considers necessary or advisable to carry out the purposes of KRS 6.360 to 6.415.

[(2)] The committee may engage such accounting and consulting firms, specialists, technicians or other persons as are deemed necessary for the performance of its duties.]

(2)/[(3)] The committee may adopt rules and prescribe procedures for the conduct of its affairs.

(3)/[(4)] The committee may administer oaths, issue subpoenas, compel the attendance of witnesses and the production of papers, books, accounts, documents, and testimony, and have the deposition of witnesses taken in the manner prescribed by law for taking depositions in civil actions. If a person disobeys or refuses to comply with a subpoena, or if a witness refuses to testify to a matter regarding which he may be lawfully interrogated, the Court of Appeals may on application of the committee compel obedience by proceedings for contempt in the same manner as in the case of disobedience of the requirements of a subpoena issued from the court or a refusal to testify in the court. Each witness who appears before the committee by its order, other than an officer or employe of the state, is entitled to the fees and mileage provided for witnesses in civil cases in courts of record, which shall be audited and paid upon the presentation of proper vouchers sworn to by such witnesses and approved by the chairman of the committee.

Section 4. KRS 6.375 is repealed as follows:

[(1)] The committee shall examine persons to serve as auditor as to qualifications and ability, and upon completion of the examination, place the name of the person selected in nomination before the legislature or the legislative research commission for appointment as legislative auditor.]

[(2)] The legislative auditor shall be qualified in public finance or government administration, with at least five (5) years' appropriate experience prior to his appointment. The name of the person nominated by the committee as legislative auditor shall be presented to the legislature or legislative research commission for appointment. The legislative auditor shall serve at the pleasure of the legislature, and when the legislature is not in session, he may be removed for cause by a majority recommendation of the committee, approved by the legislative research commission, after notice by and public hearing before the committee or legislative research commission. If a vacancy in the position of legislative auditor occurs when the legislature is not in session, the position may be filled by the legislative research commission upon recommendation of the committee.]

[(3)] Upon appointment, the legislative auditor shall execute a bond, to cover his official acts, in the sum of \$10,000 conditioned upon the faithful discharge of his duties, with a surety company authorized to do business in the state. The state shall pay the premium on the bond.]

Section 5. KRS 6.380 is amended to read as follows:

The committee may [direct the legislative auditor to]:

(1) Perform an audit *or investigation* of any accounts, books and other financial records of the state government, or of any officer, department, board, bureau, institution, commission, agency, or other unit, of the state [and prepare a written report of the audit for presentation to the committee];

(2) Examine and audit any fiscal books, records and accounts of custodians of public funds, and of disbursing officers of the state, making independent verification of all assets, liabilities, revenues and expenditures of the state and agencies of the state;

(3) *Review and evaluate any program supported in whole or in part by state appropriation. In any instance in which a program review indicates inadequate operating or administrative system controls or procedures, inaccuracies, waste, extravagance, unauthorized or unintended activities or programs, or other deficiencies, the committee may report its findings to the general assembly.*

(4)[(3)] Perform audit of any agency, private or semiprivate agency or organization receiving state funds;

(5) *The committee may, at any time, study or review any matter relative to program activities of any state department, agency, or institution.*

(6)[(4)] Require the assistance of any executives and officials, auditors, accountants, and other employees of any agency at any time in the inspection, examination and audit of books, accounts and records.

Section 6. KRS 6.385 is amended to read as follows:

[(1)] The legislative auditor shall employ the most efficient personnel available. It is the intention and desire of the general assembly to free the legislative auditor and his staff from partisan politics. The auditor and the staff shall not engage in or be associated with any partisan political activity.]

[(2)] The legislative auditor may not serve in any ex officio capacity on an administrative board or commission, or have a financial interest in the transactions of any agency.]

[(3)] The salary of the legislative auditor shall be established by the legislature or the legislative research commission at not more than \$17,500 per year. Other employees of the committee shall be paid in the same manner and through the same procedure used for the payment of salaries of other state employees. All employees shall be covered by the state merit system and classification and pay plan.]

The legislative research commission shall, subject only to the availability of funds, assign or employ such staff as may be required to enable the committee to perform its duties.

Section 7. KRS 6.390 is amended to read as follows:

A member of the general assembly may, by written request and by written notice of at least six (6) days, request the committee to direct a special review [audit] of any state agency, unit or program. Upon the vote of the majority of the committee approving the request, the *director of the legislative research commission* [legislative auditor] shall *cause such review to be made* [make the audit].

Section 8. KRS 6.395 is amended to read as follows:

[(1)] The committee shall file copies of its approved [audit] reports together with the committee's recommendations with the *legislative research commission* [governor]. The committee shall file an annual report [with the governor] not later than *December 1*. [September 1. Each annual report shall contain a copy of the audit reports on the various agencies or the substance of the audit reports and a summary of recommendations made in regard to them.] Each annual report shall be open to public inspection after it is filed with the *legislative research commission* [general assembly], except that *any* [the] portion of the annual report containing recommendations, comments and narrative statement shall be released only upon the approval of a majority vote of the committee.

[(2)] No audit report or recommendation shall be released or filed for public inspection until the governor has received a copy.]

Section 9. KRS 6.400 is repealed as follows:

[Recommendations submitted by the legislative auditor shall be confined to seeing that the laws adopted by the general assembly dealing with the expenditure of public money are carefully observed, and that the attention of the general assembly is directed to cases of apparent violations of the law and to those instances where there is need for change of existing laws or the passage of new laws to obtain the efficient spending of public funds, and to the manner or form of appropriations which will avoid any improper expenditure of money.]

Section 10. KRS 6.405 is amended to read as follows:

In the course of *its* [his] investigations and studies, the *committee* [legislative auditor] may ascertain the amount on deposit in any bank belonging to the agency audited, and may audit the account on the books of the bank. The minimum qualifications and requirements for registration as a forester shall be as follows:

(1) Graduation from a school, college or department of forestry approved by the board, and a specific record of an additional two years or more experience in forestry work of a character satisfactory to the board indicating that the applicant is competent to practice forestry.

(2) Graduates of schools of forestry not approved by the board may be registered after two years of experience of a character satisfactory to the board, and after successfully passing a written examination approved by the board and designed to show knowledge and skill approximating that obtained by graduation from a school, college or department of forestry approved by the board.

(3) No person shall be eligible for registration as a forester who is not of good moral character and reputation.

(5) Any person who shall have been engaged in the practice of professional forestry as defined in Section 1 of this Act for a period of at least ten years immediately preceding the effective date of this Act shall be eligible for registration as a forester without reference to the requirements set forth in subsections (1) and (2) of this section; provided, that such person files application for registration with the board within thirty days from the effective date of this Act.

Any non-resident of Kentucky, or any person within six months after becoming a resident of Kentucky, who has been registered as a forester under the laws of another state, may be registered under the laws of Kentucky by reciprocity without having to qualify under the other provisions of this Act subject to the following conditions:

Section 9. A new section of KRS Chapter 149 is created to read as follows:

(1) The board may upon the vote of three or more of its members revoke the registration of any registrant if it finds:

(b) That he has violated any provision of this Act or has failed to comply with any rule or regulation lawfully made pursuant thereto; or

(c) That any fact or condition exists which clearly would have warranted refusal to issue a certificate of registration on an original application.

(d) That he has given false or forged evidence of any kind to the board or any member thereof in obtaining registration.

(2) Before the revocation of a registrant's registration under subsection (1), the registrant shall be accorded a hearing by the board at such time and place as the board may determine; provided, however, that the board shall notify the registrant of the charges against him and the time and place of the hearing, personally or at his last known address, at least thirty days prior to the date set for the hearing.

(3) The board may issue subpoenas to compel the attendance of witnesses and the production of documents, and may administer oaths, take testimony, hear proof and receive exhibits in evidence. In case of disobedience to a subpoena the board may invoke the aid of the Franklin Circuit Court.

(4) Witnesses called by the board shall receive the same compensation and shall be reimbursed for expenses in the same manner as if they were board members.

(5) At any hearing the accused may appear in person or by counsel, produce evidence and witnesses on his own behalf, cross-examine witnesses, and examine such evidence and documents as may be produced against him. The accused shall be entitled, on application to the board to the issuance of subpoenas to compel the attendance of witnesses on his behalf. The board may also be represented by counsel.

(6) The board shall not be bound by the rules of evidence, but the hearing shall be conducted with fairness to all parties concerned.

HR 46, A RESOLUTION relating to turning on the light.

WHEREAS, if one should enter any of the six great doors of the Capitol Building one could see a lobby, light and gay, and on the other side of an area of darkness, is the Governor's Office filled, flushed and illuminated with an abundance of light; and

WHEREAS, in the Senate and House of Representatives, in order that men may be seen of men, there is no darkness, rather there is an aurora of brightness, streamers and arches of light of fluorescent and incandescent glow, light profusely scattered around and about in refulgent brilliance, light so bright as to exceed that of the noon day sun; and

WHEREAS, and notwithstanding the aforesaid brightly illuminated places there is a dark, cathedral-like gloom in the rotunda of the temple of justice, dark shadows gathering beneath the high Capitol dome, and light, ever so faint and dim sifts down from the six giant sky-lights over the Capitol; and

WHEREAS, the lights in the rotunda are subdued, turned down, dimmed, or turned out, and the only light therein is a faint, feeble soft glow sifting down from heaven through the great Capitol dome; and

WHEREAS, in the rotunda there is not enough light to repel the darkness, and the statue of Abraham Lincoln stands in the shadows in a ghostly, eerie, melancholy, and somber place; and

WHEREAS, because of the darkness, thousands of people who pass through the rotunda cannot recognize the image of Abraham Lincoln, cannot discern his likeness or look upon his face to be reminded of his eternal greatness, his exalted honor and his service to all mankind; and

WHEREAS, let there be light, and lights so be placed as to cast a warm golden glow, a halo around the brow, the head and shoulders of the statue of Abraham Lincoln so that those who pass this way may look upon his face, recognize his image and be reminded of his honor, his greatness, and his service to man;

NOW THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the membership of the House of Representatives of the Commonwealth of Kentucky strongly urges the powers that be and now are to cause the building superintendent with speed and great dispatch to proceed to turn the lights on the statute of Abraham Lincoln.

HB 103, AN ACT relating to juveniles.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 208.600 is amended to read as follows:

The governor is hereby authorized and directed to execute a compact on behalf of this state with any other state or states legally joining therein *and, upon the enactment of this Act, the Commonwealth of Kentucky shall be deemed a party to the Interstate Compact on Juveniles and shall be deemed to have contracted with each state joining therein, the compact being* [in the form] substantially as follows:

The contracting states solemnly agree:

ARTICLE I

[FINDINGS AND PURPOSES]

That juveniles who are not under proper supervision and control, or who have absconded, escaped or run away, are likely to endanger their own health, morals and welfare, and the health, morals and welfare of others. The cooperation of the states party to this compact is therefore necessary to provide for the welfare and protection of juveniles and of the public with respect to (1) cooperative supervision of delinquent juveniles on probation or parole; (2) the return, from one state to another, of delinquent juveniles who have escaped or

absconded; (3) the return, from one state to another, of nondelinquent juveniles who have run away from home; and (4) additional measures for the protection of juveniles and of the public, which any two or more of the party states may find desirable to undertake cooperatively. In carrying out the provisions of this compact the party states shall be guided by the non-criminal reformatory and protective policies which guide their laws concerning delinquent, neglected or dependent juveniles generally. It shall be the policy of the states party to this compact to cooperate and observe their respective responsibilities for the prompt return and acceptance of juveniles and delinquent juveniles who become subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the foregoing purposes.

ARTICLE II

[EXISTING RIGHTS AND REMEDIES]

That all remedies and procedures provided by this compact shall be in addition to and not in substitution for other rights, remedies and procedures, and shall not be in derogation of parental rights and responsibilities.

ARTICLE III

[DEFINITIONS]

That, for the purpose of this compact, "delinquent juvenile" means any juvenile who has been adjudged delinquent and who, at the time the provisions of this compact are invoked, is still subject to the jurisdiction of the court that has made such adjudication or to the jurisdiction or supervision of an agency or institution pursuant to an order of such court; "probation or parole" means any kind of conditional release of juveniles authorized under the laws of the states party hereto; "court" means any court having jurisdiction over delinquent, neglected or dependent children; "state" means any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; and "residence" or any variant thereof means a place at which a home or regular place of abode is maintained.

ARTICLE IV

[RETURN OF RUNAWAYS]

(a) That the parent, guardian, person or agency entitled to legal custody of a juvenile who has not been adjudged delinquent but who has run away without the consent of such parent, guardian, person or agency may petition the appropriate court in the demanding state for the issuance of a requisition for his return. The petition shall state the name and age of the juvenile, the name of the petitioner and the basis of entitlement to the juvenile's custody, the circumstances of his running away, his location if known at the time application is made, and such other facts as may tend to show that the juvenile who has run away is endangering his own welfare or the welfare of others and is not an emancipated minor. The petition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the document or documents on which the petitioner's entitlement to the juvenile's custody is based, such as birth certificates, letter of guardianship, or custody decrees. Such further affidavits and other documents as may be deemed proper may be submitted with such petition. The judge of the court to which this application is made may hold a hearing thereon to determine whether for the purpose of this compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor, and whether or not it is in the best interest of the juvenile to compel his return to the state. If the judge determines, either with or without a hearing, that the juvenile should be returned, he shall present to the appropriate court or to the executive authority of the state where the juvenile is alleged to be located a written requisition for the return of such juvenile. Such requisition shall set forth the name and age of the juvenile, the determination of the court that the juvenile has run away without the consent of a parent, guardian, person or agency entitled to his legal custody, and that it is in the best interest and for the protection of such juvenile that he be returned. In the event that a proceeding for the adjudication of the juvenile as a delinquent, neglected or dependent juvenile is pending in the court at the time when such juvenile runs away, the court may issue a requisition for the return of such juvenile upon its own motion, regardless of the consent of the parent, guardian, person or agency entitled to legal custody, reciting therein the nature and circumstances of the pending proceeding. The requisition shall in every case be executed in duplicate and shall be signed by the judge. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of such court. Upon the receipt of a requisition demanding the return of a juvenile who has run away, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No juvenile detained upon such order shall be delivered over to the officer whom the court demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of a court in the state, who shall inform him of the demand made for his return; and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such juvenile over to the officer whom the court demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a juvenile who has run away from another state party to this compact without the consent of a parent, guardian, person or agency entitled to his legal custody, such juvenile may be taken into custody without a requisition and brought forthwith before a judge of the appropriate court who may appoint counsel or guardian ad litem for such juvenile and who shall determine after a hearing whether sufficient cause exists to hold the person, subject to the order of the court, for his own protection and welfare, for such a time not exceeding ninety days as will enable his return to another state party to this compact pursuant to a requisition for his return from a court of that state. If, at the time when a state seeks the return of a juvenile who has run away, there is pending in the state wherein he is found any criminal charge, or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the juvenile being returned, shall be permitted to transport such juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he ran away, the juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a juvenile is returned under this article shall be responsible for payment of the transportation cost of such return.

(c) That "juvenile" as used in this article means any person who is a minor under the law of the state of residence of the parent, guardian, person or agency entitled to the legal custody of such minor.

ARTICLE V

[RETURN OF ESCAPEES AND ABSCONDERS]

(a) That the appropriate person or authority from whose probation or parole supervision a delinquent juvenile has absconded or from whose institutional custody he has escaped shall present to the appropriate court or to the executive authority of the state where the delinquent juvenile is alleged to be located a written requisition for the return of such delinquent juvenile. Such requisition shall state the name and age of the delinquent juvenile, the particulars of his adjudication as a delinquent juvenile, the circumstances of the breach of the terms of his probation or parole or of his escape from an institution or agency vested with his legal custody or supervision, and the location of such delinquent juvenile, if known, at the time the requisition is made. The requisition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the judgment, formal adjudication, or order of commitment which subjects such delinquent juvenile to probation or parole or to the legal custody of the institution or agency concerned. Such further affidavits and other documents as may be deemed proper may be submitted with such requisition. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of the appropriate court. Upon the receipt of a requisition demanding the return of a delinquent juvenile who has absconded or escaped, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such delinquent juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No delinquent juvenile detained upon such order shall be delivered over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of an appropriate court in the state, who shall inform him of the demand made for his return and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such delinquent juvenile over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, such person may be taken into custody in any other state party to this compact without a requisition. But in such event, he must be taken forthwith before a judge of the appropriate court, who may appoint counsel or guardian ad litem for such person and who shall determine, after a hearing, whether sufficient cause exists to hold the person subject to the order of the court for such a time, not exceeding ninety days, as will enable his detention under a detention order issued on a requisition pursuant to this article. If, at the time when a state seeks the return of a delinquent juvenile who has either absconded while on probation or parole or escaped from an institution or agency vested with his legal custody or supervision, there is pending in the state wherein he is detained any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the delinquent

juvenile being returned, shall be permitted to transport such delinquent juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he escaped or absconded, the delinquent juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a delinquent juvenile is returned under this article shall be responsible for payment of the transportation costs of such return.

ARTICLE VI [VOLUNTARY RETURN PROCEDURE]

That any delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, and any juvenile who has run away from any state party to this compact, who is taken into custody without a requisition in another state party to this compact under the provision of Article IV (a) or of Article V (a), may consent to his immediate return to the state from which he absconded, escaped or ran away. Such consent shall be given by the juvenile or delinquent juvenile and his counsel or guardian ad litem if any, by executing or subscribing a writing, in the presence of a judge of the appropriate court, which states that the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, consent to his return to the demanding state. Before such consent shall be executed or subscribed, however, the judge, in the presence of counsel or guardian ad litem, if any, shall inform the juvenile or delinquent juvenile of his rights under this compact. When the consent has been duly executed, it shall be forwarded to and filed with the compact administrator of the state in which the court is located and the judge shall direct the officer having the juvenile or delinquent juvenile in custody to deliver him to the duly accredited officer or officers of the state demanding his return, and shall cause to be delivered to such officer or officers a copy of the consent. The court may, however, upon the request of the state to which the juvenile or delinquent juvenile is being returned, order him to return unaccompanied to such state and shall provide him with a copy of such court order; in such event a copy of the consent shall be forwarded to the compact administrator of the state to which said juvenile or delinquent juvenile is ordered to return.

ARTICLE VII [COOPERATIVE SUPERVISION OF PROBATIONERS AND PAROLEES]

(a) That the duly constituted judicial and administrative authorities of a state party to this compact (herein called "sending state") may permit any delinquent juvenile within such state, placed on probation or parole, to reside in any other state party to this compact (herein called "receiving state") while on probation or parole, and the receiving state shall accept such delinquent juvenile, if the parent, guardian or person entitled to the legal custody of such delinquent juvenile is residing or undertakes to reside within the receiving state. Before granting such permission, opportunity shall be given to the receiving state to make such investigations as it deems necessary. The authorities of the sending state shall send to the authorities of the receiving state copies of pertinent court orders, social case studies and all other available information which may be of value to and assist the receiving state in supervising a probationer or parolee under this compact. A receiving state, in its discretion, may agree to accept supervision of a probationer or parolee in cases where the parent, guardian or person entitled to the legal custody of the delinquent juvenile is not a resident of the receiving state, and if so accepted the sending state may transfer supervision accordingly.

(b) That each receiving state will assume the duties of visitation and of supervision over any such delinquent juvenile and in the exercise of those duties will be governed by the same standards of visitation and supervision that prevail for its own delinquent juveniles released on probation or parole.

(c) That, after consultation between the appropriate authorities of the sending state and of the receiving state as to the desirability and necessity of returning such a delinquent juvenile, the duly accredited officers of a sending state may enter a receiving state and there apprehend and retake any such delinquent juvenile on probation or parole. For that purpose, no formalities will be required, other than establishing the authority of the officer and the identity of the delinquent juvenile to be retaken and returned. The decision of the sending state to retake a delinquent juvenile on probation or parole shall be conclusive upon and not reviewable within the receiving state, but if, at the time the sending state seeks to retake a delinquent juvenile on probation or parole, there is pending against him within the receiving state any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for any act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of the sending state shall be permitted to transport delinquent juveniles being so returned through any and all states party to this compact, without interference.

(d) That the sending state shall be responsible under this article for paying the costs of transporting any delinquent juvenile to the receiving state or of returning any delinquent juvenile to the sending state.

ARTICLE VIII
[RESPONSIBILITY FOR COSTS]

(a) That the provisions of Articles IV (b), V (b) and VII (d) of this compact shall not be construed to alter or affect any internal relationship among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(b) That nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to Articles IV (b), V (b) or VII (d) of this compact.

ARTICLE IX
[DETENTION PRACTICES]

That, to every extent possible, it shall be the policy of states party to this compact that no juvenile or delinquent juvenile shall be placed or detained in any prison, jail or lockup nor be detained or transported in association with criminal, vicious or dissolute persons.

ARTICLE X
[SUPPLEMENTARY AGREEMENTS]

That the duly constituted administrative authorities of a state party to this compact may enter into supplementary agreements with any other state or states party hereto for the cooperative care, treatment and rehabilitation of delinquent juveniles whenever they shall find that such agreements will improve the facilities or programs available for such care, treatment and rehabilitation. Such care, treatment and rehabilitation may be provided in an institution located within any state entering into such supplementary agreement. Such supplementary agreements shall (1) provide the rates to be paid for the care, treatment and custody of such delinquent juveniles, taking into consideration the character of facilities, services and subsistence furnished; (2) provide that the delinquent juvenile shall be given a court hearing prior to his being sent to another state for care, treatment and custody; (3) provide that the state receiving such a delinquent juvenile in one of its institutions shall act solely as agent for the state sending such delinquent juvenile; (4) provide that the sending state shall at all times retain jurisdiction over delinquent juveniles sent to an institution in another state; (5) provide for reasonable inspection of such institutions by the sending state; (6) provide that the consent of the parent, guardian, person or agency entitled to the legal custody of said delinquent juvenile shall be secured prior to his being sent to another state; and (7) make provision for such other matters and details as shall be necessary to protect the rights and equities of such delinquent juveniles and of the cooperating states.

ARTICLE XI
[ACCEPTANCE OF FEDERAL AND OTHER AID]

That any state party to this compact may accept any and all donations, gifts and grants of money, equipment and services from the federal or any local government, or any agency thereof and from any person, firm or corporation, for any of the purposes and functions of this compact, and may receive and utilize the same subject to the terms, conditions and regulations governing such donations, gifts and grants.

ARTICLE XII
[COMPACT ADMINISTRATORS]

That the Governor of each state party to this compact shall designate an officer who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more effectively the terms and provisions of this compact.

ARTICLE XIII
[EXECUTION OF COMPACT]

That this compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form of execution to be in accordance with the laws of the executing state.

ARTICLE XIV
[RENUNCIATION]

That this compact shall continue in force and remain binding upon each executing state until renounced by it. Renunciation of this compact shall be by the same authority which executed it, by sending six months' notice in writing of its intention to withdraw from the compact to the other states party hereto. The duties and obligations of a renouncing state under Article VII hereof shall continue as to parolees and probationers residing therein at the time of withdrawal until retaken or finally discharged. Supplementary agreements entered into under Article X hereof shall be subject to renunciation as provided by such supplementary agreements, and shall not be subject to the six months' renunciation notice of the present article.

ARTICLE XV
[SEVERABILITY]

That the provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the

remainder of this compact and the applicability thereof to any government, agency, person or circumstances shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Section 2. KRS 208.660 is amended to read as follows:

HR 31, A JOINT RESOLUTION relating to higher education.

WHEREAS, a majority of the state community colleges, colleges, and universities of the Commonwealth accept the credit hours of students transferring from one such institution to another, but some such institutions do not accept the student's cumulative grade point average for credit hours transferred; and

WHEREAS, this practice works an undue hardship upon the student because he must establish a new cumulative grade point average at the place of transfer, when such institution does not accept the grade average; and

WHEREAS, the cumulative grade point average of a student may affect his employment opportunities upon graduation;

NOW, THEREFORE,

Be it resolved by the General Assembly of the Commonwealth of Kentucky:

Section 1. That the Council on Public Higher Education direct the state community colleges, colleges, and universities to compute and accept the cumulative grade point average of a student who transfers from one such institution to another, using those courses which are accepted for credit by the institution to which the student transfers, should such student so request.

HR 38, A RESOLUTION expressing support for the Council on Public Higher Education's efforts to arrange a reciprocal tuition program with Tennessee.

WHEREAS, the House of Representatives of the Kentucky General Assembly is concerned with the educational opportunities available to all students of the Commonwealth; and

WHEREAS, the rising cost of pursuing a program of higher education works a hardship on many Kentucky students; and

WHEREAS, a reciprocal tuition program between the institutions of higher education of Kentucky and Tennessee would provide a broadening of the educational opportunities for students of both states; and

WHEREAS, an agreement on tuition reciprocity would place Kentucky and Tennessee in the forefront of innovation in higher education as the third and fourth states in the nation to implement such programs; and

WHEREAS, the number of non-resident students attending institutions of higher education in each state would be approximately equal, thereby causing no appreciable loss of revenue to either state;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

That the Council on Public Higher Education be and is congratulated for its efforts in attempting to establish a program of tuition reciprocity between the institutions of higher education of Kentucky and Tennessee, and that the Council on Public Higher Education be and is provided the support and encouragement of the House of Representatives in its continued efforts to implement said program.

In determining the amount of the bond within the above limits, the department shall take into consideration the character and nature of the overburden, the future suitable use of the land involved and the cost of backfilling, grading and reclamation to be required. In a particular instance where the circumstances are such as to warrant an exception, the department, in its discretion, may reduce the amount of the bond for a particular operation to less than the required minimum.

(2) A fiduciary investment company shall not be responsible for ascertaining the investment powers of any fiduciary who may purchase its stock and shall not be liable for accepting funds from a fiduciary in violation of restrictions of the will, trust indenture or other instrument under which such fiduciary is acting in absence of actual knowledge of such violation, and shall be accountable only to the supervisory agency and the fiduciaries who are the owners of its stock.

(3) Every fiduciary investment company having a national bank as investment adviser shall comply with all applicable rules and regulations of the Comptroller of the Currency.

Section 9. A new section of KRS Chapter 291 is created to read as follows:

Except as may be specifically authorized by rule or regulation of the appropriate supervisory agency, no trust institution or foreign trust institution holding stock in a fiduciary investment company may advertise or publicize its participation in such fiduciary investment company: Provided that any trust institution or foreign trust institution holding stock in a fiduciary investment company shall furnish the annual or periodic financial reports of such fiduciary investment company, on request, to any person having a beneficial interest therein, and the fact of the availability of such material may be given publicity in connection with the promotion of the fiduciary services of such trust institution or foreign trust institution.

HB 126, AN ACT relating to city civil service appointments.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 90.350 is amended to read as follows:

(1) The appointing authority shall make all civil service appointments, and the appointments shall be made only from the lists of applicants certified to him by the civil service commission after examination. Appointments shall be made only by the selection of one (1) of the three (3) holding the highest averages in the particular class and grade wherein the vacancy exists, except as provided in subsection (6) of this section.

(2) Whenever it is imperative to fill a vacancy in classified civil service before the commission can certify a list of as many as three (3) persons eligible for appointment after competitive examination, the appointing authority shall nominate a competent person from the same class or next lower rank to the commission for noncompetitive examination, and if certified by the commission as qualified after the noncompetitive examination he may be appointed provisionally to fill the vacancy until an appointment can be made after competitive examination. This provisional appointment shall continue only until a regular appointment can be made from the eligible list prepared by the commission, which eligible list shall be prepared within thirty (30) days after a vacancy occurs in cities of the second class, or within ninety (90) days after vacancy in cities of the third class.

(3) In case of great emergency and when no one (1) upon the eligible list or by promotion from a lower rank is available, an appointment may be made by the appointing authority without examination, but in no case shall such appointment continue longer than thirty (30) days in cities of the second class, or sixty (60) days in cities of the third class, and in no case shall successive appointments be made of the same person, or other persons, to such vacancy.

(4) Temporary appointments made necessary by reason of illness or disability of regular employees shall continue only during such period of disability.

(5) The death of an employee shall not authorize an appointment without examination in cities of the second class.

(6) Whenever, from any cause, there shall be a vacancy in any of the classified services, the employee in said classification ranking next highest in seniority, if he chooses, shall succeed to and fill said vacancy, unless upon charges made by the city that said employee is not qualified to fill said vacancy, and after notice and upon trial to determine his qualifications in the same manner as is now required for the dismissal, suspension or reduction in grade or pay of an employee, it be established by the city that said employee has not the necessary qualifications to enable him to discharge the duties of the office or position in which the said vacancy occurs. Provided that in case of a vacancy in the classified service, where peculiar and exceptional qualifications of a particular professional or educational character are required, upon satisfactory evidence that for reasons stated in writing by the appointing authority, competitive examination in such case has failed to provide an eligible list; the commission may suspend the provisions requiring competitive examination under civil service.

(7) Where the service to be rendered by an appointee in the classified service is for a temporary period not to exceed thirty (30) days in cities of the second class, or sixty (60) days in cities of the third class, and the need of such service is imperative, the appointing authority may select for that temporary service any person on the list of those eligible for permanent appointment. Successive temporary appointments to the same position shall not be made under this provision. The acceptance or refusal by an eligible applicant of a temporary appointment shall not affect his standing on the register for permanent employment, nor shall temporary service be counted as part of the probationary service in case of subsequent appointment to a permanent position.

(8) No person shall be certified by the commission from an eligible list more than four (4) times to the same appointing authority for the same or similar position.

(9) The appointing authority may provide that all appointments for permanent positions be probationary appointments for a period of not more than six (6) months, after which probationary period regular appointments shall be given to all probationary employees who are deemed to be satisfactory by the respective appointing authority.

Section 2. KRS 95.762 is amended to read as follows:

(1) The commission shall require all applicants for appointments as members of the police or fire departments to be examined as to their qualifications to fill the office of policeman or fireman, and as to their knowledge of the English language, and as to the law and rules governing the duties of policemen and firemen. Every member of the police or fire department shall be a qualified voter of the city in which appointed, and shall be able to read and write and understand the English language, and have such other general qualifications as may be prescribed.

(2) No person shall be appointed a member of the police or fire departments unless he is well known to be a man of sobriety and integrity, and has been and is an orderly, law-abiding citizen, nor shall any person be appointed as a member of said police or fire departments on account of any political, partisan service rendered by him or on account of political sentiments or affiliations, or who is under twenty-one (21) years of age or over forty (40), unless the applicant has had as much as five (5) years' experience as a regular policeman or fireman and is not over fifty-five (55) years of age. No member of the police or fire departments shall be removed or discharged or reduced in grade or pay for any political partisan opinion. The appointment and continuance upon the police and fire departments shall depend solely upon the ability and willingness of a person to comply with the rules of the said departments and to perform the duties of said departments. No appointment to or continuance as a member of a police or fire department shall be as a reward for political activity nor be obtained by political services or contributions to campaign funds, nor shall any member of said department pay or collect any assessments made by political organizations, or contribute to political campaign funds, or be unduly active in politics or work for the election of candidates for office.

(3) The examination and qualifications provided for in this section shall not apply to the members of the regular police and fire departments at this time, who have been continuously in the service for a period of three (3) years.

(4) Members of police and fire departments otherwise qualified under this law shall hold their positions during good behavior, provided, however, that the provisions of KRS 95.761 to 95.785 shall not prevent the said city legislative body from increasing or decreasing the number of policemen or firemen, as may be deemed proper from time to time, and provided further, that in the event the said city legislative body decreases the number of policemen or firemen, the youngest member in point of service shall be the first to be reduced and returned to the eligible list and to advance according to the rules and regulations of said department.

(5) The civil service commission may provide that all appointments for permanent positions be probationary appointments for a period of not more than six (6) months, after which probationary period regular appointments shall be given to all probationary employees who are deemed to be satisfactory by the respective appointing authority.

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. A new section of KRS Chapter 152 is created to read as follows:

It shall be the policy of the Commonwealth of Kentucky to encourage and promote the development and demonstration of efficient, environmentally acceptable and commercially feasible technologies, techniques, and processes for conversion of coal into clean fuels in liquid, gaseous, or solid forms.

(a) This policy may be implemented by contracts and agreements with the Federal government and its agencies and/or with other organizations, including private industry, and through organizations that may be formed jointly by the state, the Federal government or its agencies, and private industry to conduct developmental and demonstration projects in such organizational form or legal entity deemed appropriate by the participants.

(b) This policy may be implemented by the expenditure of state funds for the preliminary engineering and planning, design, construction, and/or operation of developmental and demonstrative projects in Kentucky, including pilot and demonstration plants, and for the acquisition and improvement of land, construction of roads, and provision of other public facilities incidental and necessary to the accomplishment of developmental and demonstrative projects in Kentucky; provided that the expenditure of state funds for the construction and/or operation of projects shall be limited to projects for which funds of the federal government have also been committed by grant, loan or other contractual agreement with the Commonwealth, or one or more of its political subdivisions, or one or more corporations doing business in the Commonwealth of Kentucky.

(c) This policy may be implemented by the sale or lease of state property or property rights to organizations engaged in developmental and demonstrative projects in Kentucky, either for a fair and reasonable consideration or solely or partly as all or a portion of the state's participation under this Act in developmental and demonstrative projects.

(d) This policy may be implemented by acquisition by purchase, and if the Commonwealth is unable to contract or agree with the owner after a good faith effort to do so, by the exercise of eminent domain the fee simple title to, or any acceptable lesser interest in such lands, rights of way, franchises, or easements, including submerged lands and riparian rights that are necessary for the construction, use or operation of any authorized demonstration project or projects and for the construction and operation of a line of railroad, truck road, overhead conveyor, pipeline or other transportation facilities for the transportation of coal, water, or other materials and supplies, to the authorized demonstration project or projects from the most convenient and accessible point on a railroad, navigable stream, or coal mine together with the necessary rights of ingress

and egress to construct, examine, alter, repair, maintain, operate, or remove such transportation facilities. The proceedings for condemnation shall be as provided in KRS 416.410 to 416.530.

(e) This policy may be implemented by contracts and agreements for the Commonwealth to purchase all or a portion of the usable output of developmental and demonstration projects, either for a fair and reasonable consideration or solely or partly as all or a portion of the state's participation under this Act in developmental and demonstrative projects, and to dispose of this output by use in state facilities or by resale at fair market value.

Section 2. A new section of KRS Chapter 152 is created to read as follows:

The Secretary of the Development Cabinet, with the approval of the Governor, may execute contracts to design, construct, or operate development or demonstration projects. To such end, the Secretary may execute such agreements up to a maximum of fifty million dollars (\$50,000,000) for the period July 1, 1974 to January 1, 1979. Funds required under such agreement shall be deemed a necessary governmental expense and paid by the State Treasurer upon approval of the Executive Department for Finance and Administration. A copy of each agreement executed shall be filed with the Legislative Research Commission.

Section 3. A new section of KRS Chapter 152 is created to read as follows:

The Secretary of the Development Cabinet may, if any project is deemed economically feasible, request the State Property and Buildings Commission to issue revenue bonds pledging proceeds, including the severance tax on coal produced as a result of the project, for debt service to meet monetary commitments under any contract executed.

Section 4. A new section of KRS Chapter 152 is created to read as follows:

Any proceeds realized from contracts executed, except where revenue bonds are issued, shall be deposited to the "Fund" created herein, up to the fifty million dollars (\$50,000,000) authorized and any excess shall accrue to the General Expenditure Fund. Any balance in the Fund upon expiration of all contracts shall revert to the General Expenditure Fund.

Section 5. A new section of KRS Chapter 152 is created to read as follows:

The General Assembly recognizes that the chance of failure as well as the promise of success affects the developmental and demonstration projects for which state support and joint participation is herein authorized. The liability of the Commonwealth in such projects shall be limited to the express provisions of the contracts and agreements herein authorized, and the Commonwealth's claims against other participants in projects herein authorized shall also be limited to the expressed provisions of such contracts and agreements. The Secretary of the Development Cabinet, or his successor, and agents shall be held harmless by the Commonwealth in the event of failure, abandonment, or termination of any project prior to completion, and the Commonwealth shall defend and indemnify the Secretary, his successor, and agents against any suits related to the administration of this Act to the extent funds are available in the Indemnity Account authorized in Section 8.

Section 6. A new section of KRS Chapter 152 is created to read as follows:

The General Assembly recognizes that although the purpose of this Act is to promote and encourage the development and demonstration of commercially feasible and environmentally acceptable technologies, techniques, and processes, state funds shall not be used directly to assist private industry in production for profit. Therefore, the Commonwealth shall not provide further support of or participation in any project if and when the environmentally acceptable output of the project can be sold or otherwise used to yield a profit to the project. In such event, or in the event of abandonment or termination of a project, the Commissioner, Executive Department for Finance and Administration shall negotiate terms and conditions in an agreement or contract of participation which (a) shall provide for the repayment to the Commonwealth of all funds held and moneys realized from the sale or liquidation of the assets of the joint demonstration project in the same proportion as the Commonwealth's share in the total of funds, property, or other assets expended, contributed, or invested in the project; and (b) may provide for the preemptive right of any or all of the other participants in the project to purchase the Commonwealth's share of any assets, lands, or property rights acquired or constructed by the joint participants.

Section 7. A new section of KRS Chapter 152 is created to read as follows:

The Secretary of the Development Cabinet may, with the prior approval of the Commissioner, Executive Department for Finance and Administration, employ staff to assist in the administration of this Act and the costs may be charged against the Fund.

The Fund shall be managed by the Secretary for the Development Cabinet and all expenditures therefrom must be approved by the Secretary or his designated representative or the successor positions. Unexpended balances in the Fund shall be invested in interest-bearing obligations of the United States or in obligations guaranteed as to both

principal and interest by the United States, of maturities not in excess of five years, and the interest on and proceeds from the sale or redemption of any investments held in the Fund shall be credited to and form a part of the Fund.

(2) It shall be the duty of the Secretary for the Development Cabinet or his delegate to manage the Fund for the purposes authorized herein, and to use the Fund to satisfy the obligation of the state to share proportionally with the federal government and any private participant or participants the capital costs and expenses of any authorized demonstration project or projects. If expenditures from the Fund have not been made or committed as a part of the Commonwealth's obligation for financial participation in any development or demonstration project on or before January 1, 1979, the entire Fund shall revert to the General Expenditure Fund of the Commonwealth.

(3) The Commissioner of the Executive Department for Finance and Administration is hereby authorized to establish an "Indemnity Account" within the "Fund" and to allocate monies to the Account from funds appropriated or otherwise available in the Fund. The Indemnity Account shall be used to satisfy any court judgments under Section 5 of this Act to the extent that monies are available in said Indemnity Account.

Section 9. There is hereby appropriated from the General Expenditure Fund in the State Treasury to the "Fund," seven million dollars (\$7,000,000) for the fiscal year beginning July 1, 1974.

(4) Fund notes may be issued under the provisions of this section without obtaining the consent of any department, division, commission, board, body, bureau or agency of the state, and without any other proceedings or the happening of any conditions or things other than those proceedings, conditions or things which are specifically required by this chapter and the provisions of the resolution authorizing the issuance of such fund notes.

(5) The purpose of the Housing Development Fund is to provide a source from which the corporation may make temporary loans, and the corporation is authorized to make temporary loans from the Housing Development Fund, at such interest rate or rates as may be determined by the corporation to be for the best interest of the corporation and best effectuate the purpose of this chapter, and with such security for repayment as the corporation deems reasonably necessary and practicable, to:

In anticipation of the issuance of such bonds the corporation also is hereby authorized to provide for the issuance, at one time or from time to time, of bond anticipation notes. The principal of and the interest on such bonds or notes shall be payable solely from the funds herein provided for such payment. Any such notes may be made payable from the proceeds of bonds or renewal notes or, in the event bond or renewal note proceeds are not available, such notes may be paid from any available revenues or assets of the corporation. The bonds or notes of each issue shall be dated and may be made redeemable before maturity at the option of the corporation at such price or prices and under such terms and conditions as may be determined by the corporation. In case any officer whose signature or a facsimile of whose signature shall appear on any bonds or notes or coupons attached thereto shall cease to be such officer before the

delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The corporation may also provide for the authentication of the bonds or notes by a trustee or fiscal agent. The bonds or notes may be issued in coupon or in registered form, or both, as the corporation may determine, and provision may be made for the registration of any coupon bonds or notes as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds or notes of any bonds or notes registered as to both principal and interest, and for the interchange of registered and coupon bonds or notes. Upon the approval of a resolution of the corporation, authorizing the sale of its bonds or notes, such bonds or notes may be sold in such manner, either at public or private sale, and for such price as said corporation shall determine to be for the best interest of the corporation and best effectuate the purposes of this chapter provided that such sale shall be approved by the corporation.

(2) The proceeds of any bonds or notes shall be used solely for the purposes for which issued and shall be disbursed in such manner and under such restrictions if any, as the corporation may provide in the resolution authorizing the issuance of such bonds or notes or in the trust agreement hereinafter mentioned securing the same.

(3) Prior to the preparation of definitive bonds, the corporation may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds shall have been executed and are available for delivery. The corporation may also provide for the replacement of any bonds or notes which shall become mutilated or shall be destroyed or lost.

(4) Bonds or notes may be issued under the provisions of this chapter only upon obtaining the approval of the State Property and Buildings Commission, pursuant to the provisions of KRS Chapter 56.

(5) The Department of Finance shall provide to the corporation such fiscal consultant services regarding revenue bond management as may be necessary.

Section 7. KRS 198A.190 is amended to read as follows:

The corporation is authorized to accept *and expend* such moneys as may be appropriated from time to time by the General Assembly *or such monies as may be received from any source including income from the Corporation's operations*, for effectuating its corporate purposes including, without limitation, the payment of the initial expenses of administration and operation and the establishment of a reserve or contingency fund to be available for the payment of the principal of and the interest on any bonds or notes of the corporation.

In the event any such reserve fund or replacement fund created by the Corporation in connection with any such bond issue or note issue should, in violation of any contract made by the Corporation with any bondholder or note holder be monetarily deficient in any respect as of any date of accounting so stipulated by the Corporation, the Corporation shall immediately make formal request in writing to the Commissioner of the Executive Department for Finance and Administration, and to the Governor of Kentucky that sums adequate to restore such reserve fund or replacement fund to its contractually required level and to pay any overdue principal and interest on any outstanding bonds and notes of the Corporation be included in the next succeeding executive budget, and that such budget request with recommendation for approval by the General Assembly to the Corporation for the use and benefit of such reserve fund or replacement fund. In the event the next scheduled regular session of the General Assembly of Kentucky shall occur more than six (6) months after any such request by the Corporation, the Corporation shall request that sums adequate to restore such reserve fund or replacement fund to such contractually required level and to pay any overdue principal and interest on any outstanding bonds and notes of the Corporation, be made available from the Governor's Contingency Fund, and if such funds are so made available the budget request hereinabove described in this section shall be correspondingly reduced.

HB 133, AN ACT relating to motor vehicles.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. KRS 189.390 is amended to read as follows:

(1) No operator of a vehicle upon a highway shall drive at a greater speed than is reasonable and prudent, having regard for the traffic and for the condition and use of the highway.

(2) Where no condition exists that requires lower speed for compliance with subsection (1) of this section, the speed of any vehicle not in excess of the limits specified in this section or established as hereinafter authorized shall be lawful, but any speed in excess of the limits specified in this section or established as hereinafter authorized shall be unlawful:

(a) For all vehicles other than motor trucks, semitrailer trucks, or motor vehicles of five (5) horsepower or less, thirty-five (35) miles per hour in any business or residential district, sixty miles (60) per hour in other locations during the daytime and fifty miles (50) per hour in other locations during the nighttime;

(b) For motor truck and semitrailer trucks, thirty-five (35) miles per hour in any business or residential district, *sixty [fifty (50)] miles per hour in other locations[.] during the daytime and fifty miles per hour in other locations during the nighttime;*

(c) For motor vehicles of five (5) horsepower or less, thirty-five (35) miles per hour in any location.

(3) Whenever the commissioner of highways shall determine upon the basis of an engineering and traffic investigation that any speed limit hereinbefore set forth is greater or less than is reasonable or safe under the conditions found to exist at any intersection or upon any part of a state highway within or without the corporate limits of a municipality, said commissioner of highways may determine and establish by official order a reasonable and safe speed limit at such location which shall be effective at all times or during hours of daytime or nighttime, or at such other times as may be determined when appropriate signs giving notice thereof are erected at such intersection or part of the state highway. In no event, however, shall said commissioner increase any speed limit established by subsection (2) of this section so as to permit in any instance a speed limit in excess of sixty (60) miles per hour.

(4) (a) Whenever municipal authorities or the county court of any county containing a city of the first class or second class determine upon the basis of an engineering and traffic investigation that the speed permitted under subsection (2) of this section is greater or less than is reasonable or safe under the conditions found to exist, at any location within the municipality or unincorporated areas of such county, such municipal authority or county court, subject to paragraph (b) of this subsection, shall determine and authorize by ordinance or order a reasonable and safe speed limit at such location which shall be effective at all times or during hours of daytime or nighttime, or at such times as may be determined when appropriate signs giving notice thereof are appropriately erected at such location. In no event, however, shall said municipal authority or county court increase any speed limit established by subsection (2) of this section so as to permit in any instance a speed limit in excess of sixty (60) miles per hour.

(b) Alteration of speed limits on state highways within a municipality by municipal authorities or within the unincorporated areas of counties containing a city of the first class or second class by county courts thereof shall not be effective until such alteration has been approved by the commissioner of highways. In no event shall said commissioner approve any alteration which could increase any speed limit established by subsection (2) of this section so as to permit in any instance a speed limit in excess of sixty (60) miles per hour.

(c) Whenever the county court of any county containing a city of the first class or second class determines upon the basis of an engineering and traffic investigation and study that it is unsafe to park motor vehicles on or along any highway, other than a state highway, within the unincorporated areas of the county, or that in any business district the congestion of traffic justifies a reasonable limitation on the length of time any one (1) motor vehicle is permitted to park in such district so as to reduce such congestion, then the county court may by order establish "no parking" areas on and along said highway, or limit the length of time any motor vehicle may be parked in any business district, which order or orders shall be effective at all times and during hours of daytime or nighttime and at such other times as may be determined when appropriate signs giving notice thereof are erected at such locations.

(d) Notwithstanding the other limitations in this subsection, the commissioner of highways may establish, by official order, reasonable and safe speed limits on turnpikes and limited access state highways not to exceed seventy (70) miles per hour.

(5) No person shall drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(6) In every charge for a violation of any speed limit specified in this section or established as herein authorized, the warrant or citation shall specify the speed at which the defendant is alleged to have driven, also the lawful speed limit applicable at the location where the violation is charged to have occurred.

(7) As used in this section, the following words and phrases shall have the meanings respectively ascribed to them:

(a) "Business district," the territory contiguous to and including a highway when within any 600 feet along such highway there are buildings in use for business or industrial purposes which occupy 300 feet of frontage on one side or 300 feet collectively on both sides of the highway;

(b) "Residential district," the territory contiguous to and including a highway not comprising a business district when the property on such highway for a distance of 300 feet or more is in the main improved with residences or residences and buildings in use for business;

(c) "State highway," a highway or street maintained by the department of highways;

(d) "Nighttime," the period from one-half (1/2) hour after sunset until one-half (1/2) hour before sunrise, and at such other periods as atmospheric conditions render visibility as low as or lower than is ordinarily the case during that period; "daytime" means at any other period.

(8) The signs and notices which the county judge is authorized hereby to have erected shall be paid for by the fiscal court of the county levy.

The Committee Amendment to **HB 133** is as follows:

(g) That person has been convicted of assault and battery resulting from the operation of a motor vehicle.

If a person so convicted is not the holder of a Kentucky license, the department shall deny him a license for the same period as if he had possessed a license and license had been suspended. The department may, upon receiving a record of the conviction in this state of a nonresident driver of a motor vehicle of any offense under the motor vehicle laws, forward a notice of that person's conviction to the proper officer in the state of which the person so convicted is a resident. (1) There may be a provision as follows:

"Insurance with Other Insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on a provision of service basis or on an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability under any expense incurred coverage of this policy shall be for such proportion of the loss as the amount which would otherwise have been payable hereunder plus the total of the like amounts under all such other valid coverages for the same loss of which this insurer had notice bears to the total like amounts under all valid coverages for such loss, and for the return of such portion of the premiums paid as shall exceed the pro rata portion for the amount so determined. For the purpose of applying this provision when other coverage is on a provision of service basis, the like amount of such other coverage shall be taken as the amount which the services rendered would have cost in the absence of such coverage."

(2) If the foregoing policy provision is included in a policy which also contains the policy provision set out in subsection (1) of KRS 304.17-230, there shall be added to the caption of the foregoing provision the phrase "... Expense Incurred Benefits."

(3) The insurer may, at its option, include in the provision provided in subsection (1) of this section, a definition of "other valid coverage" approved as to form by the commissioner, which definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance law or by insurance authorities of this or any other state of the United States or any province of Canada, and by hospital or medical service organizations, and to any other coverage the inclusion of which may be approved by the commissioner. In the absence of such definition such term shall not include group insurance, automobile medical payments insurance, or coverage provided by hospital or medical service organizations or by union welfare plans or employer or employee benefit organizations. For the purpose of applying such

policy provision no third-party liability coverage amount of benefit provided for such insured pursuant to any compulsory benefit statute, including any *worker's*[workmen's] compensation or employer's liability statute, whether provided by a governmental agency or otherwise, shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying such policy provision no third-party liability coverage shall be included as "other valid coverage."

Section 25. KRS 304.17-230 is amended to read as follows:

(1) There may be a provision as follows:

"Insurance with Other Insurers: If there be other valid coverage, not with this insurer, providing benefits for the same loss on other than an expense incurred basis and of which this insurer has not been given written notice prior to the occurrence or commencement of loss, the only liability for such benefits under this policy shall be for such proportion of the indemnities otherwise provided hereunder for such loss as the like indemnities of which the insurer had notice (including the indemnities under this policy) bear to the total amount of all like indemnities for such loss, and for the return of such portion of the premium paid as shall exceed the pro rata portion for the indemnities thus determined."

(2) If the policy provision set out in subsection (1) of this section is included in a policy which also contains the policy provision set out in subsection (1) of KRS 304.17-220, there shall be added to the caption of the foregoing provisions the phrase "... Other Benefits."

(3) The insurer may, at its option, include in the provision set out in subsection (1) of this section, a definition of "other valid coverage" approved as to form by the commissioner, which definition shall be limited in subject matter to coverage provided by organizations subject to regulation by insurance laws or by insurance authorities of this or any other state of the United States or any province of Canada, and to any other coverage the inclusion of which may be approved by the commissioner. In the absence of such definition such term shall not include group insurance, or benefits provided by union welfare plans or by employer or employee benefit organizations. For the purpose of applying the foregoing policy provision with respect to any insured, any amount of benefit provided for such insured pursuant to any compulsory benefit statute, including any *worker's*[workmen's] compensation or employer's liability statute, whether provided by a governmental agency or otherwise, shall in all cases be deemed to be "other valid coverage" of which the insurer has had notice. In applying such policy provision no third-party liability coverage shall be included as "other valid coverage."

Section 26. KRS 304.17-240 is amended to read as follows:

(1) There may be a provision as follows:

"After the loss-of-time benefit of this policy has been payable for ninety (90) days, such benefit will be adjusted, as provided below, if the total amount of unadjusted loss-of-time benefits provided in all valid loss-of-time coverage upon the insured should exceed --% of the insured's earned income; Provided, however, That if the information contained in the application discloses that the total amount of loss-of-time benefits under this policy and under all other valid loss-of-time coverage expected to be effective upon the insured in accordance with the application for this policy exceeded --% of the insured's earned income at the time of such application, such higher percentage will be used in the place of --%. Such adjusted loss-of-time benefit under this policy for any month shall be only such proportion of the loss-of-time benefit otherwise payable under this policy as:

(a) The product of the insured's earned income and --% (or, if higher, the alternative percentage described at the end of the first sentence of this provision) bears to

(b) The total amount of loss-of-time benefits payable for such month under this policy and all other valid loss-of-time coverage on the insured (without giving effect of the overinsurance provision in this or any other coverage) less in both paragraphs (a) and (b) of this subsection any amount of loss-of-time benefits payable under other valid loss-of-time coverage which does not contain an 'overinsurance provision.' In making such computation, all benefits and earnings shall be converted to a consistent (insert 'weekly' if the loss-of-time benefit of this policy is payable weekly, 'monthly' if such benefit is payable monthly, etc.) basis. If the numerator of the foregoing ratio is zero or is negative, no benefit shall be payable under this policy. In no event shall this provision

1. Operate to reduce the total combined amount of loss-of-time benefits for such month payable under this policy and all other valid loss-of-time coverage below the lesser of \$300 and the total combined amount of loss-of-time benefits determined without giving effect to any 'overinsurance provision' nor

2. Operate to increase the amount of benefits payable under this policy above the amount which would have been paid in the absence of this provision, nor

3. Take into account or operate to reduce any benefit other than the loss-of-time benefit.

(c) For purposes of this provision:

1. 'Earned income,' except where otherwise specified, means the greater of the monthly earnings of the insured at the time disability commences and his average monthly earnings for a period of two (2) years immediately preceding the commencement of such disability, and shall not include any investment income or any other income not derived from the insured's vocational activities.

2. 'Overinsurance provision' shall include this provision and any other provision with respect to any loss-of-time coverage which may have the effect of reducing an insurer's liability if the total amount of loss-of-time benefits under all coverage exceeds a stated relationship to the insured's earnings."

(2) The foregoing provision may be included only in a policy which provides a loss-of-time benefit which may be payable for at least fifty-two (52) weeks, which is issued on the basis of selective underwriting of each individual application, and for which the application includes a question designed to elicit information necessary either to determine the ratio of the total loss-of-time benefits of the insured to the insured's earned income or to determine that such ratio does not exceed the percentage of earnings, not less than 60 per cent, selected by the insurer and inserted in lieu of the blank factor above. The insurer may require, as part of the proof of claim, the information necessary to administer this provision. If the application indicates that other loss-of-time coverage is to be discontinued, the amount of such other coverage shall be excluded in computing the alternative percentage in the first sentence of the overinsurance provision. The policy shall include a definition of "valid loss-of-time coverage," approved as to form by the commissioner, which definition may include coverage provided by governmental agencies and by organizations subject to regulations by insurance law and by insurance authorities of this or any other state of the United States or any other country or subdivision thereof, coverage provided for such insured pursuant to any disability benefits statute or any worker's[workmen's] compensation or employer's liability statute, benefits provided by labor-management trusted plans or union welfare plans or by employer or employee benefit organizations, or by salary continuance or pension programs, and any other coverage the inclusion of which may be approved by the commissioner.

(3) If by application of any of the foregoing provisions the insurer effects a material reduction of benefits otherwise payable under the policy, the insurer shall refund to the insured any premium unearned on the policy by reason of such reduction of coverage during the policy year current and that next preceding at the time the loss commenced, subject to the insurer's right to provide in the policy that no such reduction of benefits or refund will be made unless the unearned premium to be so refunded amounts to \$5.00 or such larger sum as the insurer may so specify.

(b) Special requirements. Notice to agents shall inform them of their duties under KRS 304.33-260 and inform them what information they must communicate to insureds. Notice to policyholders shall include notice of impairment and termination of coverage under KRS 304.33-210. When it is applicable, notice to policyholders shall include

The liquidator may specify different dates for the filing of different kinds of claims.

(3) Notice conclusive. If notice is given in accordance with this section, the distribution of the assets of the insurer under this subtitle shall be conclusive with respect to all claimants, whether or not they received notice.

Section 29. KRS 304.36-080 is amended to read as follows:

(1) The association shall:

(a) Be obligated to the extent of the covered claims existing prior to the determination of insolvency and arising within thirty days after the determination of insolvency, or before the policy expiration date if less than thirty days after the determination, or before the insured replaces the policy or on request effects cancellation, if he does so within thirty days of the determination, but such obligation shall include only that amount of each covered claim which is in excess of \$200 and is less than \$50,000, except that the association shall pay the full amount of any covered claim arising out of a *worker's*[workmen's] compensation policy. In no event shall the association be obligated to a policyholder or claimant in an amount in excess of the face amount of the policy from which the claim arises.

(b) Be deemed the insurer to the extent of its obligation on the covered claims and to such extent shall have all rights, duties, and obligations of the insolvent insurer as if the insurer had not become insolvent.

(c) Assess insurers amounts necessary to pay the obligations of the association under paragraph (a) subsequent to an insolvency, the expenses of handling covered claims subsequent to an insolvency, and the cost of examinations under KRS 304.36-130 and other expenses authorized by this subtitle. Each member insurer shall be notified of the assessment not later than thirty days before it is due. No member insurer may be assessed in any year an amount greater than one percent of that member insurer's net direct written premiums for the calendar year preceding the assessment. If the maximum assessment, together with the other assets of the association, does not provide in any one year an amount sufficient to make all necessary payments, the funds available shall be prorated and the unpaid portion shall be paid as soon thereafter as funds become available. The association shall pay claims in any order which it may deem reasonable including the payment of claims as such are received from the claimants or in groups or categories of claims. The association may exempt or defer, in whole or in part, the assessment of any member insurer, if the assessment would cause the member insurer's financial statement to reflect amounts of capital or surplus less than the minimum amounts required for a certificate of authority by any jurisdiction in which the member insurer is authorized to transact insurance; provided, however, that during the period of deferment no dividends shall be paid to shareholders or policyholders. Deferred assessments shall be paid when such payment will not reduce capital and surplus below required minimums. Such payments shall be refunded to those companies receiving larger assessments by virtue of such deferment, or at the election of any such company, credited against future assessments. Each member insurer serving as a servicing facility may set off against any assessment, authorized payments made on covered claims and expenses incurred in the payment of such claims by such member insurer.

(d) Investigate claims brought against the association and adjust, compromise, settle, and pay covered claims to the extent of the association's obligation and deny all other claims.

(e) Notify such persons as the commissioner directs under KRS 304.36-100 (2) (a).

(f) Handle claims through its employees or through one or more insurers or other persons designated as servicing facilities. Designation of a servicing facility is subject to the approval of the commissioner, but such designation may be declined by a member insurer.

(2) The association may:

(a) Appear in, defend, and appeal any action on a claim brought against the association.

(b) Employ or retain such persons as are necessary to handle claims and perform other duties of the association.

(c) Borrow funds necessary to effect the purposes of this subtitle in accord with the plan of operation.

(d) Sue or be sued.

(e) Negotiate and become a party to such contracts as are necessary to carry out the purpose of this subtitle.

(f) Perform such other acts as are necessary or proper to effectuate the purpose of this subtitle.

(g) Refund to the member insurers in proportion to the contribution of each member insurer to the association that amount by which the assets of the association exceed the liabilities, if, at the end of any calendar year, the board of directors finds that the assets of the association exceed the liabilities of the association as estimated by the board of directors for the coming year.

Section 30. KRS 304.36-120 is amended to read as follows:

(2) Any person having a claim which may be recovered under more than one insurance guaranty association or its equivalent shall seek recovery first from the association of the place of residence of the insured except that if it is a first party claim for damage to property with a permanent location, from the association of the location of the property, and if it is a *worker's*[workmen's] compensation claim, from the association of the residence of the claimant. Any recovery under this subtitle shall be reduced by the amount of the recovery from any other insurance guaranty association or its equivalent.

(3) The guaranty association shall receive the benefit of any reinsurance contract or treaties entered into by the insolvent insurer which cover any of the liabilities incurred by the insolvent insurer with respect to covered claims.

Section 33. KRS 339.370 is amended to read as follows:

The board may also allow traveling expenses to the employee. Such fees and expenses so approved by the board shall be paid out of the Special Fund.

(3) The physician shall, as soon as practicable after he has completed his consideration of the case, but not later than fifteen days after the examination of the employee, report in writing his findings on every medical question in controversy. The physician shall also include in his report a statement indicating the physician or physicians, if any, who appeared before him, and what, if any medical reports and X-rays were considered by him.

(4) The board may consider the report of the physician along with the other evidence in the case in arriving at its decision or award, and any party in interest may take the deposition of the physician to be used as evidence in the case.

(5) The provisions of this section shall apply only to persons mentioned in KRS 342.120.

Section 37. KRS 342.122 is amended to read as follows:

(1) "Adjusted cost" as used in this section and in KRS 342.475 means all compensation, hospital and medical benefits paid thereunder, plus an additional factor of twelve percent of such total payments, to cover the administrative cost of the employer. However in no event shall "adjusted cost" be less than fifty percent of the basic insurance premium computed by applying current manual rates for *worker's*[*workmen's*] compensation insurance to the payroll of every employer carrying his own risk and for this purpose each such employer shall annually furnish payroll data to the *Worker's*[*Workmen's*] Compensation Board. "Adjusted cost" shall not include amounts paid for injuries occurring prior to March 22, 1962.

(2) In addition to the taxes and assessments imposed by KRS 342.450 and 342.475, a Special Fund tax at the rate of three fourths of one percent of the amount of premiums received shall be paid by every insurance carrier as defined in KRS 342.445, subject to the credits therein set out, and the board shall assess against the "adjusted cost" of every employer carrying his own risk a Special Fund Tax computed by taking

three-fourths of one percent of the "adjusted cost" determined as provided in KRS 342.475. The provisions of KRS 342.450, 342.455, 342.460, 342.465 and 342.470 shall, so far as applicable, also apply to the levy and collection of such additional tax of three-fourths of one percent of such premiums of insurance carriers.

(3) All taxes and assessments imposed by subsection (2) of this section shall be paid into the State Treasury and shall be credited to the Special Fund for the board, which fund shall be used only for the payment of awards of compensation made by the board and chargeable against said fund, expenses of legal representation thereof, fees and expenses of the physicians in connection therewith, and shall be withdrawn for that purpose under the supervision of the Commissioner of Labor.

(4) Any sum remaining in the Special Fund at the end of any fiscal year shall be set up by the Department of Finance to the credit of such fund for the next ensuing fiscal year.

(5) If the Commissioner of Labor finds that the Special Fund tax levied pursuant to this section is insufficient to pay such claims awarded under the Special Fund provisions, then he may levy additional assessments against all insurance companies writing *worker's*[workmen's] compensation insurance in Kentucky, including every employer carrying his own risk. The amount of each insurance company's assessment shall be in the proportion that each company's annual *worker's*[workmen's] compensation premium writings in Kentucky bears to the total of all annual *worker's*[workmen's] compensation premiums written in Kentucky. Such assessment will be based upon information contained in the insurance company's last filed annual statement with the Department of Insurance. Such assessments against every employer carrying his own risk will be based upon that proportion which the "adjusted cost" of all such own risk carriers. "Adjusted cost" reports filed with the board in accordance with KRS 342.475 will be the basis of such determination. Such additional assessment against insurance companies and employers carrying their own risk shall be apportioned between the two classes as the total of premiums and the total of "adjusted cost" each bears to the combined total.

(6) The fund heretofore designated as the Subsequent Claim Fund is abolished and there is substituted therefor the Special Fund as herein set out and all monies and properties owned by the Subsequent Claim Fund are transferred to the Special Fund.

Section 38. KRS 342.143 is amended to read as follows:

For the purposes of this chapter the average weekly wage of the state shall be determined by the director as follows: On or before September 1 of each year, the total wages reported by subject employers under the Kentucky unemployment insurance law for the preceding calendar year shall be divided by the average monthly number of insured workers (determined by dividing the total number of insured workers reported for the preceding year by twelve (12)). The average annual wage thus obtained shall be divided by fifty-two (52) and the average weekly wage thus determined rounded to the nearest cent. Such average weekly wage shall be certified to the director by the department of economic security in a manner prescribed by the *worker's*[workmen's] compensation board by regulation. The average weekly wage as so determined shall be applicable for the full period during which income or death benefits are payable, when the date of occurrence of injury or of disablement in the case of disease, or of death, falls within the calendar year commencing January 1 following the September 1 determination. Whenever a change in the average weekly wage of the state is of such amount that the minimum weekly income benefits for total disability or for death are increased or decreased by one dollar (\$1.00) or more, or the maximum weekly income benefits for total disability or for death are increased or decreased by two dollars (\$2.00) or more, computed in each case and rounded to the nearest dollar, an adjustment in those minimums or maximums which are affected in the requisite amount by the change in the average weekly wage of the state shall be made which will reflect this increase or decrease, but no change in such limitations shall otherwise be made.

Section 39. KRS 342.215 is amended to read as follows:

The *Worker's*[Workmen's] Compensation Board shall consist of five members appointed by the Governor and shall be attached to the Department of Labor for administrative services.

(1) Of the members first appointed under this chapter one shall serve until January 1, 1974; one until January 1, 1975; one until January 1, 1976; and two until January 1, 1977. Thereafter, each term shall run for four years from the date of expiration of the term for which his predecessor was appointed, except that a person appointed to fill a vacancy prior to the expiration of such a term shall be appointed for the remainder of the term. Each member of the board shall hold office until his successor is appointed and qualifies. The members of the board shall have the qualifications required of Circuit Judges. The Governor shall designate a member of the board to serve as chairman. Any vacancy in the chairmanship shall be filled by the Governor. The Governor may at any time remove any member for cause after furnishing him with a written copy of the charges against him and giving him a public hearing if he requests it. Each member of the board shall be paid a salary in accord with the provisions of KRS 64.640.

(2) A decision concurred in by any three members shall constitute a decision of the board, unless there are two unfilled vacancies in which case a majority of the remaining members shall constitute a decision of the board.

(3) The terms of all members of the *Worker's*[*Workmen's*] Compensation Board who are in office prior to the effective date of this chapter shall automatically expire on January 1, 1973, any other statute to the contrary notwithstanding.

Section 40. KRS 342.240 is amended to read as follows:

The board shall maintain its main offices in Frankfort, Kentucky, using suitable rooms and offices belonging to this state, and shall be provided necessary office furniture to be paid for by the state. The board shall provide necessary supplies, books and periodicals and maps and shall provide itself with a seal for the authentication of its orders, awards or proceedings, on which shall be inserted the words "*Worker's* [Workmen's] Compensation Board, State of Kentucky, official seal." The board may hold sessions at any place within the state where necessary and shall have power to sue or institute legal proceedings in any court of this state, under existing laws as to jurisdiction of actions. Unless consented to by the board, all actions or proceedings against it or a member in his official capacity as such shall be brought in the courts of Franklin County.

Section 41. KRS 342.285 is amended to read as follows:

(1) An award or order of the board as provided in KRS 342.275, if petition for reconsideration is not filed as provided for in KRS 342.281, shall be conclusive and binding as to all questions of fact, but either party may within twenty days after the rendition of such final award or order of the board, by petition appeal to the circuit court that would have jurisdiction to try an action for damages for the injuries if this chapter did not exist, for the review of such order or award, the board and the adverse party being made respondents. The board shall be named respondent as the *Worker's*[*Workmen's*] Compensation Board, and service shall be had on the director.

(2) The petition shall state fully the grounds upon which a review is sought, and assign all errors relied on. Summons shall issue upon the petition directing the adverse party to file answer within fifteen days after service thereof and directing the board to send its entire original record, properly bound, to the clerk of the circuit court, after certifying that such record is its entire original record, which shall be filed by the clerk of the circuit court and such record shall then become and be considered by the circuit court on the review.

(3) No new or additional evidence may be introduced in the circuit court except as to the fraud or misconduct of some person engaged in the administration of this chapter and affecting the order, ruling or award, but the court shall otherwise hear the cause upon the record as certified by the board and shall dispose of the cause in summary manner. The court shall not substitute its judgment for that of the board as to the weight of evidence on questions of fact, its review being limited to determining whether or not:

(a) The board acted without or in excess of its powers;

(b) The order, decision, or award was procured by fraud;

(c) The order, decision, or award is not in conformity to the provisions of this chapter;

(d) The order, decision, or award is clearly erroneous on the basis of the reliable, probative, and material evidence contained in the whole record; or

(e) The order, decision, or award is arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

(4) The board and each party may appear in such review proceedings; the court shall enter judgment affirming, modifying or setting aside the order, decision or award, or in its discretion remanding the cause to the board for further proceedings in conformity with the direction of the court. The court may, before judgment and upon a sufficient showing of fact, remand the cause to the board.

(5) The appeal shall be advanced on the circuit court docket without motion or notice.

Section 42. KRS 342.290 is amended to read as follows:

(1) Where an amount sufficient under KRS 21.060 to authorize an appeal to the Court of Appeals is involved, the judgment of the circuit court shall be subject to appeal to the Court of Appeals. The scope of review by the Court of Appeals shall include all matters subject to review by the circuit court and also errors of law arising in the circuit court and upon appeal made reviewable by the Rules of Civil Procedure where not in conflict with this chapter.

(2) The procedure as to appeal to the Court of Appeals shall be the same as in civil actions, so far as it is applicable to and not in conflict with this chapter, except as follows:

(a) The appellant shall file with the clerk of the circuit court, together with proof or acknowledgment of service, a schedule which indicates the portions of the record to be incorporated into the transcript of the record to be used on appeal to the Court of Appeals. Should the appellee or his counsel desire additional portions of the record incorporated into the record to be filed in the Court of Appeals, he may file with the clerk of the circuit court his schedule also within ten (10) days thereafter (unless the time is extended by order of the circuit court or the Court of Appeals), indicating the additional portions of the record desired by him. Provided, however, That if the original record of the *worker's*[*workmen's*] compensation board is desired by either party on appeal to the Court of Appeals, it shall not be necessary for the clerk of the circuit court to copy said original record into the transcript, but the same shall be and become a part of the transcript and shall be forwarded to the clerk of the Court of Appeals as a part of the record upon appeal to said court. The

clerk shall not be entitled to any transcript fee for such original record.

(3) The clerk of the circuit court will transmit to the Court of Appeals as the transcript of the record only those portions of the record of the lower court as are designated by the parties as above.

(4) The appeal shall be advanced on the Court of Appeals docket without motion or notice.

Section 43. KRS 342.295 is amended to read as follows:

The circuit court or the Court of Appeals may make such rule or order as it may deem necessary for the safekeeping, transporting and return of such original records of the *worker's*[workmen's] compensation board to the said board when the judgment in the case becomes final, provided that a copy of the final judgment shall be returned with each record. When any appeal has become final the clerk of the Court of Appeals shall return such original record to the *worker's*[workmen's] compensation board, who shall safely keep the same. At all times thereafter such record shall remain a part of the record of the case in the Court of Appeals, though kept in the possession of the *worker's*[workmen's] compensation board.

Section 44. KRS 342.316 is amended to read as follows:

(1) (a) The employer liable for compensation for occupational disease shall be the employer in whose employment the employe was last exposed to the hazard of the occupational disease during any period in which this section is applicable to a coal mine, an operator who acquired it or substantially all of its assets from a person who was its operator on and after January 1, 1973 shall be liable for, and secure the payment of, the benefits which would have been payable by the prior operator under this section with respect to miners previously employed in the mine if it had not been acquired by such later operator. At the same time, however, this subsection does not relieve the prior operator of any liability under this section. Also, it does not affect whatever rights the later operator might have against the prior operator. Said employer shall have the right to contribution from each previous employer, as determined in an independent civil action, wherein the employe was similarly exposed to the hazard of said occupational disease, in a sum equal to the ratio that each exposure employment time bears to the total exposure employment time except as otherwise provided in paragraph (a) of subsection (13) of this section.

(b) The time of the beginning of compensation payments shall be the date of the employe's last injurious exposure to the cause of the disease, or the date of actual disability, whichever is later.

(2) (a) The procedure with respect to the giving of notice and determination of claims in occupational disease cases and the compensation and medical benefits payable for disability or death due to such disease shall be the same as in cases of accidental injury or death under the general provisions of this chapter except that notice of claim shall be given to the employer as soon as practicable after the employe first experiences a distinct manifestation of an occupational disease in the form of symptoms reasonably sufficient to apprise him that he has contacted such disease, or a diagnosis of such disease is first communicated to him, whichever shall first occur.

(b) The procedure with respect to filing of claims shall be as follows:

1. The application shall set forth the work history of the applicant with a concise description of injurious exposure to a specific occupational disease together with the names and addresses of employer or employers with the approximate date of employment and shall also include with the application two written medical reports supporting his claim. These medical reports shall be made on the basis of comprehensive clinical examinations and shall contain full and complete statements of the results thereof. The reports shall be made by duly licensed physicians. The clinical examinations shall include x-ray examinations. However, the failure of an x-ray examination to disclose the presence of an occupational disease shall not affect the legal presumption referred to in subsection (5) of this section.

2. The filing of a properly executed application for adjustment of claim, accompanied by the two medical reports described in subparagraph 1. of this paragraph, shall satisfy the requirements of the presumptive clause set out in subsection (5) of this section and the burden of proof shall immediately thereafter shift to the employer and the Special Fund.

3. Immediately upon receipt of said application for adjustment of claim, the board shall notify the affected employer, the Special Fund and any other interested party of such claim and shall furnish them with a full and complete copy of the claim.

4. Upon receipt of notice of claim the employer, the Special Fund, and any other interested party shall have the right as provided under KRS 342.021 to have the claimant examined by competent medical experts.

5. Within sixty days of the filing of the claim the employer, the Special Fund, and any other interested party shall notify the board and the claimant whether or not the claim will be resisted. If the claim is not resisted, then the board shall within ten days enter an order and award for the claimant. If the claim is resisted, the board shall set a date for a hearing and shall notify all parties thereof. In litigated claims the regular procedures prescribed by the *Worker's*[Workmen's] Compensation Board shall be followed.

(3) The right to compensation under this chapter for disability resulting from an occupational disease shall be forever barred unless a claim is filed with the *Worker's*[Workmen's] Compensation Board within three years after the last injurious exposure to the occupational hazard or after the employe first experiences a distinct manifestation of an occupational disease in the form of symptoms reasonably sufficient to apprise him

that he has contracted the disease, whichever shall last occur; and if death results from the occupational disease within said period, unless a claim therefor be filed with the *Worker's*[*Workmen's*] Compensation Board within three years after such death; provided, however, that notice of such claim shall be deemed waived in case of disability or death where the employer, or his insurance carrier, voluntarily makes payment therefor, or, if the incurrence of the disease or the death of the employe, and its cause was known to the employer. Provided, however, that the right to compensation for any occupational disease shall be forever barred unless a claim is filed with the *Worker's*[*Workmen's*] Compensation Board within five years from the last injurious exposure to the occupational hazard, except that, in cases of radiation disease, a claim must be filed within 20 years from the last injurious exposure to the occupational hazard.

(4) The amount of compensation payable for disability due to occupational disease or for death from such disease, and the time and manner of its payment, shall be the same as provided for accidental injury or death under the general provisions of the *Worker's*[*Workmen's*] Compensation Act, but in no event to exceed such amounts as were in effect at the time of the last injurious exposure, and provided further, that the time of the beginning of compensation payments shall be the date of the employe's last injurious exposure to the cause of the disease, or the date of actual disability, whichever is later, and provided further, that in case of death where the employe has been awarded compensation or made timely claim within the period provided for in this section, an employe has suffered continuous disability to the date of his death occurring at any time within 20 years from the date of disability, his dependents, if any, shall be awarded compensation for his death as provided for under the general provisions of the *Worker's*[*Workmen's*] Compensation Act and in this section.

(5) Where the occupational disease is a compensable pneumoconiosis and there has been employment exposure for 10 years or more to an industrial hazard sufficient to cause the disability of pneumoconiosis there shall be a rebuttable presumption that the disability or death was due to the compensable pneumoconiosis.

(6) Where the employe is suffering or suffered from a chronic dust disease of the lung which (a) when diagnosed by chest roentgenogram, yields one or more large opacities (greater than one centimeter in diameter) and would be classified in category A, B, or C in the International Classification of Radiographs of the Pneumoconioses by the International Labor Organization, (B) when diagnosed by biopsy or autopsy, yields massive lesions in the lung, or (c) when diagnosis is made by other means, would be a condition which could reasonably be expected to yield results described in paragraph (a) or (b) if diagnosis had been made in the manner prescribed in paragraph (a) or (b), then there shall be an irrebuttable presumption that he is totally disabled due to pneumoconiosis or that his death was due to pneumoconiosis, as the case may be.

(7) In case of disability or death from silicosis, coal workers' pneumoconiosis, or any other compensable pneumoconiosis, complicated with tuberculosis of the lungs, pulmonary emphysema or other pulmonary dysfunction and there has been employment exposures to harmful dust or industrial hazards reasonably competent to produce such accompanying disease or dysfunction, there is a rebuttable legal presumption that all resultant disability therefrom is work related and compensable, and compensation shall be payable as for the uncomplicated disease, provided, however, that the disease or dysfunction was an essential factor in causing such disability or death.

(8) If an autopsy has been performed, no testimony relative thereto shall be competent unless the employer or his representative has available findings and reports of the pathologist or doctor who performed the autopsy examination.

(9) No compensation shall be payable for occupational disease if the employe at the time of entering the employment of the employer by whom compensation would otherwise be payable, falsely represented himself, in writing, as not having been previously disabled, laid off, or compensated in damages or otherwise, because of such disease, or failed or omitted truthfully to state to the best of his knowledge, in answer to written inquiry made by the employer, the place, duration and nature of previous employment, or, to the best of his knowledge, the previous state of his health.

(10) No compensation for death from occupational disease shall be payable to any person whose relationship to the deceased, which, under the provisions of this chapter would give right to compensation, arose, subsequent to the beginning of the first compensable disability, save only to after-born children of a marriage existing at the beginning of such disability.

(11) Whenever any claimant misconceives his remedy and files an application for adjustment of claim under the general provisions of this chapter and it is subsequently discovered, at any time before the final disposition of such cause, that the claim for injury, disability or death which was the basis for such application should properly have been made under the provisions of this section, then the application so filed may be amended in form or substance, or both, to assert a claim for such injury, disability or death under the provisions of this section, and it shall be deemed to have been so filed as amended on the date of the original filing thereof, and such compensation may be awarded as is warranted by the whole evidence pursuant to the provisions of this chapter. When such amendment is submitted, further or additional evidence may be heard by the board when deemed necessary. Nothing this section contains shall be construed to be or permit a waiver of any of the provisions of this chapter with reference to notice of time for filing of a claim, but notice of filing a claim, if given or done, shall be deemed to be a notice of filing of a claim under provisions of this

chapter, if given or done within the time required herein.

(12) When an employe has an occupational disease that is covered by this chapter, the employer in whose employment he was last injuriously exposed to the hazard of the disease, and the employer's insurance carrier, if any, at the time of the exposure, shall alone be liable therefor, without right to contribution from any prior employer or insurance carrier; except as otherwise provided herein.

(13) (a) The employer liable for compensation for occupational diseases, other than silicosis or any other compensable pneumoconiosis, which developed to the point of disablement only after an exposure of five or more years, or for silicosis and any other compensable pneumoconiosis, shall be the employer in whose employment the employe was last exposed to the hazard of such occupational disease. In those cases where disability or death are not conclusively proven to be the result of such last exposure all compensation shall be paid out of the Special Fund for all claims filed prior to January 1, 1973; and 75 percent shall be paid by the Special Fund and 25 percent by the employer for all claims filed thereafter. In all other cases of occupational diseases, other than silicosis or any other compensable pneumoconiosis, which developed to the point of disablement only after an exposure of five or more years, or for silicosis and any other compensable pneumoconiosis, the compensation for disability or death due to such diseases shall be paid jointly by the employer and the Special Fund, and the employer shall be liable for sixty percent of the compensation due and the Special Fund shall be liable for forty percent of the compensation due. Provided, however, that when there is a joint award against the carrier or self-insured employer and the Special Fund under this section, all of the compensation awarded shall be paid by the carrier or self-insured employer, and the carrier or self-insured employer shall be reimbursed for such payments from the Special Fund on a quarterly basis and under such regulations as the board may provide for such purpose.

(b) In all claims for compensation partially payable by the Special Fund the Commissioner of Labor, as custodian of said fund, shall be designated as co-defendant.

(c) In all agreements for the payment of compensation and awards the amount payable by the employer and the amount payable out of the Special Fund shall be separately stated. An award against the employer shall be for only the percentage of the total compensation which the employer is obligated to pay. A separate award shall be made against the Special Fund for the balance of the compensation payable. Nothing in this section shall prohibit the Commissioner of Labor, as custodian of the Special Fund, from entering into agreements to pay the compensation for which it is liable; provided, however, that where compensation is payable by both the employer and the Special Fund, the commissioner shall not enter into an agreement unless the employer is a party to the agreement.

Section 45. KRS 342.340 is amended to read as follows:

(1) Every employer under this chapter shall either insure and keep insured his liability for compensation hereunder in some corporation, association or organization authorized to transact the business of *worker's*[workmen's] compensation insurance in this state or shall furnish to the board satisfactory proof of his financial ability to pay directly the compensation in the amount and manner and when due as provided for in this chapter. In the latter case the board shall require the deposit of an acceptable security, indemnity or bond to secure to such an extent as the board directs the payment of compensation liabilities as they are incurred.

(2) Every employer accepting this chapter shall at the time of such acceptance file with the board in substantially the form prescribed by it, and semiannually thereafter, or as often as may be necessary, evidence of his compliance with the provisions of this section and all others relating thereto. Until these provisions are complied with the employer shall, from the date of his acceptance of the chapter, be liable to an employe either for compensation under this chapter or at law in the same manner as if the employer had refused to accept this chapter. Claim of compensation in such cases shall be considered a waiver of the right to proceed at law and the institution of an action at law shall be considered a waiver of all claim to compensation. Upon determination that any employer under this chapter has failed to comply with these provisions the board shall promptly notify interested government agencies of said failure and with particular reference to employers engaged in coal mining the board shall promptly report any such failures to the department of mines and minerals so that appropriate action may be undertaken pursuant to KRS 351.175.

Section 46. KRS 342.375 is amended to read as follows:

Every policy or contract of *worker's*[workmen's] compensation insurance under this chapter, issued or delivered in this state, shall cover the entire liability of the employer for compensation to every one of his employes subject to this chapter, except as otherwise provided in KRS 342.345. However, if specifically authorized by the director, a separate insurance policy may be issued for a specified plant or work location if the liability of such employer under this chapter to all his other employes subject to this chapter is otherwise secured and provided that no employe transferred from one plant or work location to another within the employment of the same employer shall thereby lose any benefit rights accumulated under the average weekly wage concept.

Section 47. KRS 342.390 is amended to read as follows:

(1) Election to operate under this chapter shall be effected by the employer by filing with the board the following notice:

“(Name of employer) elects to operate under the *worker's*[workmen’s] compensation law (KRS chapter 342). This election is effective as of the day of”

(2) In addition each employer shall at the time of filing notice furnish the following information:

(a) Its location and address of chief office;

(b) Average number of employes during preceding twelve (12) months;

(c) Kind of business being conducted; and

(d) Method of securing payments of compensation to employes that the employer elects to adopt.

(3) The notice shall be in writing signed by the employer, if an individual, by any partner, if a partnership, or by the chief officer or agent within this state, if a corporation.

(4) The notice or a copy thereof certified by an authorized representative of the board may be used as evidence in any action by or against the employer in any court of this state of the facts therein shown and that the employer has elected to operate under this chapter.

Section 48. KRS 342.555 is amended to read as follows:

The board of directors shall make and enforce reasonable regulations for the prevention of injuries on the premises of subscribers. For this purpose the inspectors of the association shall have free access to all such premises during regular working hours. Any subscriber or employe aggrieved by any such regulation may petition the *worker's*[workmen’s] compensation board for a review. It may affirm, amend or annul the regulation.

Section 49. KRS 342.620 is amended to read as follows:

As used in this chapter unless the context otherwise requires:

(1) “Injury” means any work related harmful change in the human organism, including damage to or loss of a prosthetic appliance, but does not include any communicable disease unless the risk of contracting such disease is increased by the nature of the employment. “Injury” when used generally, unless the context indicates otherwise, shall include an occupational disease.

(2) “Occupational disease” means a disease arising out of and in the course of the employment.

(a) A disease shall be deemed to arise out of the employment if there is apparent to the rational mind, upon consideration of all the circumstances, a causal connection between the conditions under which the work is performed and the occupational disease, and which can be seen to have followed as a natural incident to the work as a result of the exposure occasioned by the nature of the employment and which can be fairly traced to the employment as the proximate cause. The disease shall be incidental to the character of the business and not independent of the relationship of employer and employe. The disease need not have been foreseen or expected but, after its contraction, it must appear to be related to a risk connected with the employment and to have flowed from that source as a rational consequence.

(b) “Injurious exposure” as used in KRS 342.316 shall mean that exposure to occupational hazard which would, independently of any other cause whatsoever, produce or cause the disease for which claim is made.

(3) “Death” means death resulting from an injury or occupational disease.

(4) “Carrier” means any insurer, or legal representative thereof, authorized to insure the liability of employers under this act and includes a self-insurer.

(5) “Self-insurer” is an employer who has been authorized under the provisions of this chapter to carry his own liability on his employes covered by this chapter.

(6) “Department” means the Department of Labor.

(7) “Director” means the Director of the *Worker's*[Workmen’s] Compensation Board.

(8) “Board” means the *Worker's*[Workmen’s] Compensation Board.

(9) “Disability” means, except for purposes of KRS 342.730 (1) (c) relating to scheduled losses, a decrease of wage earning capacity due to injury or loss of ability to compete to obtain the kind of work the employe is customarily able to do, in the area where he lives, taking into consideration his age, occupation, education, effect upon employe’s general health of continuing in the kind of work he is customarily able to do, and impairment or disfigurement. A person who has lost wages by reason of his disability, and who is otherwise eligible for compensation, is entitled to compensation during the compensable period in an amount equal to the wages lost, so long as this amount does not exceed the applicable maximum compensation. For purposes of determining wages lost under this section, it is assumed that wage earning capacity prior to injury is the average weekly wage as calculated under KRS 342.140. An individual entitled to benefits under permanent-partial disability shall be entitled to either his lost wages due to his injury, or body functional disability benefits, whichever is greater.

(10) “Income benefits” means payments made under the provisions of this chapter to the disabled worker or his dependents in case of death, excluding medical and related benefits.

(11) “Medical and related benefits” means payments made for medical, hospital, burial and other services as provided in this chapter other than income benefits.

(12) "Compensation" means all payments made under the provisions of this chapter representing the sum of income benefits and medical and related benefits.

(13) "Medical services" means medical, surgical, dental, hospital, nursing and medical rehabilitation services, medicines, and fittings for artificial or prosthetic devices.

(14) "Person" means any individual, partnership, firm, association, trust, joint venture, corporation, or legal representative thereof.

(15) "Wages" means, in addition to money payments for services rendered, the reasonable value of board, rent, housing, lodging, fuel or similar advantages received from the employer, and gratuities received in the course of employment from others than the employer as evidenced by the employee's federal and state tax returns.

(16) "Agriculture" means the operation of farm premises, including the planting, cultivation, producing, growing, harvesting and preparation for market of agricultural or horticultural commodities thereon, the raising of livestock for food products and for racing purposes, and poultry thereon, and any work performed as an incident to or in conjunction with such farm operations. It shall not include the commercial processing, packing, drying, storing, or canning of such commodities for market, or making cheese or butter or other dairy products for market.

(17) "Beneficiary" means any person who is entitled to income benefits or medical and related benefits under this chapter.

(18) "United States" when used in a geographic sense, means the several states, the District of Columbia, the Commonwealth of Puerto Rico, the Canal Zone, and the Territories of the United States.

(19) "Alien" means a person who is not a citizen, a national or a resident of the United States or Canada. Any person not a citizen or national of the United States who relinquishes or is about to relinquish his residence in the United States shall be regarded as an alien.

Section 50. KRS 342.670 is amended to read as follows:

(1) If an employee, while working outside the territorial limits of this state, suffers an injury on account of which he, or in the event of his death, his dependents, would have been entitled to the benefits provided by this chapter had such injury occurred within this state, such employee, or in the event of his death resulting from such injury, his dependents, shall be entitled to the benefits provided by this chapter, provided that at the time of such injury:

(a) His employment is principally localized in this state, or

(b) He is working under a contract or hire made in this state in employment not principally localized in any state, or

(c) He is working under a contract of hire made in this state in employment principally localized in another state whose *worker's*[workmen's] compensation law is not applicable to his employer, or

(d) He is working under a contract of hire made in this state for employment outside the United States and Canada.

(2) The payment or award of benefits under the *worker's*[workmen's] compensation law of another state, territory, province or foreign nation to an employee or his dependents otherwise entitled on account of such injury or death to the benefits of this chapter shall not be a bar to a claim for benefits under this chapter, provided that claim under this chapter is filed within one year after such injury or death. If compensation is paid or awarded under this chapter:

(a) The medical and related benefits furnished or paid for by the employer under such other *worker's*[workmen's] compensation law on account of such injury or death shall be credited against the medical and related benefits to which the employee would have been entitled under this chapter had claim been made solely under this chapter;

(b) The total amount of all income benefits paid or awarded the employee under such other *worker's*[workmen's] compensation law shall be credited against the total amount of income benefits which would have been due the employee under this chapter, had claim been made solely under this chapter;

(c) The total amount of death benefits paid or awarded under such other *worker's*[workmen's] compensation law shall be credited against the total amount of death benefits due under this chapter;

(3) If any employee is entitled to the benefits of this chapter by reason of an injury sustained in this state in employment by an employer who is domiciled in another state and who has not secured the payment of compensation as required by this chapter, the employer or his carrier may file with the board a certificate, issued by the commission or agency of such other state having jurisdiction over *worker's*[workmen's] compensation claims, certifying that such employer has secured the payment of compensation under the *worker's*[workmen's] compensation law of such other state and that with respect to said injury such employee is entitled to the benefits provided under such law, and that the benefits to which such employee or his dependents is entitled are at least as great as those to which he would be entitled if the injury occurred and was processed under Kentucky law, under Kentucky coverage. In such event:

(a) The filing of such certificate shall constitute an appointment by such employer or his carrier of the board as his agent for acceptance of the service of process in any proceeding brought by such employee or his

dependents to enforce his or their rights under this chapter on account of such injury;

(b) The board shall send to such employer or carrier, by registered or certified mail to the address shown on such certificate, a true copy of any notice of claim or other process served on the board by the employee or his dependents in any proceeding brought to enforce his or their rights under this chapter;

(c) 1. If such employer is a qualified self-insurer under the *worker's*[workmen's] compensation law of such other state, such employer shall, upon submission of evidence satisfactory to the board, of his ability to meet his liability to such employee under this chapter, be deemed to be a qualified self-insurer under this chapter;

2. If such employer's liability under the *worker's*[workmen's] compensation law of such other state is insured, such employer's carrier, as to such employee or his dependents only, shall be deemed to be an insurer authorized to write insurance under and be subject to this chapter; provided, however, that unless its contract with said employer requires it to pay an amount equivalent to the compensation benefits provided by this chapter, its liability for income benefits or medical and related benefits shall not exceed the amounts of such benefits for which such insurer would have been liable under the *worker's*[workmen's] compensation law of such other state;

(d) If the total amount for which such employer's insurance is liable under (c) above is less than the total of the compensation benefits to which such employee is entitled under this chapter, the board may, if it deems it necessary, require the employer to file security, satisfactory to the board, to secure the payment of benefits due such employee or his dependents under this chapter, and

(e) Upon compliance with the preceding requirements of this subsection (3), such employer, as to such employee only, shall be deemed to have secured the payment of compensation under this chapter.

(4) As used in this section:

(a) "United States" includes only the states of the United States and the District of Columbia;

(b) "State" includes any state of the United States, the District of Columbia, or any Province of Canada;

(c) "Carrier" includes any insurance company licensed to write *worker's*[workmen's] compensation insurance in any state of the United States or any state or provincial fund which insures employers against their liabilities under a *worker's*[workmen's] compensation law;

(d) A person's employment is principally localized in this or another state when 1. his employer has a place of business in this or such other state and he regularly works at or from such place of business, or 2. if subparagraph 1. foregoing is not applicable, he is domiciled and spends a substantial part of his working time in the service of his employer in this or such other state;

(e) An employee whose duties require him to travel regularly in the service of his employer in this and one or more other states may, by written agreement with his employer, provide that his employment is principally localized in this or another such state, and, unless such other state refuses jurisdiction, such agreement shall be given effect under this chapter;

(f) *Worker's*[Workmen's] compensation law" includes "occupational disease law."

Section 51. KRS 342.700 is amended to read as follows:

(1) Whenever an injury for which compensation is payable under this chapter has been sustained under circumstances creating in some other person than the employer a legal liability to pay damages, the injured employee may either claim compensation or proceed at law by civil action against such other person to recover damages, or proceed both against the employer for compensation and such other person to recover damages, but he shall not collect from both. If the injured employee elects to proceed at law by civil action against such other person to recover damages, he shall give due and timely notice to the employer of the filing of such action. If compensation is awarded under this chapter, the employer, his insurance carrier, the Special Fund, and the Uninsured Employer's Fund, or any of them, having paid the compensation or having become liable therefor, may recover in his or its own name or that of the injured employee from the other person in whom legal liability for damages exists, not to exceed the indemnity paid and payable to the injured employee, less the employee's legal fees and expense.

(2) A principal contractor, intermediate or subcontractor shall be liable for compensation to any employee injured while in the employ of any one of his intermediate or subcontractors and engaged upon the subject matter of the contract, to the same extent as the immediate employer. Any principal, intermediate or subcontractor who pays such compensation may recover the amount paid from any subordinate contractor through whom he has been rendered liable under this section. Every claim to compensation under this subsection shall in the first instance be presented to and instituted against the immediate employer, but such proceedings shall not constitute a waiver of the employee's rights to recover compensation under this chapter from the principal or intermediate contractor nor shall such claim be barred by limitations, provided such claim is filed against the principal or intermediate contractor within one year after a final unappealed order has been rendered by the *Worker's*[Workmen's] Compensation Board determining that immediate employer has insufficient security to pay the full and maximum benefits that could be determined to be due him under this chapter. The collection of full compensation from one employer shall bar recovery by the employee

against any other. But he shall not collect from all a total compensation in excess of the amount for which his immediate employer is liable. This subsection shall apply only in cases where the injury occurred on, in or about the premises on which the principal contractor has undertaken to execute work or which are under his control otherwise or management.

Section 52. KRS 342.750 is amended to read as follows:

If the injury causes death, income benefits shall be payable in the amount and to or for the benefit of the persons following, subject to the maximum limits specified in subsections (3) and (4) of this section:

(1) (a) If there is a widow or widower and no children of the deceased, to such widow or widower 50 percent of the average weekly wage of the deceased, during widowhood or widowerhood.

(b) To the widow or widower, if there is a child or children living with the widow or widower, 45 percent of the average weekly wage of the deceased, or 40 percent, if such child is not or such children are not living with a widow or widower, and in addition thereto, 15 percent for each child. Where there are more than two such children, the indemnity benefits payable on account of such children shall be divided among such children, share and share alike.

(c) Two years' indemnity benefits in one lump sum shall be payable to a widow or widower upon remarriage.

(d) To the children, if there is no widow or widower, 50 percent of such wage for one child, and 15 percent for each additional child, divided among such children share and share alike.

(e) The income benefits payable on account of any child under this section shall cease when he dies, marries, or reaches the age of eighteen, or when a child over such age ceases to be physically or mentally incapable of self-support, or if actually dependent ceases to be actually dependent, or, if enrolled as a full-time student in any accredited educational institution, ceases to be so enrolled or reaches the age of 22. A child who originally qualified as a dependent by virtue of being less than 18 years of age may, upon reaching age 18, continue to qualify if he satisfies the tests of being physically or mentally incapable of self-support, actual dependency, or enrollment in an educational institution.

(f) To each parent, if actually dependent, 25 percent.

(g) To the brothers, sisters, grandparents, and grandchildren, if actually dependent, 25 percent to each such dependent. If there should be more than one of such dependents, the total income benefits payable on account of such dependents shall be divided share and share alike.

(h) The income benefits of each beneficiary under paragraphs (f) and (g) above shall be paid until he, if a parent or grandparent, dies, marries, or ceases to be actually dependent, or, if a brother, sister, or grandchild, dies, marries, or reaches the age of eighteen or if over that age ceases to be physically or mentally incapable of self-support, or ceases to be actually dependent.

(i) A person ceases to be actually dependent when his income from all sources exclusive of *worker's* [workmen's] compensation income benefits is such that, if it had existed at the time as of which the original determination of actual dependency was made, it would not have supported a finding of dependency. In any event, if the present annual income of an actual dependent person including *worker's* [workmen's] compensation income benefits at any time exceeds the total annual support received by the person from the deceased employee, the *worker's* [workmen's] compensation benefits shall be reduced so that the total annual income is no greater than such amount of annual support received from the deceased employee. In all cases, a person found to be actually dependent shall be presumed to be no longer actually dependent three years after each time as of which the person was found to be actually dependent. This presumption may be overcome by proof of continued actual dependency as defined in this subsection, but full payments shall not be suspended during the pendency of any proceeding to determine dependency.

(2) Upon the cessation of income benefits under this section to or on account of any person, the income benefits of the remaining persons entitled to income benefits for the unexpired part of the period during which their income benefits are payable shall be that which such persons would have received if they had been the only persons entitled to income benefits at the time of the decedent's death.

(3) For the purposes of this section, the average weekly wage of the employee shall be taken as not more than the average weekly wage of the state as determined in KRS 342.740. In no case shall the aggregate weekly income benefits payable to all beneficiaries under this section exceed the maximum income benefit that was or would have been payable for total disability to the deceased, including benefits to his dependents.

(4) The maximum weekly income benefits payable for all beneficiaries in case of death shall not exceed 75 percent of the average weekly wage of the deceased as calculated under KRS 342.140, subject to the maximum limits in subsection (3) above. The maximum aggregate limitation shall not operate in case of payment of two years' income benefits to the widow or widower upon remarriage as provided under paragraph (c) of subsection (1) of this section, to prevent the immediate recalculation and payments of benefits to the remaining beneficiaries as provided under subsection (2) of this section, but the weekly income benefits as to such remaining beneficiaries shall not exceed the weekly income benefit that was or would have been payable for total disability to the deceased. The classes of beneficiaries specified in paragraphs (a), (b) and (d) of

subsection (1) shall have priority over all other beneficiaries in the apportionment of income benefits. If the provisions of this subsection should prevent payment to other beneficiaries of the income benefits to the full extent otherwise provided for by this section, the gross remaining amount of income benefits payable to such other beneficiaries shall be apportioned by class, proportionate to the interest of each class in the remaining amount. Parents shall be considered to be in one class and those specified in paragraph (f) of subsection (1) in another class.

(5) All relations of dependency referred to in this section shall mean dependency existing at the time of the accident to the employee or at the time his disability from an occupational disease began.

Section 53. KRS 405.010 is amended to read as follows:

The father and mother of a child under the age of eighteen are equally entitled to its services and earnings. If one of the parents is dead, or has abandoned the child, or been deprived of its custody by court decree, the other is entitled to its services and earnings. The parents jointly may maintain an action for loss of the services or earnings of their child under the age of eighteen when the loss is occasioned by an injury wrongfully or negligently inflicted upon the child. But if either the father or mother is dead, or has abandoned the child, or has been deprived of its custody by court decree, or refuses to sue, the other may sue alone. This section shall not affect the existing law relating to *worker's*[workmen's] compensation and industrial accidents.

The complaint must be filed within one hundred eighty days after the alleged unlawful practice occurs[, except that a complaint alleging discrimination in real estate transaction must be filed within thirty days, and a complaint alleging discrimination in employment (under KRS 344.030 to 344.110) must be filed within ninety days].
